equipment, Quality Assurance Teams, tools and test equipment, publications and technical data, U.S. Government and contractor technical assistance, and other related logistical support. The estimated cost is \$600 million.

This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

This proposed sale of RAPISCAN systems and vehicles will contribute to a stable, sovereign, and democratic Iraq. The purchase and use of these systems will facilitate progress toward this goal by increasing the Government of Iraq's ability to defend critical infrastructure and reduce terror and insurgent activities. The Z Backscatter vans will be used to scan vehicle interiors and will provide the Government of Iraq a tool to restrict the ability of insurgent and terrorist groups to operate by detecting contraband movement through borders and checkpoints. Iraq will have no difficulty absorbing this equipment.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Rapiscan Systems in Torrance, California; and American Science and Engineering in Billerica, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require contractor representatives (30 from Rapiscan and 15 from American Science and Engineering) to travel to Iraq for a period of three years to provide management, and operation and maintenance training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary [Docket ID DoD-2013-OS-0045]

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary of Defense, DoD.

ACTION: Notice to add a new system of

records.

SUMMARY: The Office of the Secretary of Defense proposes to add a new system of records in its inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended.

DATES: This proposed action will be effective on April 8, 2013 unless comments are received which result in a contrary determination. Comments will be accepted on or before April 8, 2013.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* Federal Rulemaking Portal: http:// www.regulations.gov. Follow the instructions for submitting comments.

Mail: Federal Docket Management System Office, 4800 Mark Center Drive, East Tower, 2nd Floor, Suite 02G09, Alexandria, VA 22350-3100.

Instructions: All submissions received must include the agency name and docket number for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http:// www.regulations.gov as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Ms.Cindy Allard, Chief, OSD/JS Privacy Office, Freedom of Information Directorate, Washington Headquarters Service, 1155 Defense Pentagon, Washington, DC 20301-1155, or by phone at (571) 372-0461.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense notices for systems of records subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the Federal **Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT.** The proposed system report, as required by 5 U.S.C. 552a(r) of the Privacy Act of 1974, as amended, was submitted on March 5, 2013, to the House Committee on Oversight and Government Reform, the Senate Committee on Governmental Affairs, and the Office of Management and Budget (OMB) pursuant to paragraph 4c of Appendix I to OMB Circular No. A-130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated February 8, 1996 (February 20, 1996, 61 FR 6427).

Dated: March 5, 2013.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DA&M 02

SYSTEM NAME:

Director of Administration and Management (DA&M) Mentoring Program.

SYSTEM LOCATION:

Triple Creek Associates, Inc., 7730 E. Belleview Ave., Suite 200A, Greenwood Village, CO 80111-6617.

CATEGORIES OF INDIVIDUALS COVERED BY THE

Participating DA&M, Washington Headquarters Service (WHS), and Pentagon Force Protection Agency

civilian employees and assigned military personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, employment information (work email, work phone number, work location, organization, department, work experience, years of experience in DA&M, total years of work experience, job level, job competencies, and competency level), education (e.g., degrees, training, coursework), job title, pay plan, job series, job grade, feedback on mentoring experience, discussion board posts, responding to polls.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 113, Secretary of Defense; DoD Directive (DoDD) 5105.53, Director of Administration and Management; DoDD 5110.4, Washington Headquarters Services; and DoDD 5105.68, Pentagon Force Protection Agency.

PURPOSE(S):

To provide participants with an automated mentoring system to match learners with potential advisors based on learner need and advisor capabilities and experience. The system will facilitate the tracking and management of these mentoring relationships and will also be used as a management tool for statistical analysis, tracking, reporting, evaluating program effectiveness and conducting research.

ROUTINE USE OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act of 1974, as amended, these records contained herein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

The DoD Blanket Routine Uses published at the beginning of the Office of the Secretary of Defense (OSD) compilation of systems of record notices may apply.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Electronic storage media.

RETRIEVABILITY:

By participant's name.

SAFEGUARDS:

The system is a web-based system, and it is maintained by a DoD contractor on a contractor owned computer server. The data is protected by dedicated firewalls and web servers that are physically separated from other

contractor database servers. The database resides behind a firewall, is not publically accessible, and a separate, dedicated database is used. The contractor employs constant proactive monitoring, including port monitoring to identify unauthorized attempts to upload or change information or otherwise cause damage to the system. Backup storage devices, drives, and tapes are encrypted, and the server is located in a secured facility with limited physical access. In accordance with the contract, the contractor is not to remove any of the data from the contracting site, and the contractor must follow the DoD safeguarding policies, and regulations as defined in the contract. The contractor is to ensure confidentiality of the data.

All web connections to the system use a secure connection via Secure Socket Layer/Transport Layer Security. Data transfers require encryption.

Access to PII is role-based and limited to those individuals with an identified need to access the records in the conduct of their official duties. A login consisting of either the participant's work email address and password or Common Access Card and PIN prevents unauthorized access.

RETENTION AND DISPOSAL:

Destroy three (3) years after participant's withdrawal, termination, transfer, or inactivity.

SYSTEM MANAGER(S) AND ADDRESS:

DA&M Mentoring Program Manager, 4800 Mark Center Drive, Suite 03D08, Alexandria, VA 22350–3200.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether information about themselves is contained in this record system should address written inquiries to the DA&M Mentoring Program Manager, 4800 Mark Center Drive, Suite 03D08, Alexandria, VA 22350–3200.

Individuals should furnish full name and organization.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about themselves contained in this record system should address written inquiries to the Office of the Secretary of Defense/Joint Staff Freedom of Information Act Requester Service Center, 4800 Mark Center Drive, Alexandria, VA 22350–3100.

Written requests must be signed and contain full name, organization and the name and number of this system of records notice.

CONTESTING RECORD PROCEDURES:

The OSD rules for accessing records, for contesting contents and appealing

initial agency determinations are published in OSD Administrative Instruction 81; 32 CFR part 311; or may be obtained from the program manager.

RECORD SOURCE CATEGORIES:

The individual.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Notice of Open House—Draft Environmental Impact Statement for Revised Water Control Manuals for the Alabama-Coosa-Tallapoosa River Basin

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD. **ACTION:** Notice of Open House meetings.

SUMMARY: Notice is hereby given that the U.S. Army Corps of Engineers, Mobile District (USACE), will conduct open house style meetings and accept comments on the Draft Environmental Impact Statement (DEIS) for the update of the Alabama-Coosa-Tallapoosa River Basin (ACT) Water Control Master Manual (Master Manual). The public comment period began with the Notice of Availability published by the Environmental Protection Agency on March 1, 2013 and will end 60 days after that date. The open houses will be held at the times and places indicated in the SUPPLEMENTARY INFORMATION

DATES: Comments on the DEIS are due by May 1, 2013 and should be submitted as indicated in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Mr. Lewis Sumner at telephone (251) 694–3857.

SUPPLEMENTARY INFORMATION: The Master Manual includes appendices prepared for individual projects in the ACT Basin and is the guide used by USACE to operate a system of five Federal reservoir projects in the basin-Allatoona Dam and Lake, Carters Dam and Lake and Carters Reregulation Dam, Robert F. Henry Lock and Dam and R.E. "Bob" Woodruff Lake, Millers Ferry Lock and Dam and William "Bill Dannelly Lake, and Claiborne Lock and Dam and Lake. In addition the Master Manual includes appendices prepared for two of the Alabama Power Company (APC) projects for which USACE has

authority for flood risk management water management control—Neely Henry and R.L. Harris. APC regulates these two non-federal projects in compliance with the projects' Federal Energy Regulatory Commission (FERC) licenses and in accordance with USACE water control plans for flood management regulation and navigation support.

USACE is updating the water control plans and manuals for the ACT Basin in order to improve operations for authorized purposes to reflect changed conditions since the manuals were last developed. The purpose and need for the updated Master Manual is to determine how the federal projects in the ACT Basin should adjust operations for their authorized purposes, in light of current conditions and applicable law and to implement those operations through updated water control plans and manuals. The updated plans and manuals will comply with existing USACE regulations and reflect operations under existing congressional authorizations, taking into account changes in basin hydrology and demands from years of growth and development, new/rehabilitated structural features, legal developments, and environmental issues.

USACE regulations also provide specific policy and guidance for inclusion of drought contingency plans as part of USACE's overall water control management activities in the basin. To be effective, the drought plan must incorporate a comprehensive, basin-wide approach that considers the interrelationship of USACE projects and APC projects and the proposed drought plan was developed in collaboration with APC.

USACE's objectives for the Master Manual are to develop a Water Control Plan that meets the existing water resources needs of the basin, fulfills its responsibilities in operating for the authorized project purposes, and complies with all pertinent laws. The DEIS presents the results of USACE's analysis of the environmental effects of the Proposed Action Alternative (PAA) that the USACE believes accomplishes these objectives.

USACE evaluated an array of potential water management alternatives during the Master Manual update process, resulting in the selection of the PAA. Additional information on the components of the PAA can be found at www.sam.usace.army.mil/Missions/PlanningEnvironmental/ACTMaster WaterControlManualUpdate/ACT DocumentLibrary.aspx. One alternative available to USACE is to continue with current operations. This approach is
