

and appropriate elevation bands will be planted in newly created openings within areas of historical dominance.

Small diameter (less than 9 inches diameter at breast height (dbh)) conifers in ridge top fuel treatments will be thinned, handpiled, and burned. Mastication will occur along strategic ridges between the handpiled areas to complete the ridge treatments.

Roadside treatments will manually cut, handpile, and burn brush and small diameter trees (less than 6 inches dbh) within buffers about 100 feet wide on either side of the road. Actual treatment may vary in size and width depending on fuel conditions. Trees less than 10 inches dbh will be thinned to an average of 20-foot bole spacing. Existing brush densities will be reduced by 40–60% where they exist. All hazard trees will be identified and removed in accordance with danger tree guidelines. Roadside fuels treatments would complement treatments proposed by the local fire safe council.

Pre-commercial treatments will thin small diameter conifers (less than 9 inches dbh) to approximately 28–30 foot bole spacing or a specified distance from trees of a certain diameter. For example, if a tree is four inches dbh, then spacing will be dbh times 12 plus 10 feet, equaling 14-foot bole spacing. There will be species specific preferences for thinning in some units.

Meadow treatments will consist of manually removing small diameter conifers (less than 9 inches dbh). The removed trees will be handpiled and burned. Noxious weed will be removal using manual techniques. Willows may be planted in and around the meadows where needed to increase shade and bank stability.

Three miles of existing roadbeds will be used as temporary roads for short-term access and then closed following project completion to reduce log skidding distances and associated impacts to soils and other resources. No new temporary roads are proposed. Existing landings will be used to the extent possible. The estimated number of new landings needed for the project is 30, with a maximum size less than one-acre each.

Responsible Official

Patricia Grantham, Klamath National Forest Supervisor, 1711 South Main Street, Yreka, California 96097, will prepare and sign the Record of Decision at the conclusion of the National Environmental Policy Act (NEPA) review.

Nature of Decision To Be Made

The Forest Service is the lead agency for the project. Based on the result of the NEPA analysis, the Forest Supervisor's Record of Decision regarding the Jess Project will recommend implementation of one of the following: (1) The proposed action and mitigation necessary to minimize or avoid adverse impacts; (2) An alternative to the proposed action and mitigation necessary to minimize or avoid adverse impacts; or (3) The no-action alternative. The Record of Decision will also document the consistency of the proposed action or one of the alternatives with the Klamath National Forest Land and Resource Management Plan.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments should be as specific as possible.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Certain Preserved Mushrooms From India: Rescission of Antidumping Duty Administrative Review; 2012–2013

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Katherine Johnson or Terre Keaton Stefanova, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–4929 or (202) 482–1280, respectively.

SUPPLEMENTARY INFORMATION:

Background

On February 1, 2013, the Department of Commerce (the Department) published in the **Federal Register** a notice of “Opportunity to Request Administrative Review” of the antidumping duty order on certain preserved mushrooms from India for the period of review (POR) of February 1, 2012, through January 31, 2013.¹

On February 28, 2013, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), the Department received a timely request from Monterey Mushrooms, Inc. (the petitioner), a domestic interested party, to conduct an administrative review of the sales of Agro Dutch Industries Limited (Agro Dutch), Himalya International Ltd. (Himalya), Hindustan Lever Ltd. (formerly Ponds India, Ltd.) (Hindustan), Transchem Ltd. (Transchem), and Weikfield Foods Pvt. Ltd (Weikfield). The petitioner was the only party to request this administrative review.

On March 29, 2012, the Department published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order on certain preserved mushrooms from India with respect to the above-named companies.²

On April 19, 2013, the petitioner timely withdrew its request for a review of all five companies.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if the parties that requested a review withdraw the request within 90 days of the date of publication of notice of initiation of the requested review. The petitioner withdrew its request for review before the 90-day deadline, and no other party requested an administrative review of the antidumping duty order on certain preserved mushrooms from India for the POR. Therefore, in response to the petitioner’s withdrawal of its request for review of Agro Dutch, Himalya, Hindustan, Transchem and Weikfield and pursuant to 19 CFR 351.213(d)(1), we are fully rescinding this review.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after the date of publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as the only reminder to importers of their responsibility, under 19 CFR 351.402(f)(2), to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is published in accordance with section 751 of the Act and 19 CFR 351.213(d)(4).

Dated: April 29, 2013.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
