I. Funding Opportunity Description

The Indian Health Service (IHS) is committed to encouraging American Indians and Alaska Natives to enter the health professions and to assuring the availability of Indian health professionals to serve Indians. The IHS is committed to the recruitment of students for the following programs:

- The Indian Health Professions Preparatory Scholarship authorized by Section 103 of the Indian Health Care Improvement Act, Public Law 94–437 (1976), as amended (IHCIA), codified at 25 U.S.C. 1613(b)(1).

- The Indian Health Professions Scholarship authorized by Section 104 of the IHCIA, codified at 25 U.S.C. 1613a.

Full-time and part-time scholarships will be funded for each of the three scholarship programs.

The scholarship award selections and funding are subject to availability of funds appropriated for the Scholarship Program.

II. Award Information

Type of Award

Scholarship.

Estimated Funds Available

An estimated \$14.0 million will be available for Fiscal Year (FY) 2013 awards. The IHS Scholarship Program (IHSP) anticipates, but cannot guarantee, due to possible funding changes, student scholarship selections from any or all of the following disciplines in the 103 and 104 Programs for the Scholarship Period 2013–2014. Due to the rising cost of education and the decreasing number of scholars who can be funded by the IHSP, the IHSP has changed the funding policy for Preparatory and Pre-graduate scholarship awards and reallocated a greater percentage of its funding in an

effort to increase the number of Health Professions scholarships, and inherently the number of service obligated scholars, to better meet the health care needs of the IHS and its Tribal and Urban Indian health care system partners.

Anticipated Number of Awards

Approximately 60 awards will be made under the Health Professions Preparatory and Pre-graduate Scholarship Programs for Indians. The awards are for ten months in duration, with an additional two months for approved summer school requests, and will cover both tuition and fees and Other Related Costs (ORC). The average award to a full-time student is approximately \$33,486.03. An estimated 300 awards will be made under the Indian Health Professions Scholarship Program. The awards are for 12 months in duration and will cover both tuition and fees and ORC. The average award to a full-time student is approximately \$41,196.77. In FY 2013, an estimated \$12,500,000 is available for Health Professions awards, and an estimated \$1,500,000 is available for Preparatory and Pre-graduate awards.

Project Period

The project period for the IHS Health Professions Preparatory Scholarship support, tuition, fees and ORC is limited to two years for full-time students and the part-time equivalent of two years, not to exceed four years for part-time students. The project period for the Health Professions Pre-graduate Scholarship support, tuition, fees and ORC is limited to four years for full-time students and the part-time equivalent of four years, not to exceed eight years for part-time students. The IHS Indian Health Professions Scholarship provides support for tuition, fees, and ORC and is limited to four years for full-time students and the part-time equivalent of four years, not to exceed eight years for part-time students.

III. Eligibility Information

This is a limited competition announcement. New and Continuation scholarship awards are limited to “Indians” as defined at 25 U.S.C. Section 1603 (13). Continuation awards are non-competitive.

1. Eligibility

The Health Professions Preparatory Scholarship awards are made to American Indians (Federally recognized Tribal members, first and second degree descendants of Federally recognized Tribal members, State recognized Tribal members and first and second degree

- Have successfully completed high school education or high school equivalency; and
- Have been accepted for enrollment in a compensatory, pre-professional general education course or curriculum.

The Health Pre-graduate Scholarship awards are made to American Indians (Federally recognized Tribal members, first and second degree descendants of Tribal members, and State recognized Tribal members, first and second degree descendants of State recognized Tribal members), or Eskimo, Aleut and other Alaska Natives who:

- Have successfully completed high school education or high school equivalency; and
- Have been accepted for enrollment or are enrolled in an accredited pre-graduate program leading to a baccalaureate degree in pre-medicine, pre-dentistry, pre-optometry or pre-podiatry.

The Indian Health Professions Scholarship may be awarded only to an individual who is a member of a Federally recognized Indian Tribe, Eskimo, Aleut or other Alaska Native as provided by Section 1603 (13) and Section 1603 (14) of the IHCIA. Membership in a Tribe recognized only by a state does not meet this statutory requirement for the Indian Health Professions Scholarship. To receive an Indian Health Professions Scholarship, an otherwise eligible individual must be enrolled in an appropriately accredited school and pursuing a course of study in a health profession as defined by Section 1603 (10) of the IHCIA.

2. Cost Sharing/Matching

The Scholarship Program does not require matching funds or cost sharing to participate in the competitive award process.

3. Benefits From State, Local, Tribal and Other Federal Sources

Awardees of the Health Professions Preparatory, Health Professions Pre-Graduate scholarship Health Professions scholarship, who accept outside funding from other scholarship, grant and fee waiver programs, will have these monies applied to their student account tuition and fees charges at the college or university they are attending, before the IHS Scholarship Program will pay any of the remaining balance. These outside funding sources must be reported on the student's invoicing documents submitted by the college or university they are attending. Student loans and Veterans Administration (VA)/GI Bill

Benefits accepted by Health Professions scholarship recipients will have no effect on the IHSSP payment made to their college or university.

V. Application Review Information

1. Criteria

Applications will be reviewed and scored with the following criteria.

- Academic Performance (40 points)

Applicants are rated according to their academic performance as evidenced by transcripts and faculty evaluations. In cases where a particular applicant's school has a policy not to rank students academically, faculty members are asked to provide a personal judgment of the applicant's achievement. Preparatory, Pre-graduate and Health Professions applicants with a cumulative GPA below 2.0 are not eligible for award.

- Faculty/Employer Recommendations (30 points)

Applicants are rated according to evaluations by faculty members, current and/or former employers and Tribal officials regarding the applicant's

potential in the chosen health related professions.

- Stated Reasons for Asking for the Scholarship and Stated Career Goals Related to the Needs of the IHS (30 points)

Applicants must provide a brief written explanation of reasons for asking for the scholarship and of their career goals. Applicants are considered for scholarship awards based on their desired career goals and how these goals relate to current Indian health personnel needs.

The applicant's narrative will be judged on how well it is written and its content.

2. Administrative and National Policy Requirements

Regulations at 42 CFR part 136.304 provide that the IHS shall, from time to time, publish a list of health professions eligible for consideration for the award of IHS Indian Health Professions Preparatory and Pre-graduate Scholarships and IHS Health Professions Scholarship. Section 104(b)(1) of the IHCA, as amended by the Indian Health Care Amendment of 1988, Public Law 100-713, authorizes the IHS to determine specific health professions for which Indian Health Scholarships will be awarded.

Awards for the Indian Health Professions Scholarships will be made in accordance 42 CFR 136.330-136.334. Awardees shall incur a service obligation prescribed under the IHCA, Section 1613a(b), which shall be met by service, through clinical practice:

(1) In the IHS;

(2) In a program conducted under a contract or compact entered into under the Indian Self-Determination Act and Education Assistance Act (Pub. L. 93-638) and its amendments;

(3) In a program assisted under Title V of the Indian Health Care Improvement Act (Pub. L. 94-437) and its amendments; or

(4) In a private practice option of his or her profession if the practice (a) is situated in a health professional shortage area, designated in regulations promulgated by the Secretary of Health and Human Services (Secretary) and (b) addresses the health care needs of a substantial number (75% of the total served) of Indians as determined by the Secretary in accordance with guidelines of the Service.

Pursuant to the IHCA Section 1613a(b)(3)(C), an awardee of an IHS Health Professions Scholarship may, at the election of the awardee, meet his/her service obligation prescribed under IHCA Section 1613a(b) by a program specified in options (1)-(4) above that:

(i) Is located on the reservation of the Tribe in which the awardee is enrolled; or

(ii) Serves the Tribe in which the awardee is enrolled, if there is an open vacancy available in the discipline for which the awardee was funded under the IHS Health Professions Scholarship during the required 90-day placement period.

In summary, all awardees of the Indian Health Professions Scholarship are reminded that acceptance of this scholarship will result in a service obligation required by both statutes and contract, which must be performed at an

approved service payback facility. The Director reserves the right to make final decisions regarding assignment of scholarship recipients to fulfill their service obligation.

Moreover, the Director, IHS, has the authority to make the final determination, designating a facility, whether managed and operated by IHS, or one of its Tribal or Urban Indian partners, consistent with IHCA, as approved for scholar obligated service payback.

3. Reporting

Scholarship Program Minimum Academic Requirements

It is the policy of the IHS that a scholarship awardee funded under the Health Professions Scholarship Program of the Indian Health Care Improvement Act must maintain a 2.0 cumulative GPA, remain in good academic standing each semester/trimester/quarter, maintain full-time student status (Institutional definition of 'minimum hours' constituting full-time enrollment applies) or part-time student status (Institutional definition of 'minimum and maximum' hours constituting part-time enrollment applies) for the entire academic year, as indicated on the scholarship application submitted for that academic year. The Health Professions scholarship awardee may not change his or her enrollment status between terms of enrollment, during the same academic year. In addition to these requirements, a Health Professions Scholarship awardee must be enrolled in an approved/accredited school for a Health Professions degree.

An awardee of a scholarship under the IHS Health Professions Preparatory and Health Professions Pre-Graduate Scholarship authority must maintain a minimum 2.0 cumulative GPA, remain in good standing each semester/trimester/quarter and be a full time student (Institutional definition of 'minimum hours' constituting full-time enrollment applies, typically 12 credit hours per semester) or a part-time student (Institutional definition of 'minimum and maximum' hours constituting part-time enrollment applies, typically 6–11 credit hours). The Preparatory and Pre-graduate awardee may not change from part-time status to full-time status or vice versa in the same academic year.

The following reports must be sent to the IHSSP at the identified time frame. Each scholarship awardee will have access to an online Student Handbook containing all required program forms and instructions on when, how, and to whom these must be submitted, by

logging into the IHSSP Web site at www.ihs.gov/scholarship. If a scholarship awardee fails to submit these forms and reports as required, they will be ineligible for continuation of scholarship support and scholarship award payments will be discontinued.

A. Recipient's Enrollment and Initial Progress Report

Within thirty (30) days from the beginning of each semester/trimester/quarter, scholarship awardees must submit a Recipient's Enrollment and Initial Progress Report (Form IHS-856-8, page 69 of the Student Handbook).

B. Transcripts

Within thirty (30) days from the end of each academic period, i.e., semester/trimester/quarter, or summer session, scholarship awardees must submit an Official Transcript showing the results of the classes taken during that period.

C. Notification of Academic Problem/Change

If at any time during the semester/trimester/quarter, scholarship awardees are advised to reduce the number of credit hours for which they are enrolled below the minimum of the 12 (or the number of hours considered by their school as full-time) for a full-time student or at least six hours for part-time students; or if they experience academic problems, they must immediately submit Form IHS-856-9, on page 71 of the Student Handbook.

D. Change of Status

- Change of Academic Status

Scholarship awardees must immediately notify their Scholarship Program Analyst if they are placed on academic probation, dismissed from school, or voluntarily withdraw for any reason (personal or medical).

- Change of Health Discipline

Scholarship awardees may not change from the approved IHSSP health discipline during the school year. If an unapproved change is made, scholarship payments will be discontinued.

- Change in Graduation Date

Any time that a change occurs in a scholarship awardee's expected graduation date, they must notify their Scholarship Program Analyst immediately in writing. Justification must be attached from the school advisor.
