Background

The U.S. Government issued the Cuban Assets Control Regulations, 31 CFR part 515 (the "CACR"), on July 8, 1963, under the Trading With the Enemy Act (50 U.S.C. App. 5 *et seq.*). Section 515.201 of the CACR prohibits, *inter alia*, all transfers of credit and all payments in which Cuba or a Cuban national has any interest of any nature whatsoever, direct or indirect, between, by, through, or to any banking institution wheresoever located, with respect to any property subject to the jurisdiction of the United States or by any person subject to the jurisdiction of the United States.

OFAC is amending the CACR to authorize the processing of funds transfers for the operating expenses or other official business of third-country diplomatic or consular missions in Cuba. OFAC also is amending the CACR to authorize certain payments for services rendered by Cuba to United States aircraft.

Third-country diplomatic and consular funds transfers. To ensure that the prohibitions in the CACR do not impede third-country diplomatic or consular activities in Cuba, OFAC is adding new section 515.579 to the CACR. This new section authorizes the processing of funds transfers otherwise prohibited by the CACR for the operating expenses or other official business of third-country diplomatic or consular missions in Cuba.

Services rendered by Cuba to United States aircraft. OFAC is amending section 515.548 of the CACR to add a general license authorizing payments in connection with overflights of Cuba or emergency landings in Cuba by United States aircraft. Prior to this amendment, such payments required the issuance of a specific license.

Public Participation

Because the amendment of the CACR involves a foreign affairs function, the

provisions of Executive Order 12866 of September 30, 1993, and the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable. Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601-612) does not apply.

Paperwork Reduction Act

The collections of information related to the CACR are contained in 31 CFR part 501 (the "Reporting, Procedures and Penalties Regulations"). Pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), those collections of information have been approved by the Office of Management and Budget under control number 1505-0164. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid control number.

A. Regulatory History and Information

On June 5, 2012, the Coast Guard published an NPRM entitled Special Local Regulation; Kelley's Island Swim, Lake Erie; Kelley's Island, Lakeside, OH in the **Federal Register** (77 FR 33130). We did not receive any comments in response to the proposed rule. No public meeting was requested and none was held.

B. Basis and Purpose

Each year an organized swimming event takes place in Lake Erie in which individuals swim the four miles between Lakeside and Kelley's Island, OH. The Captain of the Port Detroit has determined that swimmers in close proximity to watercraft and in the shipping channel pose extra and unusual hazards to public safety and property. Thus, the Captain of the Port Detroit has determined that establishing a Special Local Regulation around the location of the race's course will help ensure the safety of persons and property at these events and help minimize the associated risks.

C. Discussion of Comment, Changes and the Final Rule

To mitigate the dangers presented by a large number of swimmers crossing a shipping channel during a four mile competition, the Captain of the Port Detroit has determined that establishing a Special Local Regulation is necessary. Thus, the Coast Guard is amending 33 CFR part 100 by adding § 100.921 to establish a permanent Special Local Regulation. The affected area encompasses all the waters of Lake Erie between Lakeside, OH and Kelley's Island, OH bound by a line extending from a point on land at the Lakeside dock at positions 41°32'51.96" N; 082°45'3.15" W and 41°32'52.21" N; 082°45'2.19" W and a line extending to Kelley's Island dock to positions 41°35'24.59" N; 082°42'16.61" W and 41°35'24.44" N; 082°42'16.04" W (Datum: NAD 83). The precise times and

dates of enforcement for this regulated area will be determined annually.

The Captain of the Port Detroit will use all appropriate means to notify the public when the Special Local Regulation in this rule will be enforced. Such means may include publication in the **Federal Register**, Broadcast Notice to Mariners, Local Notice to Mariners, or, upon request, by facsimile (fax). Also, the Captain of the Port will issue a Broadcast Notice to Mariners notifying the public if enforcement of the affected area in this section is cancelled prematurely.

No comments were received in response to and there are no changes to the rule as proposed by the NPRM published June 5, 2012.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS). We conclude that this rule is not a significant regulatory action because we anticipate that it will have minimal impact on the economy, will not interfere with other agencies, will not adversely alter the budget of any grant or loan recipients, and will not raise any novel legal or policy issues. The regulated area established by this rule will be relatively small and enforced for relatively short time. Also, the regulated area is designed to minimize its impact on navigable waters. Furthermore, this regulated area has been designed to allow vessels to transit the area affected by this regulation, provided vessel operators meet the requirements set forth by this rule. Thus, restrictions on vessel movements within any particular area are expected to be minimal. On the whole, the Coast Guard expects insignificant adverse impact to mariners from the activation of this regulated area.

2. Impact on Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a
