SUPPLEMENTARY INFORMATION:

A. Purpose

The approval is requested for 5 versions of the form, GSA Forms 1364A, 1364A-1, 1364B, 1364C, and 1364D. These forms are used to obtain information for offer evaluation and lease award purposes regarding property being offered for lease to house Federal agencies. This includes financial aspects of offers for analysis and negotiation, such as real estate taxes, adjustments for vacant space, and offerors' construction overhead fees.

These Form 1364 versions are products of a GSA Lease Reform Initiative to improve the lease acquisition process for GSA, client agencies, and the private sector. Process reform over the past 2 years has brought reform to GSA leasing by implementing a variety of enhancements and improvements to the methods by which GSA procures space. As a direct result of the reform, five new lease contract models have been developed that are targeted to meet the needs of the

national leased portfolio. Four of the lease models require offerors to complete a GSA Form 1364. The new versions of GSA Form 1364 require the submission of information specifically aligned with the leasing models and avoid mandating submission of information that is not required for use in evaluation and award under each model. The Simplified Lease Model uses GSA Forms 1364A and 1364A-1. This model obtains a firm, fixed price for rent, which includes the cost of tenant improvement construction. Therefore, leases using the Simplified model do not include post-award tenant improvement cost information on the form.

The 1364A includes rental rate components and cost data that becomes part of the lease contract and that is necessary to satisfy GSA pricing policy requirements.

The 1364A-1 is a checklist that addresses technical requirements as referenced in the Request for Lease Proposals. The 1364A-1 is separate from the proposal itself and maintained in the lease file; it does not become an exhibit to the lease. The 1364A-1 may contain proprietary offeror information that cannot be released under the Freedom of Information Act.

The Streamlined Lease Model uses GSA Form 1364B. The Streamlined Lease model is a unique model that was designed to support small to mid-size leases up to \$500,000 average net annual rent and occupancies that fall under Interagency Security Committee Security Levels I, II, and III. The Streamlined Lease model is not used for projects requiring lease construction or leases employing the best value trade-off evaluation process.

The Standard Lease Model, which relies on an allowance instead of firm fixed pricing for initial tenant improvements, uses GSA Form 1364C. The 1364C captures an offeror's proposed interest rate and amortization period for the tenant improvements, in addition to the lessor's overhead fees.

The Succeeding and Superseding Lease Model uses GSA Form 1364D. These leases are negotiated with the existing lessor after advertisements and cost benefit analyses result in a determination that such a lease is in the best interests of the government. The form has less data input required than for a Standard lease; it also includes current rental rate information, supplied by the Government.

The 1364A-1, 1364B, and 1364C summarize an offeror's technical compliance with some important statutory and regulatory requirements to make the overall offer process easier for

offerors to understand (e.g., accessibility and seismic standards, flood plain compliance, asbestos). The 1364C also limits the collection of tenant improvement overhead fees to the architect/engineering fees and lessor's project management fees.

SUPPLEMENTARY INFORMATION:

A. Purpose

Pursuant to section 3506(c)(2)(A) of the PRA, GSA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, GSA is requesting comments from very small businesses (those that employ less than 25) on examples of

specific additional efforts that GSA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for GSA?

You may find the following suggestions helpful for preparing your comments.

1. Explain your views as clearly as possible and provide specific examples.

2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by GSA, be sure to identify the ICR title on the first page of your response. You may also provide the **Federal Register**

citation. Data.gov is inspired by the President’s program for “Open Government” and “Transparency”. In response to the President’s direction to improve the transparency of government, the Federal Chief Information Officer (CIO) Council created a Web site/portal that improves public access to a wide variety of U.S. Government data. Data.gov is a public-friendly Web site that provides descriptions of the federal datasets, information on how to access the datasets, points of contact information, metadata information, interactive datasets, “Communities” areas centered on specific topics, and links to publicly accessible applications that leverage the datasets. This information collection request is being submitted in order to fulfill the public feedback aspects of this important initiative. Data.gov visitors will be provided opportunities to provide feedback and ratings in the spirit of the President’s open government and transparency initiative. Examples of feedback mechanisms are:

(1) A five-star rating system to give visitors information about which datasets other visitors found most useful and interesting on the Data.gov Web page,

(2) A “Suggest Other Datasets” entry page for the public to submit ideas for datasets with an optional contact email address provided for those visitors wishing to identify themselves,

(3) A “Contact Us” entry page with an optional contact email address for those visitors wishing to identify themselves,

(4) Pages for visitors to advise how they leverage the datasets in new and different ways to build applications, conduct analysis, and perform research,

(5) Pages for visitors to rate the benefit of the reported new solutions, etc.
