Verified PSAPs shall be permitted to upload to the registry any PSAP telephone associated with the provision of emergency services or communications with other public safety agencies. On an annual basis designated PSAP representatives shall access the registry, review their numbers and remove any ineligible numbers from the registry. Second, an operator of automatic dialing equipment (OADE) is prohibited from contacting any number on the PSAP registry. Each OADE must register for access to the PSAP registry by providing contact information which includes name, business address, contact person, telephone number, email, and all outbound telephone numbers used to place autodialed calls. All such contact information must be updated within 30 days of any change. In addition, the OADE must certify that it is accessing the registry solely to prevent autodialed calls to numbers on the registry. An OADE must access and employ a version of the PSAP registry obtained from the registry administrator no more than 31 days prior to the date any call is made, and maintain record documenting this process. No person or entity may sell, rent, lease, purchase, share, or use the PSAP registry for any purpose except to comply with our rules prohibiting contact with numbers on the registry.

SUPPLEMENTARY INFORMATION:**I. Purpose**

In accordance with Federal
Acquisition Regulation 19.702,
contractors receiving a contract for more
than the simplified acquisition
threshold agree to have small business,
small disadvantaged business, and
women-owned small business,
HUBZone small business, veteran-
owned small business and service-
disabled veteran-owned small business
concerns participate in the performance
of the contract as far as practicable.
Contractors receiving a contract or a
modification to a contract expected to
exceed \$650,000 (\$1,500,000 for
construction) must submit a
subcontracting plan that provides
maximum practicable opportunities for
the above named concerns. Specific

elements required to be included in the
plan are specified in section 8(d) of the
Small Business Act and implemented in
FAR subpart 19.7.

In conjunction with the
subcontracting plan requirements,
contractors must submit semi-annual
reports of their small business
subcontracting progress to the
government. With the exception of those
contracts noted in FAR 4.606(c)(5)
which states "Actions that, pursuant to
other authority, will not be entered in
FPDS (e.g., reporting of the information
would compromise national security)",
contractors must use the electronic
Individual Subcontract Report (ISR) in
lieu of the Standard Form 294,
Subcontracting Report for Individual
Contracts. Those contract actions noted
in FAR 4.606(c)(5) will continue to use
the Standard Form 294.

The ISR in the Electronic
Subcontracting Reporting System (eSRS)
is the electronic equivalent of the
Standard Form 294, Subcontracting
Report for Individual Contracts. The
Electronic Subcontracting Reporting
System streamlines the small business
subcontracting program reporting
process and provides the data to
agencies in a manner that enables them
to more effectively manage the program.

II. Annual Reporting Burden

Based on information from eSRS and
an estimate of the use of eSRS, an
upward adjustment is being made to the
number of respondents, but a downward
adjustment is being made to the average
burden hours for reporting and
recordkeeping per response. As a result,
a downward adjustment is being made
to the estimated annual reporting
burden since the notice regarding an
extension to this clearance published in
the **Federal Register** at 75 FR 9604, on
March 3, 2010.

Respondents: 129,009.

Responses per Respondent: 3.

Total Responses: 387,027.

Average Burden Hours per Response:
8.50.

Total Burden Hours: 3,289,729.50.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the
information collection documents from
the General Services Administration,
Regulatory Secretariat (MVCB), 1275
