

Section 33112 established requirements that motor vehicle insurers and rental and leasing companies submit information to NHTSA on their actions to prevent or discourage the theft of motor vehicles that are stolen for the purpose of removing certain parts; to prevent or discourage the sale in interstate commerce of used parts that are removed from those vehicles; and to help reduce the cost to consumers of comprehensive insurance coverage for motor vehicles. Section 33112 required insurers and rental and leasing companies to provide motor vehicle theft and recovery information in a form consistent with requirements set forth in regulations promulgated by the Secretary of Transportation.

Congress repealed Title 49 U.S.C., Section 33112 *Insurer reports and information*, effective October 1, 2012. Accordingly, the proposed rule to implement the requirements contained in Section 33112, published on May 14, 2012, at 77 FR 28343, entitled *Insurer Reporting Requirements; List of Insurers Required to File Reports*, is hereby withdrawn.

Issued on: August 17, 2012.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) requires each regional fishery management council to submit any fishery management plan or amendment to NMFS for review and approval, partial approval, or

disapproval. The Magnuson-Stevens Act also requires that NMFS, upon receiving a plan or amendment, publish an announcement in the **Federal Register** notifying the public that the plan or amendment is available for review and comment.

Background

Amendment 18A, implemented through final rulemaking on July 1, 2012, (77 FR 32408, June 1, 2012), included a provision to limit participation in the black sea bass pot segment of the snapper-grouper fishery through the establishment of an endorsement program. The proposed rule for Amendment 18A (77 FR 06991, March 23, 2012) outlined the criteria for qualifying for an endorsement. As of August 22, 2012, 32 South Atlantic snapper-grouper unlimited permit holders qualify for an endorsement, and more could qualify after the appeals process finalizes.

Amendment 18A also contained an action to allow for the transfer of black sea bass pot endorsements. However, NMFS disapproved this action because Amendment 18A and the supporting environmental impact statement identified the incorrect preferred alternative. In addition, there were discrepancies in the record regarding the Council’s discussion of the alternatives. Therefore, NMFS was unable to implement the action in compliance with the Administrative Procedures Act. The Council decided to revise and resubmit the action addressing transferability of black sea bass pot endorsements in an amendment (the Resubmittal). All reasonable alternatives for the transferability action were analyzed in Amendment 18A according to the National Environmental Policy Act, including biological, economic, social, administrative, and cumulative impacts of the action.

The Resubmittal contains one action that would allow transfer of a black sea bass pot endorsement to an individual or entity that holds or simultaneously obtains a valid South Atlantic snapper-grouper unlimited permit. In order to be transferred, a black sea bass pot endorsement must be valid or renewable. Black sea bass pot endorsements may be transferred independently from the South Atlantic snapper-grouper unlimited permit with which it is associated. Landings history would not be transferred with the endorsement. NMFS will attribute black sea bass landings to the associated South Atlantic snapper-grouper unlimited permit regardless of whether the landings occurred before or after the

endorsement was issued. Black sea bass pot endorsements would not be renewed automatically with the South Atlantic snapper-grouper permit with which it is associated. The endorsement must be renewed separately from the permit using the Federal Permit Application for Vessels Fishing in the Exclusive Economic Zone (EEZ).

The Council has submitted for Secretarial review, approval and implementation, a revised action from Amendment 18A establishing black sea bass endorsement transferability. NMFS' decision to approve, partially approve, or disapprove the Resubmittal will be based, in part, on consideration of comments, recommendations, and information received during the comment period on this notice of availability. After consideration of these factors, and the action's consistency

with the Magnuson-Stevens Act and other applicable law, NMFS will publish a notice of agency action in the **Federal Register** announcing the Agency's decision to approve, partially approve, or disapprove the Resubmittal.

Proposed Rule for Amendment 18A

NMFS proposes a rule that would implement measures outlined in the Resubmittal. In accordance with the Magnuson-Stevens Act, NMFS is evaluating the proposed rule to determine whether it is consistent with the FMP, the Magnuson-Stevens Act, and other applicable law. If that determination is affirmative, NMFS will publish the proposed rule in the **Federal Register** for public review and comment.

Consideration of Public Comments

Comments received by October 22, 2012, whether specifically directed to the amendment or the proposed rule, will be considered by NMFS in its decision to approve, disapprove, or partially approve the amendment. Comments received after that date will not be considered by NMFS in this decision. All comments received by NMFS on the amendment or the proposed rule during their respective comment periods will be addressed in the final rule.
