

Program Office will brief the NAC on Emerging Topics in Emergency Management during lunch, scheduled for 1 p.m. to 2:15 p.m. EDT.

In 1968, Congress created the National Flood Insurance Program (NFIP) to help provide a way for property owners to financially protect themselves by offering flood insurance if their community participates in the NFIP. Participating communities adopt and enforce ordinances that meet or exceed FEMA requirements to reduce the risk of flooding. FEMA announced the extension of the Preferred Risk Policy eligibility under the NFIP until further notice, as the Agency completes a study and analysis of the Biggert-Waters Flood Insurance Reform Act of 2012, signed into law by President Obama on July 6, 2012. More information can be found at http://www.floodsmart.gov/floodsmart/pages/about/nfip_overview.jsp.

FEMA announced the first ever NBOEC under Emergency Support Function (ESF)-15 in the National Response Coordination Center. This NBOEC is envisioned as a groundbreaking new virtual organization that serves as FEMA's clearinghouse for two-way information sharing between public and private sector stakeholders in preparing for, responding to, and recovering from disasters. More information can be found at <http://www.fema.gov/private-sector-1>.

Youth preparedness is a priority at the Federal level. Since fall 2010, FEMA, the U.S. Department of Education and the American Red Cross have been collaborating to empower youth to build a more resilient nation through youth preparedness education. More information on Youth Preparedness Program can be found at <http://www.citizencorps.gov/ready/kids.shtm>.

EMI is the emergency management community's training institution, and provides training to Federal, State, local, Tribal, volunteer, public, and private sector officials to strengthen emergency management core competencies for professional, career-long training. More information on EMI can be found at <http://training.fema.gov/EMI/>.

SFI promotes broader and longer term thinking, how the world is changing and the effects on the emergency management community. Thinking more broadly and over a longer timeframe will help us understand these changes and their potential impacts. More information on SFI can be found at http://www.fema.gov/about/programs/oppa/strategic_foresight_initiative.shtm.

In the event that U.S.-based responders are overwhelmed there are

constraints on the entry and use of foreign responders due to concerns about liability and licensure issues. There are potential shortfalls in Urban Search and Rescue (US&R) capabilities needed to respond to catastrophic disasters and emphasizing the need to streamline how nations might share this important asset following a catastrophic disaster. More information can be found at <http://usaid.gov/>.

The primary purpose of the FEMA Qualifications System (FQS) is to provide the best possible customer service to survivors and communities working to respond to, recover from, and mitigate against disasters. FQS helps build FEMA's disaster response and recovery capability by providing personnel with the training and experience needed to assume positions of progressively greater responsibility. More information on FQS can be found at <http://www.fema.gov/fema-qualification-system-0>.
