Title of Collection: 2012–13 Teacher Follow-up Survey (TFS:2013) and Principal Follow-up Survey (PFS:2013) to the Schools and Staffing Survey (SASS).

OMB Control Number: 1850–0598.

Type of Review: Revision.

Total Estimated Number of Annual Responses: 15,469.

Total Estimated Number of Annual Burden Hours: 2,876.

Abstract: This request from the National Center for Education Statistics (NCES), of the U.S. Department of Education (ED), is for clearance for the full scale data collection for the 2012–13 Teacher Follow-up Survey (TFS:2013) and Principal Follow-up Survey (PFS:2013) to the 2011–12 Schools and Staffing Survey (SASS:2012). The seventh cycle of SASS (2011–12) is currently being conducted and the proposed TFS:2013 will be the seventh corresponding cycle of TFS, while PFS:2013 will be the second cycle of PFS. The Schools and Staffing Survey (SASS) is an in-depth, nationally-representative survey of first through twelfth grade public and private school teachers, principals, schools, library media centers, and school districts. Kindergarten teachers in schools with at least a first grade are also surveyed. For traditional public school districts, principals, schools, teachers, and school libraries, the survey estimates are state-representative. For public charter schools, principals, teachers, and school libraries, the survey estimates are nationally-representative. For private school principals, schools, and teachers, the survey estimates are representative of private school types. The TFS is a survey of teachers with the main purpose of providing a one-year teacher attrition rate. The PFS is a survey of principals that assesses how many school principals work in the same school as reported a year earlier in

SASS:2012, how many have moved to become a principal at another school, and how many have left the principalship altogether. Similar to earlier TFS collections, the TFS:2013 sample of 7,000 teachers (drawn using a sampling design similar to that used in earlier TFS collections) is a sub-sample of the teachers who responded to SASS:2012. The PFS:2013 sample includes all of the approximately 9,800 schools whose principals completed questionnaires in SASS:2012.
