The Environmental Protection Agency published a Notice of Availability for the Final Programmatic EIS in the **Federal Register** on November 9, 2012 (77 FR 67362), initiating the BLM's 30-day protest period on the Proposed Plan Amendments for oil shale and tar sands allocation. The protest period closed on December 10, 2012. Eighteen protests were received; protests came from local governments, the State of Utah, industry, industry interest groups, environmental groups, and an individual. The BLM has resolved all valid protest issues.

The BLM has made minor modifications and editorial clarifications to the Approved Plan Amendments. These modifications provided further clarification of some of the decisions.
