Deletions

On 3/15/2013 (78 FR 16475–16476)
and 3/22/2013 (78 FR 17641–17642), the
Committee for Purchase From People
Who Are Blind or Severely Disabled
published notices of proposed deletions
from the Procurement List.

After consideration of the relevant
matter presented, the Committee has
determined that the product and service
listed below are no longer suitable for
procurement by the Federal Government
under 41 U.S.C. 8501–8506 and 41 CFR
51–2.4.

Regulatory Flexibility Act Certification

I certify that the following action will
not have a significant impact on a
substantial number of small entities.
The major factors considered for this
certification were:

1. The action will not result in
additional reporting, recordkeeping or
other compliance requirements for small
entities.

2. The action may result in
authorizing small entities to furnish the
product and service to the Government.

3. There are no known regulatory
alternatives which would accomplish
the objectives of the Javits-Wagner-
O'Day Act (41 U.S.C. 8501–8506) in
connection with the product and service
deleted from the Procurement List.

End of Certification

Accordingly, the following product
and service are deleted from the
Procurement List:

Department of the Army

Final Environmental Impact Statement for the Construction and Operation of an Infantry Platoon Battle Course at Pōhakuloa Training Area, Hawai'i

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Pacific
(USARPAC) and U.S. Army Garrison,
Hawai'i, (USAG–HI) propose to
construct and operate a modern Infantry
Platoon Battle Course (IPBC) and
associated infrastructure that is
compliant with current Army training
requirements at Pōhakuloa Training

Area (PTA), Hawai'i. The proposed
IPBC would support the live-fire
collective training needs of the Army,
Army Reserve, and Hawai'i Army
National Guard, as well as other Service
components that are stationed or train
in Hawai'i.

Two alternatives were analyzed in the
EIS: the Western Range Area Alternative
(preferred) and the Charlie Circle
Alternative. Both proposed IPBC
alternative locations are in under-
utilized portions of the PTA impact area
where no ranges currently exist. These
locations have been exposed to indirect
munitions fire, and the proposed action
would reclaim portions of the impact
area to construct the IPBC. A third
alternative analyzed in the Draft
Programmatic Environmental Impact
Statement (PEIS), Southwest of Range
20, is not operationally feasible and has
been eliminated from the Final EIS. The
Army also considered a No Action
Alternative to not build the IPBC. For all
alternatives (except for the No Action),
the IPBC would be used for 242 training
days per year.

The Army identified and analyzed
environmental and socioeconomic
impacts associated with the proposed
IPBC. The major potential
environmental impacts are to air
quality, cultural sites, threatened and
endangered species, encountering
munitions and explosives of concern,
and igniting wildfires. Cultural
resources could also be significantly
impacted. The Army consulted with the
USFWS on potential mitigation
measures to protect federally-listed
species. The USFWS issued a Biological
Opinion (BO) pursuant to Section 7 of
the Endangered Species Act on January
11, 2013. The Army also consulted with
the State Historic Preservation Division,
Advisory Council on Historic
Preservation, and other consulting
parties, including Native Hawaiian
organizations, about potential effects on
cultural resources and mitigation of
those effects. The Army and the
consulting parties are in the process of
signing a Programmatic Agreement (PA)
pursuant to Section 106 of the National
Historic Preservation Act. The PA
establishes how the remaining steps to
the Section 106 consultation will be
completed and the mitigation measures
for the potential adverse effects on
cultural resources. The PA will be
signed prior to the Army issuing a
Record of Decision for the proposed
action.

DATES: The waiting period for the Final
EIS will end 30 days after publication of
the NOA in the **Federal Register** by the
U.S. Environmental Protection Agency.

ADDRESSES: Written comments may be addressed to PTA EIS, P.O. Box 514, Honolulu, HI 96809 or by email to PTAPEIS@bah.com.

FOR FURTHER INFORMATION CONTACT: USAG–HI Public Affairs Office by phone at (808) 656–3152 Monday through Friday 9:00 a.m. to 5:00 p.m. Hawai'i Standard Time (HST).

SUPPLEMENTARY INFORMATION: The IPBC would be used to train and test infantry platoons and other units on the skills necessary to conduct collective (group) tactical movement techniques, and to detect, identify, engage, and defeat stationary and moving infantry and armor targets in a tactical array. Soldiers would engage targets with small arms, machine guns, and other weapon systems as part of live-fire exercises. This includes air-ground integration where Soldiers maneuvering on the IPBC can coordinate air support. In addition to live-fire, the range would also be used for training with sub-caliber and/or laser training devices. This type of training is mission essential for Soldiers to be prepared to encounter threats during combat operations overseas.

The Draft PEIS included a programmatic level analysis of future modernization of ranges, training and support infrastructure, and the Cantonment Area. A number of factors caused the Army to reconsider the programmatic portion of this analysis: the highly uncertain nature of the future projects in the modernization program, a rapidly changing austere fiscal environment, as well as the many public and agency comments received on the Draft PEIS. After thorough consideration of all of these factors, Army leadership has decided to defer analysis of the programmatic portion of the EIS.

In the 2011 Draft PEIS, the IPBC was analyzed as part of a larger Infantry Platoon Battle Area (IPBA), which included a Military Operations on Urban Terrain (MOUT) Assault Course and a live-fire Shoothouse facility. Due to funding constraints, the MOUT Assault Course and Shoothouse facility are no longer part of the project. Further NEPA analysis will occur when funding becomes available for these projects and sites are identified. A third IPBC alternative analyzed in the Draft PEIS, Southwest of Range 20, was subsequently found not to be operationally feasible and it was eliminated from the Final EIS.

The Record of Decision will be published no sooner than 30 days after publication of the notice of availability of the Final EIS in the **Federal Register** by the U.S. Environmental Protection

Agency. The Record of Decision will include final mitigation measures the Army will adopt. Copies of the Final EIS are available at the following libraries: Hilo Public Library, 300 Waiānū Avenue, Hilo; Kailua-Kona Public Library, 75–138 Hualalai Road, Kailua-Kona; Thelma Parker Memorial Public and School Library, 67–1209 Mamalahoa Highway, Kamuela; and Hawai'i State Library, 478 South King Street, Honolulu. A copy of the Final EIS can be accessed online at http://www.garrison.hawaii.army.mil/pta_peis/default.htm.
