

The group's recommendations, which are to be developed within one year, will be advisory only, not mandatory, and will not have the force of guidelines or standards.

The law also calls upon the National Council on Disability to conduct an informational and educational campaign in cooperation with the stakeholder working group to inform the public, including people with disabilities and pharmacists, of the best practices. The Government Accountability Office will undertake a review at a later date to assess the extent to which pharmacies are following the best practices and to what extent barriers to information on prescription drug container labels remain.

The working group will hold its first meeting on January 10 and 11, 2013. The agenda for the meeting includes initial remarks, introduction of working group members, discussion of administrative issues, discussion of prescription label access needs of consumer members, discussion of current practices, discussion and review of evaluation criteria to use to determine best practices, hands-on demonstrations of recommended practices, evaluation of recommended practices, and discussion of next steps. The preliminary meeting agenda, along with information about the working group, is available at <http://www.access-board.gov/news/drug-labels-working-group.htm>.

Working group meetings are open to the public and interested persons can attend the meetings and communicate their views. Members of the public will have opportunities to address the working group on issues of interest to them during public comment periods scheduled on each day of the meeting.

The meetings will be accessible to persons with disabilities. An assistive listening system, computer assisted real-time transcription (CART), and sign language interpreters will be provided. Persons attending the meetings are requested to refrain from using perfume, cologne, and other fragrances for the comfort of other participants (see [www.access-board.gov/about/policies/fragrance.htm](http://www.access-board.gov/about/policies/fragrance.htm) for more information). Persons wishing to provide handouts or other written information to the working group are requested to provide electronic formats to Susan Crawford via email prior to the meetings so that alternate formats can be distributed to working group members.

The IBP was established in the Omnibus Trade and Competitiveness Act of 1988 (Pub. The IBP emphasizes cooperation between the DOC and trade show organizers to benefit U.S. firms exhibiting at selected events and provides practical, hands-on assistance such as export counseling and market analysis to U.S. companies interested in exporting. Specifically, through the IBP, the DOC selects domestic trade shows which will receive DOC assistance in the form of global promotion in foreign markets, providing export counseling to exhibitors, and providing export counseling and matchmaking services at the trade show. This notice covers selection for IBP participation during calendar year 2014. It also extends the deadline for applications to a new pilot initiative for the IBP, which will allow up to 20% of the 2014 IBP shows to be preselected for IBP participation in calendar year 2015 (January 1, 2015 through December 31, 2015) without having to reapply for the second year. Eligibility for this pilot initiative is limited to annual trade shows that participated in the IBP in calendar years 2011 or 2012. Applicants interested in being considered for this pilot must indicate so in the application. For more information about the IBP, including eligibility, participation fees, the responsibilities of the show organizers and the DOC, and how to apply, please see the prior notice, which is also available on the IBP Web site <http://www.export.gov/IBP>.
