

Registration, is inserted in contracts. FAR clause 52.204-7 requires a potential Federal contractor to provide its TIN in the Central Contractor Registration (CCR) system.

B. Annual Reporting Burden

The annual reporting burden decreased from what was published in the **Federal Register** at 73 FR 20613, on April 16, 2008. The decrease is attributed to a revised estimate of the respondents and hours per response. A potential federal contractor is required to complete a one-time registration in CCR to provide basic information in order to be awarded a Federal Government contract. Part of a potential Federal contractor's CCR registration includes providing its TIN in accordance with FAR 52.204-7. It is estimated that a significant number of Federal contractors will not be required to submit their TIN under this collection at FAR 52.204-3, due to the requirement to submit their TIN during the registration process. Based on Federal procurement Data Systems (FPDS) data, 193,397 unique contractors were awarded Federal Government contracts in Fiscal Year 2011 (FY11). We estimate that fifteen percent of the FY11 unique vendors, responding on average to three solicitations per year, are required to provide their TIN in accordance with FAR 52.204-3. In addition, based on the TIN being readily available business information within contractor's system, the estimated hours per response is decreased to .10. The revised estimate of the annual reporting burden requirements is reflected below.

Respondents: 29,010.

Responses per Respondent: 3.

Total Responses: 87,030.

Hours per Response: .10.

Total Burden Hours: 8,703.

SUPPLEMENTARY INFORMATION:

A. Purpose

The objective of a contractor purchasing system review (CPSR), as discussed in Part 44 of the FAR, is to evaluate the efficiency and effectiveness with which the contractor spends Government funds and complies with Government policy when subcontracting. The review provides the administrative contracting officer a basis for granting, withholding, or withdrawing approval of the contractor's purchasing system.

B. Annual Reporting Burden

There is no single data collection process or system, e.g., Federal Procurement Data System (FPDS), that identifies the number of CPSRs conducted governmentwide. To date no public comments or questions have been received regarding the burden estimates included in the currently approved clearance. However, for purposes of this clearance, the estimated Average Burden Per Response is estimated at 25 hours per completion. Based on coordination with a Government agency that conducts CPSRs, the estimate has been adjusted upwards from the current 17 hours to 25 hours, in order to provide a more accurate accounting of the contractors' time necessary for reading information and preparing for a CSPR.

Number of Respondents: 1,580.

Responses per Respondent: 1.

Total Responses: 1,580.

Average Burden per Response: 25.

Total Burden Hours: 39,500.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis E. Glover, Sr., Procurement Analyst, Office of Governmentwide Acquisition Policy, GSA, (202) 501-1448 or email Curtis.glover@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

FAR 16.205, Fixed-price contracts with prospective price redetermination, provides for firm fixed prices for an initial period of the contract with prospective redetermination at stated times during performance. FAR 16.206, Fixed price contracts with retroactive price redetermination, provides for a fixed ceiling price and retroactive price redetermination within the ceiling after completion of the contract. In order for the amounts of price adjustments to be determined, the firms performing under these contracts must provide information to the Government regarding their expenditures and anticipated costs. The information is used to establish fair price adjustments to Federal contracts.

B. Annual Reporting Burden

The estimated total burden is lower than that published the **Federal Register** at 74 FR 62783, on December 1, 2009. This is due to the decrease in the estimated number of respondents. Based on Fiscal Year 2011 information from the Federal Procurement Data System,

an estimated 230 unique contractors were awarded 1,970 fixed-price redetermination contracts. Thus, each vendor responded on average 8.6 times a year (rounded up to 9). The hours per response is increased to 2 hours after a reassessment of the time required to prepare and report the information.

Respondents: 230.

Responses per Respondent: 9.

Annual Responses: 2,070.

Hours per Response: 2.

Total Burden Hours: 4,140.
