50 CFR Part 635

RIN 0648-BB29

Atlantic Highly Migratory Species; 2006 Consolidated Highly Migratory Species Fishery Management Plan; Amendment 5

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearings.

SUMMARY: On November 26, 2012, NMFS published a proposed rule for Amendment 5 to the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) in response to several shark stock assessments that were completed from 2009 to 2012. As described in the proposed rule, NMFS is proposing measures that would reduce fishing mortality and effort in order to rebuild overfished Atlantic shark species while ensuring that a limited

sustainable shark fishery can be maintained consistent with our legal obligations. The proposed measures include changes to commercial quotas and species groups, the creation of several time/area closures, a change to an existing time/area closure, an increase in the recreational minimum size restrictions, and the establishment of recreational reporting for certain species of sharks. Comments received by NMFS will be considered in the development and finalization of Amendment 5 to the 2006 Consolidated HMS FMP. This notice announces public hearings, conference calls, and an HMS Advisory Panel meeting to discuss the proposed rule.

DATES: Written comments will be accepted until February 12, 2013. Public hearings, conference calls, and an HMS Advisory Panel meeting for the Amendment 5 proposed rule will be held from December 2012 to February 2013. See **SUPPLEMENTARY INFORMATION** for meeting dates, times, and locations.

ADDRESSES: Public hearings will be held in Massachusetts, New Jersey, North Carolina, Florida, and Louisiana, and via phone call/webinar. NMFS will hold an HMS Advisory Panel meeting in Maryland. See **SUPPLEMENTARY INFORMATION** for dates, times, and locations.

SUPPLEMENTARY INFORMATION: The Atlantic shark fisheries are managed under the Magnuson-Stevens Act. Management of these species is described in the 2006 Consolidated HMS FMP, which is implemented by regulations at 50 CFR part 635. Copies of the 2006 Consolidated HMS FMP and amendments are available from NMFS on request (see **FOR FURTHER INFORMATION CONTACT**).

On November 26, 2012 (77 FR 70552), NMFS published a proposed rule for draft Amendment 5 to the 2006 Consolidated HMS FMP based on several shark stock assessments that were completed from 2009 to 2012. The assessments for Atlantic blacknose, dusky, and scalloped hammerhead sharks indicated that these species are overfished and experiencing overfishing. As described in the proposed rule, NMFS is proposing measures that would reduce fishing mortality and effort in order to rebuild overfished Atlantic shark species while ensuring that a limited sustainable shark fishery can be maintained consistent with our legal obligations and the 2006 Consolidated HMS FMP. The proposed measures include changes to commercial quotas and species groups, the creation of several time/area closures, a change to an existing time/area closure, an increase in the recreational minimum size restrictions, and the establishment of recreational reporting for certain species of sharks. Any comments received during the comment period will be considered in the development and finalization of Amendment 5 to the 2006 Consolidated HMS FMP.

Request for Comments

Six public hearings will be held in Florida (2), Louisiana, Massachusetts, New Jersey, and North Carolina to

provide the opportunity for public comment on the measures described in the proposed rule and draft Amendment 5. NMFS will also hold two public conference calls/webinars to provide individuals opportunity to submit public comment if they are unable to attend a public hearing.

NMFS expects to consult with the HMS Advisory Panel on January 8,

2013, on the proposed rule and draft Amendment 5. This HMS Advisory Panel meeting will consist of a presentation of the proposed measures followed by a discussion with the Advisory Panel. There will also be an opportunity for public comment in an open session after the Advisory Panel discussion. See Table 1 for times, dates, and location.

NMFS has also asked to present information on the proposed rule and draft Amendment 5 to the Caribbean, Gulf of Mexico, South Atlantic, Mid-Atlantic, and New England Fishery Management Councils. Information on the date and time of those presentations will be provided on the appropriate council agenda.

NMFS welcomes comments on any aspect or alternative considered in the proposed rule. NMFS is specifically seeking comments on the administration of dusky shark bycatch caps program in select areas given limited additional observer program resources; the name of reconfigured groupings of sharks that would continue to be managed collectively in the reminder of what is currently the large coastal shark complex for quota monitoring purposes; suggestions for improving angler identification of shark species and reducing dusky shark mortality in the

recreational fishery; and whether NMFS should permit the transit of closed areas if certain otherwise prohibited gear is properly stowed and inoperable.

Public Hearing Code of Conduct

The public is reminded that NMFS expects participants at public hearings and on phone conferences to conduct themselves appropriately. At the beginning of each meeting, a representative of NMFS will explain the ground rules (e.g., alcohol is prohibited from the meeting room; attendees will be called to give their comments in the

order in which they registered to speak; each attendee will have an equal amount of time to speak; attendees may not interrupt one another; etc.). The NMFS representative will structure the meeting so that all attending members of the public will be able to comment, if they so choose, regardless of the controversial nature of the subject(s). Attendees are expected to respect the ground rules, and those that do not will be asked to leave the meeting.
