

maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with course of dealings. The proposed differentiation as between Customers and BX Options Market Makers and Non-Customers recognizes the differing contributions made to the liquidity and trading environment on the Exchange by Customers and BX Options Market Makers, as well as the differing mix of orders entered.

The Exchange believes that for the Specified Penny Pilot Options the proposed reduction of the Customer Rebate to Remove Liquidity from \$0.12 to \$0.00 is reasonable because Customer orders will receive benefits in the form of increased liquidity and the \$0.00 rate is the same rate that is assessed at other options exchanges.⁹ The Exchange believes that for the Specified Penny Pilot Options the proposed reduction of the Customer Rebate to Remove Liquidity from \$0.12 to \$0.00 is equitable and not unfairly discriminatory because Customers would still be assessed the lowest rates with respect to Non-Customers on BX Options.

The Exchange operates in a highly competitive market comprised of eleven U.S. options exchanges in which sophisticated and knowledgeable market participants can and do send order flow to competing exchanges if they deem fee levels at a particular exchange to be excessive. The Exchange believes that the proposed fee and rebate scheme discussed herein is competitive and similar to other fees and rebates in place on other exchanges. The Exchange believes that this competitive marketplace materially impacts the fees and rebates present on the Exchange today and substantially influences the proposal set forth above.

B. Self-Regulatory Organization's Statement on Burden on Competition

BX does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, BX has designed its fees and rebates to compete effectively for the execution and routing of options contracts. The Exchange believes that the proposed amended fee/rebate pricing structure for the Specified Penny Pilot Options, including the addition of BAC to this list, would attract liquidity to and benefit order interaction at the Exchange to the benefit of all market participants.

Additionally, since the fees and rebates are comparable to those present at other options venues, the Exchange believes the proposals discussed herein do not pose a burden on competition amongst Exchange participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁰ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
