

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2012-0648; Airspace
Docket No. 12-ANM-19]

**Proposed Amendment of Class E
Airspace; Pullman, WA**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to modify Class E airspace at Pullman/Moscow Regional Airport, Pullman, WA. Controlled airspace is necessary to accommodate aircraft using Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Pullman/Moscow Regional Airport, Pullman, WA. Also, the Pullman navigation aid would be removed from the airspace designation. The FAA is proposing this action to enhance the safety and management of aircraft operations at the airport.

DATES: Comments must be received on or before October 5, 2012.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-9826. You must identify FAA Docket No. FAA-2012-0648; Airspace Docket No. 12-ANM-19, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203-4537.

SUPPLEMENTARY INFORMATION:**Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA

2012-0648 and Airspace Docket No. 12-ANM-19) and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). You may also submit comments through the Internet at <http://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2012-0648 and Airspace Docket No. 12-ANM-19". The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E

surface airspace and Class E airspace extending upward from 700 feet above the surface at Pullman/Moscow Regional Airport, Pullman, WA. Controlled airspace is necessary to accommodate aircraft using the RNAV (GPS) standard instrument approach procedures at Pullman/Moscow Regional Airport, Pullman, WA. This action would enhance the safety and management of aircraft operations at the airport. Also, for clarity, the Pullman VHF Omni-Directional Radio Range/Distance Measuring Equipment (VOR/DME) would be removed from the regulatory text.

Class E airspace designations are published in paragraph 6002 and 6005, respectively, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify controlled airspace at Pullman/Moscow Regional Airport, Pullman, WA.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR Part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, and effective September 15, 2011 is amended as follows:

Paragraph 6002 Class E Airspace Designated as Surface Areas.

* * * * *

ANM WA E2 Pullman, WA [Modified]

Pullman/Moscow Regional Airport, WA
(Lat. 46°44'38" N., long. 117°06'35" W.)

Within a 4-mile radius of Pullman/Moscow Regional Airport, and within 1.7 miles each side of the Pullman/Moscow Regional Airport 046° bearing extending from the 4-mile radius to 8 miles northeast of the airport, and within 1.7 miles each side of the Pullman/Moscow Regional Airport 227° bearing extending from the 4-mile radius to 6 miles southwest of the airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANM WA E5 Pullman, WA [Modified]

Pullman/Moscow Regional Airport, WA
(Lat. 46°44'38" N., long. 117°06'35" W.)

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the Pullman/Moscow Regional Airport, and within 1.7 miles each side of the Pullman/Moscow Regional Airport 229° bearing extending from the 10-mile radius to

13 miles southwest of the airport, and that airspace bounded by a line beginning at the intersection of the 10-mile radius of the airport and the Pullman/Moscow Regional Airport 307° bearing to the intersection of the 23-mile radius of the airport and the Pullman/Moscow Regional Airport 328° bearing extending clockwise within a 23-mile radius of the Pullman/Moscow Regional Airport; thence to the intersection of the 23-mile radius of the airport and the Pullman/Moscow Regional Airport 064° bearing of the airport to the intersection of the 10-mile radius of the airport and the Pullman/Moscow Regional Airport 066° bearing of the airport; thence to the point of origin. That airspace extending upward from 1,200 feet above the surface bounded by a line beginning at lat. 46°46'00" N., long. 117°51'00" W.; to lat. 47°06'00" N., long. 117°29'00" W.; to lat. 47°10'00" N., long. 117°13'00" W.; to lat. 47°07'00" N., long. 116°50'00" W.; to lat. 46°57'00" N., long. 116°28'00" W.; to lat. 46°38'00" N., long. 116°41'00" W.; to lat. 46°31'00" N., long. 116°23'00" W.; to lat. 46°12'00" N., long. 116°25'00" W.; to lat. 46°19'00" N., long. 116°57'00" W.; to lat. 46°24'00" N., long. 117°30'00" W.; thence to the point of origin.

Issued in Seattle, Washington, on August 14, 2012.

John Warner,

Manager, Operations Support Group, Western Service Center.

[Docket No. FAA–2011–1082]

Proposed Provision of Navigation Services for the Next Generation Air Transportation System (NextGen) Transition to Performance-Based Navigation (PBN); Disposition of Comments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed policy; disposition of comments.

SUMMARY: On December 15, 2011, the FAA published a **Federal Register** Notice (76 FR 77939) requesting comments on the FAA's plans for providing PBN services, and particularly the transition from the current Very High Frequency Omnidirectional Ranges (VOR) and other legacy navigation aids (NAVAIDS) to Area Navigation (RNAV)-based airspace and procedures. This action responds to the public comments the FAA received.

ADDRESSES: You may review the public docket for this notice (Docket No. FAA–2011–1082) at the Docket Management Facility at DOT Headquarters in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE., Washington, DC 20590–0001 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also review the public docket on the Internet at <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Joyner, AJM–324, Program Management Organization, Navigation Program Engineering, Federal Aviation Administration, 800 Independence Avenue SW., Washington DC 20591; telephone 202–493–5721.

SUPPLEMENTARY INFORMATION:

Summary of the December 15, 2011 FRN

The FAA sought comments on the proposed transition of the U.S. National Airspace System (NAS) navigation infrastructure to enable PBN as part of the NextGen. The FAA plans to transition from defining airways, routes and procedures using VOR and other legacy NAVAIDS, to a NAS based on RNAV everywhere and Required Navigation Performance (RNP) where beneficial. RNAV and RNP capabilities will primarily be enabled by the Global Positioning System (GPS) and the Wide Area Augmentation System (WAAS). The FAA plans to retain an optimized network of Distance Measuring Equipment (DME) facilities and a Minimum Operational Network (MON) of VOR facilities to ensure safety and support continued operations in high and low altitude en route airspace over the Conterminous United States (CONUS) and in terminal airspace at the Core 30 airports. The FAA is also conducting research on non-GPS based Alternate Positioning, Navigation and Timing (APNT) solutions that would enable further reduction of VORs below that of the MON.

In addition, the FAA plans to satisfy any new requirements for Category I (CAT I) instrument landing operations with WAAS Localizer Performance with Vertical guidance (LPV) procedures. A network of existing Instrument Landing Systems (ILSs) will be sustained to provide alternative approach and landing capabilities to support continued recovery and dispatch of aircraft during GPS outages.

This transition is consistent with the FAA's NextGen Implementation Plan (NGIP), NAS Enterprise Architecture (NASEA), and other documentation. More information is available on the
