AGENCY: Import Administration, International Trade Administration, Department of Commerce

DATES: *Effective Date:* October 18, 2012.

SUMMARY: On April 11, 2012, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on glycine from the People's Republic of China (PRC)¹ in the **Federal Register**. We revised the preliminary results on June 27, 2012, and issued the results to all interested parties for comment.² We have analyzed all comments received by the parties and have made changes to the margin calculation with respect to the sole company subject to this review, Baoding Mantong Fine Chemistry Co. Ltd. (Baoding Mantong), for the final results.

FOR FURTHER INFORMATION CONTACT: Edythe Artman or Angelica Mendoza, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3931 or (202) 482-3019, respectively.

SUPPLEMENTARY INFORMATION:

Period of Review

The period of review is March 1, 2010, through February 28, 2011.

Scope of the Order

The product covered by the order is glycine, which is a free-flowing crystalline material, like salt or sugar. Glycine is produced at varying levels of purity and is used as a sweetener/taste enhancer, a buffering agent, reabsorbable amino acid, chemical intermediate, and a metal complexing agent. This review covers glycine of all purity levels. Glycine is currently classified under subheading 2922.49.4020 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and Customs purposes, the written description of the merchandise subject to the order is dispositive.

Background

On April 11, 2012, the Department published the *Preliminary Results* in the **Federal Register**. The Department provided interested parties with the

opportunity to comment on the preliminary results of review and to submit, pursuant to 19 CFR 351.301(c)(3)(ii) and 351.408(c), publicly available information to value factors of production within 20 days after the date of publication of the results. The domestic interested party, GEO Specialty Chemicals, Inc. (GEO), submitted factor-valuation information on May 1, 2012. GEO and the sole respondent in this review,³ Baoding Mantong, submitted case briefs on May 11, 2012, and Baoding Mantong submitted rebuttal comments on May 16, 2012. Based on the comments received, we made revisions to certain surrogate valuations and the preliminary margin-calculation program for Baoding Mantong. We released the Revised Preliminary Results of review to all interested parties on June 27, 2012.

Both GEO and Baoding Mantong submitted comments and factor-valuation information on the Revised Preliminary Results on July 16, 2012, and rebuttal comments on July 23, 2012. On July 31, 2012, we extended fully the deadline of the final results of review from August 9, 2012, to October 9, 2012.⁴
