SUPPLEMENTARY INFORMATION:

Background

The Act (16 U.S.C. 1531 *et seq.*)
prohibits activities with endangered and
threatened species unless a Federal
permit allows such activity. Along with
our implementing regulations in the
Code of Federal Regulations (CFR) at 50
CFR part 17, the Act provides for
permits, and requires that we invite
public comment before issuing these
permits.

A permit granted by us under section
10(a)(1)(A) of the Act authorizes
activities with United States endangered
or threatened species for scientific
purposes, enhancement of propagation
or survival, or interstate commerce (the
latter only in the event that it facilitates
scientific purposes or enhancement of
propagation or survival). Our
regulations implementing section
10(a)(1)(A) for these permits are found
at 50 CFR 17.22 for endangered wildlife
species, 50 CFR 17.32 for threatened
wildlife species, 50 CFR 17.62 for
endangered plant species, and 50 CFR
17.72 for threatened plant species.

SUPPLEMENTARY INFORMATION:

Background

We have received an application from Buckeye Wind, LLC, for an incidental take permit (TE66315A) under the ESA (16 U.S.C. 1531 *et seq.*). If approved, the permit would be for a 30-year period and would authorize incidental take of the Indiana bat.

The applicant has prepared a draft HCP to cover the construction, operation, maintenance, and decommissioning of the project. The project consists of a 100-turbine wind-powered electric generation facility located in an approximately 80,051-acre area (the action area) located in portions of Union, Wayne, Urbana, Salem, Rush, and Goshen Townships, in Champaign County, Ohio. The draft HCP describes the following: (1) Biological goals and objectives of the HCP; (2) the covered activities; (3) permit duration; (4) permit area; (5) alternatives to the taking that were considered; (5) public participation; (6) life history of the Indiana bat; (6) a quantification of the take for which authorization is requested; (7) an assessment of direct and indirect effects of the taking on the Indiana bat within the action area and within the Midwest Recovery Unit (as delineated in the 2007 Indiana Bat Draft Recovery Plan, USFWS); (8) a conservation program consisting of avoidance and minimization measures, mitigation, monitoring, and adaptive management; (9) funding for the HCP; (10) procedures to deal with changed and unforeseen circumstances; and (11) methods for permit amendments.

In addition to the HCP, the applicant has prepared an IA to document the responsibilities of the parties.
