## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R03-OAR-2012-0965; FRL-9806-6]

#### Approval and Promulgation of Air Quality Implementation Plans; District of Columbia; Volatile Organic Compounds Emissions Reductions Regulations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** EPA is approving a State Implementation Plan (SIP) revision submitted by the District of Columbia. This SIP revision consists of amendments to Chapters 1 and 7 of Title 20 (Environment) of the District of Columbia Municipal Regulations (DCMR) for the Control of Volatile Organic Compounds (VOC) to meet the requirement to adopt reasonably available control technology (RACT) for sources as recommended by the Ozone Transport Commission (OTC) model rules and EPA's Control Techniques Guidelines (CTG) standards. This SIP revision also includes negative declarations for various VOC source categories. EPA is approving the regulation changes and the negative declarations in accordance with the requirements of the Clean Air Act (CAA).

**DATES:** This final rule is effective on May 29, 2013.

**ADDRESSES:** EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2012-0965. All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the electronic docket, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the District of Columbia, Department of the Environment, Air Quality Division, 1200 1st Street NE., 5th floor, Washington, DC 20002.

**FOR FURTHER INFORMATION CONTACT:** Gregory Becoat, (215) 814-2036, or by email at [becoat.gregory@epa.gov](mailto:becoat.gregory@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Summary of SIP Revision

On February 11, 2013 (78 FR 9648), EPA published a notice of proposed rulemaking (NPR) for the District of Columbia. The NPR proposed approval of amendments to Chapters 1 and 7 of Title 20 (Environment) of the DCMR for the control of VOCs to meet the requirement to adopt RACT and negative declarations for various VOC source categories. The formal SIP revision was submitted by the District of Columbia on January 26, 2010, March 24, 2011, and March 15, 2012. The SIP revision amends the District's regulations to impose the VOC RACT requirements as recommended by OTC's model rules for consumer products, adhesives and sealants, architectural and industrial maintenance, portable fuel containers and spouts, and solvent cleaning and also include VOC RACT requirements consistent with EPA's CTGs for flexible packaging and printing, large appliance coatings, metal furniture coatings, and miscellaneous metal products and plastic parts coatings, lithographic and letterpress printing, miscellaneous industrial adhesives, and industrial cleaning solvents. The SIP revision also consists of negative declarations for the following VOC source categories: Auto and Light-duty Truck Assembly Coatings; Fiberglass Boat Manufacturing Materials; Paper, Film and Foil Coatings; and Flatwood Paneling. EPA received no adverse comments on the NPR to approve the District of Columbia's SIP revision. A more complete explanation of the amendments and the rationale for EPA's proposed action is explained in the technical support document and the NPR in support of this final rulemaking and will not be restated here.

##### II. Final Action

EPA is approving the District of Columbia's SIP revisions adopting VOC RACT requirements for various source categories. EPA is also approving the District's negative declarations pursuant to section 182(b)(2)(A) of the CAA for those CTG categories where no sources are located in the District.

##### III. Statutory and Executive Order Reviews

###### A. General Requirements

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the

CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
  - does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
  - is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
  - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
  - does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
  - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
  - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
  - is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
  - does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by

Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

*B. Submission to Congress and the Comptroller General*

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

*C. Petitions for Judicial Review*

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 28, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action.

This action approving the District's amendments to regulations for the control of VOCs and negative declarations for various VOC source categories may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

40 CFR part 52 is amended as follows:

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

■ 1. The authority citation for part 52 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

**Subpart J—District of Columbia**

- 2. In § 52.470,
  - a. The table in paragraph (c) is amended by:
    - i. Revising the entry for Section 100.
    - ii. Revising the entry for Section 199.
    - iii. Revising the entry for Section 700.
    - iv. Removing the entries for Sections 707 and 708.
    - v. Revising the entry for Section 710.
    - vi. Adding an entry for Section 714 in numerical order.
    - vii. Revising the entries for Sections 715, 716, and 719 through 737.
    - viii. Removing the entries for Sections 738, 739, 740, 741, and 742.
    - ix. Revising the entries for Sections 743 through 749.
    - x. Removing the entry for Section 750.
    - xi. Revising the entries for Sections 751 through 754.
    - xii. Adding entries for Sections 755 through 758, 763 through 771, and 773 through 778 in numerical order.
    - xiii. Revising the entry for Section 799.
  - b. The table in paragraph (e) is amended by revising the entry for Negative Declarations—VOC Source Categories.

The added and revised text reads as follows:

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 82**

[EPA-HQ-OAR-2011-0111; FRL-9800-9]

RIN-2060-AQ84

**Protection of Stratospheric Ozone: Listing of Substitutes for Ozone-Depleting Substances—Fire Suppression and Explosion Protection**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** Pursuant to the U.S. Environmental Protection Agency's Significant New Alternatives Policy program, this action lists C7 Fluoroketone as an acceptable substitute, subject to narrowed use limits, for ozone-depleting substances used as streaming agents in the fire suppression and explosion protection sector. The program implements Section 612 of the Clean Air Act, as amended in 1990, which requires the Agency to

evaluate substitutes and find them acceptable where they pose comparable or lower overall risk to human health and the environment than other available substitutes.

**DATES:** This rule is effective on May 29, 2013.

**ADDRESSES:** EPA has established a docket for this action under Docket ID No. EPA-HQ-OAR-2011-0111. All documents in the docket are listed on the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the index, some information is not publicly available, e.g., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and is publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy at the Air and Radiation Docket, EPA/DC, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1742.

**FOR FURTHER INFORMATION CONTACT:** Bella Maranion, Stratospheric Protection Division, Office of Atmospheric Programs (6205J), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 343-9749; fax number: (202) 343-2363; email address: [maranion.bella@epa.gov](mailto:maranion.bella@epa.gov).  
**SUPPLEMENTARY INFORMATION:** The regulations implementing the Significant New Alternatives Policy (SNAP) program are codified at 40 CFR

part 82, subpart G. The appendices to subpart G list substitutes for ozone-depleting substances (ODSs) for specific end uses as unacceptable or as acceptable with certain restrictions imposed on their use. In addition, a list of acceptable substitutes without restrictions is available at <http://www.epa.gov/ozone/snap/lists/index.html>. This final rule will add a new fire suppression agent to the SNAP list of acceptable substitutes in the appendices to subpart G and specifically to the list of substitutes for halon 1211 for streaming uses. This action does not place any significant burden on the regulated community but lists as acceptable, subject to narrowed use limits, a new halon substitute. The restrictions will ensure that this substitute will not pose a greater risk to human health or the environment than other available or potentially available substitutes in the fire suppression end use.

This final rule finds C7 Fluoroketone acceptable subject to narrowed use limits as a substitute for halon 1211 for use as a streaming agent in portable fire extinguishers in nonresidential applications. Halons are chemicals that were once widely used in the fire protection sector but have been banned from production in the U.S. since 1994 because their emissions into the atmosphere are highly destructive to the stratospheric ozone layer. This action will provide users that need specialized fire protection applications with more alternatives to the use of halons. Businesses that may be regulated, either through manufacturing, distribution, installation and servicing, or use of the fire suppression equipment containing the substitutes are listed in the table below:

TABLE 1—POTENTIALLY REGULATED ENTITIES, BY NORTH AMERICAN INDUSTRIAL CLASSIFICATION SYSTEM (NAICS) CODE

Category	NAICS Code	Description of regulated entities
Construction .....	238210	Alarm system (e.g., fire, burglar), electric, installation only.
Manufacturing .....	325998	Fire extinguisher chemical preparations manufacturing.
