SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0072.

Title: 30 CFR Part 580, Prospecting for Minerals Other than Oil, Gas, and Sulphur on the Outer Continental Shelf.

Form: BOEM-0134.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of mineral resources on the OCS. An amendment to the OCS Lands Act (Pub. L. 103-426) authorizes the Secretary to negotiate agreements (in lieu of the previously required competitive bidding process) for the use of OCS sand, gravel, and shell resources for specified types of public uses. Such specified uses will support construction of governmental projects for beach nourishment, shore protection, and wetlands enhancement or constitute a project authorized by the Federal Government.

Section 1340 states that “* * * any person authorized by the Secretary may conduct geological and geophysical [G&G] explorations in the outer Continental Shelf, which do not interfere with or endanger actual operations under any lease maintained or granted pursuant to this Act, and which are not unduly harmful to aquatic life in such area.” Section 1352 further requires that certain costs be reimbursed to the parties submitting required G&G information and data. Regulations implementing these responsibilities are in 30 CFR Part 580 and are the responsibility of the Bureau of Ocean Energy Management (BOEM).

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and the OMB Circular A-25,

authorize Federal agencies to recover the full cost of services that confer special benefits. Prospecting permits are subject to cost recovery under Department of the Interior's implementing policy, and BOEM regulations specify service fees for these requests.

We use the information collected under these regulations to: (1) Ensure there is no environmental degradation, personal harm or unsafe operations and conditions; (2) ensure activities do not damage historical or archaeological sites or interfere with other uses; (3) analyze and evaluate preliminary or planned drilling activities; (4) monitor progress and activities in the OCS; (5) acquire G&G data and information collected under a Federal permit offshore; (6) determine eligibility for reimbursement from the Government for certain costs; and (7) determine the qualifications of applicants. BOEM also uses the information collected to understand the G&G characteristics of hard mineral-bearing physiographic regions of the OCS.

We will protect information considered proprietary according to 30 CFR 580.70, “What data and information will be protected from public disclosure?” 30 CFR 550.197, “Data and information to be made available to the public or for limited inspection,” 30 CFR part 552, “OCS Oil and Gas Information Program,” and the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2). No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion; and as required in the permit.

Description of Respondents: Permittee(s).

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this collection is 128 hours. The following table details the individual components and estimated hour burdens. Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obliged to respond.

Comments: On August 24, 2011, we published a **Federal Register** notice (76 FR 52963) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. We received two comments in response. One did not pertain to the information collection, and the other expressed support for competitive bidding processes.

In addition, § 580.80 provides the OMB control number for the information collection requirements imposed by the 30 CFR 580 regulation, informs the public that they may comment at any time on the collections of information, and provides the address to which they should send comments.

We again request comments on this information collection on: (1) Whether or not the collection of information is necessary, including whether or not the information is useful; (2) the accuracy of our estimate of the burden for this collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden on the respondents.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
