### **DEPARTMENT OF COMMERCE**

## National Institute of Standards and Technology

National Fire Codes: Request for Public Input for Revision of Codes and Standards

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** This notice contains the list of National Fire Protection Association (NFPA) documents opening for Public Input, and it also contains information on the NFPA Revision Process. The National Institute of Standards and Technology (NIST) is publishing this notice on behalf of the National Fire Protection Association (NFPA) to announce the NFPA's proposal to revise some of its fire safety codes and standards and requests Public Input to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards.

**DATES:** Interested persons may submit Public Input by 5:00 p.m. EST/EDST on or before the date listed with the code or standard.

ADDRESSES: Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169–7471.

### FOR FURTHER INFORMATION CONTACT:

Amy Beasley Cronin, NFPA, Secretary, Standards Council, at above address, (617) 770–3000. David F. Alderman, NIST, 100 Bureau Drive, MS 2100, Gaithersburg, MD 20899, email: david.alderman@nist.gov, or at 301–975–4019.

SUPPLEMENTARY INFORMATION: The National Fire Protection Association (NFPA) proposes to revise some of its fire safety codes and standards and requests Public Input to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for Public Input by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in

the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The Code Revision Process contains four basic steps that are followed for developing new documents as well as revising existing documents. Step 1: Public Input Stage, which results in the First Draft Report (formerly ROP); Step 2: Comment Stage, which results in the Second Draft Report (formerly ROC); Step 3: the Association Technical Meeting at the NFPA Conference & Expo; and Step 4: Standards Council consideration and issuance of documents.

Note: NFPA rules state that anyone wishing to make Amending Motions on the Second Draft Report must signal his or her intention by submitting a Notice of Intent to Make a Motion by 5:00 p.m. EST/EDST of the Deadline stated in the Second Draft Report. Certified motions will then be posted on the NFPA Web site. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Association Technical Meeting at the NFPA Conference & Expo. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these rules and for up-to-date information on schedules and deadlines for processing NFPA Codes and Standards, check the NFPA Web site at <a href="https://www.nfpa.org">www.nfpa.org</a>, or contact NFPA Codes and Standards Administration.

### **Background**

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call for Public Input, that is, a public notice asking for any interested persons to submit specific Input for developing or revising a code or standard. The Call for Public Input is published in a variety of publications.

Following the Call for Public Input period, the Technical Committee holds

a meeting to consider all the submitted Public Input and make Revisions accordingly. A document known as the First Draft Report (formerly ROP), is prepared containing all the Public Input, the Technical Committee's response to each Input, as well as all Committee-generated First Revisions. The First Draft Report is then submitted for the approval of the Technical Committee by a formal written ballot. Any Revisions that do not receive approval by a two-thirds vote calculated in accordance with NFPA rules will not appear in the First Draft Report. If the necessary approval is received, the Revisions are published in the First Draft Report that is posted on the NFPA Web site at www.nfpa.org for public review and comment, and the process continues to the next step.

Once the First Draft Report becomes available, there is a ten-week comment period during which anyone may submit a Comment on the proposed changes in the First Draft Report. The Committee then reconvenes at the end of the Comments

As before, a two-thirds approval vote by written ballot of the eligible members of the Committee is required for approval of the Second Revisions. All of this information is compiled into a second report, called the Second Draft Report (formerly ROC), which, like the First Draft Report, is published, and is made available for public review for a five-week period.

The process of public input and review does not end with the publication of the First and Second Draft Reports. Following the completion of the Public Input and Comment periods, there is further opportunity for debate and discussion through the Association Technical Meeting that takes place at the NFPA Conference & Expo.

The Association Technical Meeting provides an opportunity for the Technical Committee Report (i.e., the First Draft Report and Second Draft Report) on each proposed new or revised code or standard to be presented to the NFPA membership for the debate and consideration of motions to amend the Report. Before making an allowable motion at an Association Technical Meeting, the intended maker of the motion must file, in advance of the session, and within the published deadline, a Notice of Intent to Make a Motion (NITMAM). A Motions Committee appointed by the Standards Council then reviews all notices and certifies all amending motions that are proper. Only these Certified Amending Motions, together with certain allowable Follow-Up Motions (that is, motions that have become necessary as a result of previous successful amending motions) will be allowed at the Association Technical Meeting.

For more information on dates/ locations of NFPA Technical Committee meetings and NFPA Conference & Expo, check the NFPA Web site at: www.nfpa.org/tcmeetings.

The specific rules for the types of motions that can be made and who can

make them are set forth in NFPA's Regulations Governing the Development of NFPA Standards which should always be consulted by those wishing to bring an issue before the membership at an Association Technical Meeting.

### **Request for Public Input**

Interested persons may submit Public Input supported by data, views, and substantiation. Public Input should be submitted online for each specific document (i.e., www.nfpa.org/publicinput). Public Input received by 5:00 p.m. EST/EDST on or before the closing date indicated with each code or standard would be acted on by the Committee, and then considered by the NFPA Membership at the Association Technical Meeting.

### National Oceanic and Atmospheric Administration

RIN 0648-XC348

# Endangered Species; File Nos. 17367 and 17364

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of applications.

**SUMMARY:** Notice is hereby given that the U.S. Fish and Wildlife Service (USFWS), Southeast Regional Office, Century Boulevard, Atlanta, GA 30602 [Thomas Sinclair: Responsible Party], has applied in due form for a permit [File No. 17367] to take shortnose sturgeon (Acipenser brevirostrum) and Atlantic sturgeon (Acipenser oxyrinchus oxyrinchus) for purposes of conducting scientific research; and also that the USFWS, Northeast Fishery Center, PO Box 75, Lamar, PA 16848 [Michael Millard: Responsible Party], has applied in due form for a permit [File No. 17364] to take Atlantic sturgeon for purposes of conducting scientific research.

**DATES:** Written, telefaxed, or email comments must be received on or before December 13, 2012.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the Features box on the Applications and Permits for Protected Species (APPS) home page, https://apps.nmfs.noaa.gov, and then selecting File Nos. 17367 or 17364 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376;

Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, Florida 33701; phone (727) 824–5312; fax (727) 824–5309; and

Northeast Region, NMFS, 55 Great Republic Drive, Gloucester, MA 01930; phone (978) 281–9328; fax (978) 281– 9394. Written comments on either application should be submitted to the Chief, Permits and Conservation Division

• By email to

NMFS.Pr1Comments@noaa.gov (include the File No. in the subject line of the email);

- By facsimile to (301)713–0376; or
- At the address listed above.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on the application(s) would be appropriate.

**FOR FURTHER INFORMATION CONTACT:** Malcolm Mohead or Colette Cairns at (301)427–8401.

**SUPPLEMENTARY INFORMATION:** The subject permits are requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

File No. 17367: The applicant proposes using existing captive populations of shortnose and Atlantic sturgeon to conduct scientific research facilitating the development of new methods needed for achieving species recovery in four facilities in the Southeast Region of the USFWS. Research would include nutrition, physiology, propagation, contaminants, genetics, fish health, cryopreservation, tagging, refugia, and other collaborative research with others. Additionally, work would examine abiotic factors (e.g., pH, temperature, salinity dissolved oxygen, etc.) potentially influencing distribution and abundance in the wild. The permit would be valid for five years from the date of issuance.

File No. 17364: The applicant proposes refining propagation and culture techniques of captive Atlantic sturgeon held in refugia at the USFWS's Northeast Fisheries Center providing a source of research animals for studies related to tagging, tracking, behavior, physiology, genetics, health, cryopreservation, and other methods for population conservation, recovery, or enhancement of the species in the wild. The permit would be valid for five years from the date of issuance.

Dated: November 7, 2012.

### P. Michael Payne,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

# National Oceanic and Atmospheric Administration

### RIN 0648-XC280

### Atlantic Highly Migratory Species; Atlantic Shark Management Measures; 2013 Research Fishery

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of intent; request for applications.

**SUMMARY:** NMFS announces its request for applications for the 2013 shark research fishery from commercial shark fishermen with directed or incidental shark limited access permits. The shark research fishery allows for the collection of fishery-dependent data for future stock assessments to meet the shark research objectives of the Agency. The only commercial vessels authorized to land sandbar sharks are those participating in the shark research fishery. Shark research fishery permittees may also land non-sandbar large coastal sharks (LCS), small coastal sharks (SCS), and pelagic sharks. Commercial shark fishermen who are interested in participating in the shark research fishery need to submit a completed Shark Research Fishery Permit Application in order to be considered.

**DATES:** Shark Research Fishery Applications must be received no later than 5 p.m., local time, on December 13, 2012.

**ADDRESSES:** Please submit completed applications to the HMS Management Division at:

- *Mail:* Attn: Delisse Ortiz, HMS Management Division (F/SF1), NMFS, 1315 East-West Highway, Silver Spring, MD 20910.
  - Fax: (301) 427-8503

For copies of the Shark Research Fishery Permit Application, please write to the HMS Management Division at the address listed above, call (301) 427–8503 (phone), or fax a request to (301) 713–1917. Copies of the Shark Research Fishery Application are also available at the HMS Web site at <a href="http://www.nmfs.noaa.gov/sfa/hms/index.htm">http://www.nmfs.noaa.gov/sfa/hms/index.htm</a>. Additionally, please be advised that your application may be released under the Freedom of Information Act.

# FOR FURTHER INFORMATION CONTACT:

Karyl Brewster-Geisz or Delisse Ortiz, at (301) 427–8503 (phone) or (301) 713–1917 (fax).
