

Alternative would permanently disturb 120 acres of desert tortoise habitat that occurs adjacent to an existing roadway and is bounded on the south by a highway. To minimize and mitigate for these effects, the applicant proposes to implement the conservation measures described above and in the applicant's HCP.

National Environmental Policy Act

As described in our EAS, we have made the preliminary determination that approval of the proposed HCP and issuance of the permit would qualify as a categorical exclusion under NEPA (42 U.S.C. 4321–4347 *et seq.*), as provided by NEPA implementing regulations in the Code of Federal Regulations (40 CFR 1500.5(k), 1507.3(b)(2), 1508.4), by Department of Interior regulations (43 CFR 46.205, 46.210, 46.215), and by the Department of the Interior Manual (516 DM 3 and 516 DM 8). Our EAS determined that the proposed HCP qualifies as a “low-effect” habitat conservation plan, as defined by our Habitat Conservation Planning Handbook (November 1996). Determination of low-effect habitat conservation plans is based on the following three criteria: (1) Implementation of the proposed HCP would result in minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) implementation of the proposed HCP would result in minor or negligible effects on other environmental values or resources; and (3) impacts of the HCP, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant. Based upon the preliminary determinations in the EAS, we do not intend to prepare further NEPA documentation. We will consider public comments when making the final determination on whether to prepare an additional NEPA document on the proposed action.

Public Comments

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on this notice. If you wish to comment on the permit application, EAS, or proposed HCP, you may submit your comments to the address listed in the **ADDRESSES** section of this document. If we determine that the requirements are met, we will issue an incidental take permit under section 10(a)(1)(B) of the

Act to the applicant for take of the desert tortoise, incidental to otherwise lawful activities in accordance with the terms of the permit. We will make the final permit decision no sooner than 30 days after the date of this notice, and will fully consider all comments we receive during the comment period.

Authority

We provide this notice pursuant to section 10(c) of the Act and the NEPA public-involvement regulations (40 CFR 1500.1(b), 1500.2(d), and 1506.6).
