

Examiner or other qualified specialists will document and assure the avoidance/minimization and environmental protection measures incorporated into the Plan of Operations and the Decision are being followed and that they are effective in protecting the environment. Inspections will occur during the life of the project at least once a year to document the site conditions and to assure the Plan of Operations is being followed. If it is determined that a particular environmental protection measure is not adequately protecting surface resources, the Plan of Operations will be modified to correct the situation. Significant changes may require additional analysis and documentation in compliance with the National Environmental Policy Act.

Lead and Cooperating Agencies

The Forest Service, as lead agency under NEPA, and County of San Bernardino, as the lead state agency under CEQA, will be preparing a joint EIR/EIS. This EIR/EIS will analyze and disclose the potential effects of the proposed limestone quarry expansion. The Mojave Desert Air Quality Management District has agreed to participate as a cooperating agency and to provide expertise regarding the proposed actions' relationship to the relevant objectives of regional, State and local land use plans, policies and controls.

Responsible Official

The Responsible Official under NEPA for the Omya Sentinel and Butterfield Quarry Expansion project is the San Bernardino National Forest Supervisor, Jody Noiron.

Nature of Decision To Be Made

The Responsible Official will decide whether to approve the Amended Plan of Operations and Reclamation Plan following the environmental analysis. The Forest Service does not have the authority to remove the proponent's ability to mine their claim on National Forest System lands. The Responsible Official will also decide if an amendment to the San Bernardino National Forest Land Management Plan is required.

The County will decide whether to approve the Mining and Land Reclamation Plan Conditional Use Permit following the environmental analysis.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIR/EIS. The complete amended Plan of Operation

and Reclamation Plan is available on the San Bernardino National Forest Web site at: <http://www.fs.fed.us/nepa/fs-usda-pop.php?project=32613>.

Public Scoping meetings will be held on March 11, 2013 at the Big Bear Discovery Center, 40971 North Shore Drive (Highway 38), Fawnskin, California 92333 beginning at 5 p.m. PST, and March 12, 2013 at the Lucerne Valley Community Center, 33187 Highway 247 East, Lucerne Valley, California 92356 beginning at 5 p.m. PST.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the EIR/EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.
