BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2012-0088]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 13, 2012, the San Diego Trolley Incorporated (SDTI) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 213.57-Curves; elevation and speed limitations. FRA has assigned the petition Docket Number FRA-2012-0088.

SDTI seeks a waiver of compliance from provisions regarding cant deficiency contained at 49 CFR 213.57. Cant deficiency is a technical term describing the imbalance of inner and outer wheel loads when a rail vehicle traverses a curve. With the right combination of speed, curvature, and superelevation (the amount the outer rail is elevated above the inner rail), the loads on both inner and outer wheels will be equal, i.e. balanced. The curving speed corresponding to this balanced state is referred to as balance speed. At higher than the balance speed, the centrifugal force will cause the outer wheel load to increase and the inner wheel load to decrease. The manifestation of this load imbalance is that a lateral throw will be sustained by the passengers when the vehicle is traversing the curve. To counter the imbalance, the superelevation on the curve would have to be increased. The necessary amount of the increase in superelevation is the amount of cant deficiency.

SDTI intends to operate its SD100 and S70 light rail vehicles (LRV) on curves at speeds that will generate a cant deficiency up to, but not more than, 6 inches; but no more than the maximum authorized speed.

In support of its petition, SDTI has submitted a report for a cant deficiency dynamic test that is to demonstrate that the LRVs can safely be operated at the requested 6 inches cant deficiency.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

[Docket Number FRA-2010-0091]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated October 26, 2012, the Port Manatee Railroad (PMRR) has petitioned the Federal Railroad Administration (FRA) for an extension of its waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4). FRA assigned the petition Docket Number FRA-2010-0091.

In their petition, PMRR seeks relief from 49 U.S.C. 21103(a)(4), which in part requires a train employee to receive 48 hours off duty after initiating on-duty periods for 6 consecutive days. Specifically, PMRR seeks an extension of the waiver to allow a train employee to initiate on-duty periods for 6 consecutive days followed by 24 hours off-duty. In support of its request, PMRR explained that it is a small marine terminal switching railroad with only seven train employees, and that switching operations are always performed within the confines of Port Manatee, which consists of slow speed yard tracks. Additionally, PMRR argues that when its covered service employees are off duty they return to their residences, and are never required to deadhead or receive rest at lodging facilities as part of their railroad service.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590.
