Title: Department of the Interior Regional Climate Science Centers.

OMB Control Number: 1028-0096.

Type of Request: Notice of an extension of a currently approved information collection.

Respondent Obligation: Required to obtain a benefit.

Abstract: The National Climate Change and Wildlife Science Center (NCCWSC) has the responsibility to manage DOI Climate Science Centers (CSCs) that are co-located at cooperating organizations at non-USGS facilities. The NCCWSC works in close partnership with the climate change science and natural and cultural resource management communities to understand high priority science needs and to develop science information tools that can help resource managers develop strategies for responding to climate change. This program provides funding for researchers through cooperative agreements that involve climate change science as a major component. Eight DOI CSCs have been established. The DOI CSCs and host partnerships have been established on a 5-year renewable basis. The initial information collection activity was performed to identify the preferred locations/institutional partners for Climate Science Centers. This was a full and open competition announced on Grants.gov. Based on this information, CSC host institutions have been identified and have entered cooperative agreements with USGS. At present, information collection activities focus on annual performance and financial reports, required under the cooperative agreements. This information is used to conduct an annual performance evaluation of each CSC's progress in meeting the goals of the agreement.

Frequency of Collection: Once annually.

Estimated Number and Description of Respondents: We expect to receive approximately 40 responses (annual status reports) from a combination of state/local and tribal governments as well as from individuals representing the private sector.

Estimated Annual Responses: 40.

Estimated Annual burden hours: 800.

Estimated Reporting and Recordkeeping "Non-Hour Cost"

Burden: There is no non-hour cost burden associated with this activity.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

Comments: To comply with the public consultation process, on January 11, 2013, we published a **Federal Register** notice (78 FR 2422) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day public comment period, which ended March 12, 2013. In response to our **Federal Register** Notice, we received two comments, which consisted of general invectives about the U.S. Government and did not pertain to this information collection. We again invite comments concerning this information collection on: (1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility; (2) the accuracy of our estimate of the burden for this collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents. Please note that the comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NGP of the USGS provides funding for the collection of geospatial data to advance the development of *The National Map* and other national geospatial databases. In FY 2010, projects for the collection of orthoimagery and elevation data were funded through the American Recovery and Reinvestment Act. Subject to future funding availability, opportunities for the collection or revision of data including elevation, orthoimagery, hydrography and other layers in the national databases may be possible. We will accept applications from State, local or tribal governments and academic institutions to supplement ongoing data collection activities to respond to an increasing demand for more accurate and current geospatial data. To submit a proposal a completed project narrative and application must be submitted via Grants.gov. Grant recipients must complete a final

technical report at the end of the project period. All application instructions and forms are available on the Internet through Grants.gov (<http://www.grants.gov>). Hard/paper submissions and electronic copies submitted via email will not be accepted under any circumstances. All reports will be accepted electronically via email.

II. Data

OMB Control Number: 1028-0092.

Title: The National Map: Topographic Data Grants Program.

Type of Request: Extension of currently approved collection.

Respondent Obligation: Required to receive benefits.

Frequency of Collection: Annually.

Description of Respondents: State, Local and Tribal Governments, private and non-profit firms, and academic institutions.

Estimated Number of Annual Responses: 40 applications and 20 final reports.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 2,680 hours. We expect to receive approximately 40 applications. It will take each applicant approximately 60 hours to complete the narrative and present supporting documents. This includes the time for project conception and development, proposal writing, reviewing, and submitting the proposal application through Grants.gov (totaling 2,400 burden hours). We anticipate awarding 20 grants per year. The award recipients must submit quarterly and final reports during the project. Within 7 days of the beginning of each quarter, a report must be submitted summarizing the previous quarter's progress. The quarterly report will take at least 1 hour to prepare (totaling 80 burden hours). A final report must be submitted within 90 calendar days of the end of the project period. We estimate that approximately 10 hours will be used to complete the final report (totaling 200 hours).

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: There are no "non-hour cost" burdens associated with this collection of information.
