

its recent information collection request (ICR) submission to OMB entitled "Willingness to Pay Survey for Chesapeake Bay Total Maximum Daily Load: Instrument, Pre-test, and Implementation" (EPA ICR No. 2456.01, OMB Control No. 2010-NEW). The additional documents, now available in the associated docket, are: The Peer Review Report, the Focus Group and Cognitive Interview Report and the Description of Hydrological, Biochemical, and Ecosystem Models (Attachment 17 of the revised Supporting Statement). These documents may provide useful information to interested parties regarding the development and design of the survey instruments proposed for this project. Full transcripts of the focus groups and cognitive interviews were not prepared and are therefore not available. Public comments were previously requested on the ICR via the **Federal Register** on May 24, 2012 during a 60-day comment period, which was later extended for an additional 30 days. An additional 30-day comment period was initiated upon submission of the ICR to OMB for review and consideration. This notice allows for an additional 30 days of public comments on the ICR in light of the availability of the additional documentation.

DATES: Additional comments may be submitted on or before July 29, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OA-2012-0033, to (1) EPA online using www.regulations.gov (our preferred method); by email to oei.docket@epa.gov; by fax at (202) 566-9744; or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Abstract: The Clean Water Act (CWA) directs EPA to coordinate Federal and State efforts to improve water quality in the Chesapeake Bay. In 2009, Executive Order (E.O.) 13508 reemphasized this mandate, directing EPA to define the next generation of tools and actions to restore water quality in the Bay and describe the changes to be made to regulations, programs, and policies to implement these actions. The Chesapeake Bay watershed encompasses 64,000 square miles in parts of six states and the District of Columbia. It is the largest estuary in the United States and the third largest in the world. The Chesapeake Bay's unique set of ecological and cultural elements has motivated efforts to preserve and restore its condition for more than 25 years. Significant progress has been made over that period however, pollution budgets, called Total Maximum Daily Loads (TMDLs), are necessary to continue progress toward the goal of a healthy Bay. The watershed states of New York, Pennsylvania, Delaware, West Virginia, Virginia, and Maryland, as well as the District of Columbia, have developed Watershed Implementation Plans (WIPs) detailing the steps each will take to meet its obligations under the TMDL.

As part of the next phase of this effort, EPA is undertaking an assessment of the costs and benefits of meeting Total Maximum Daily Loads (TMDLs), of nitrogen, phosphorus, and sediment for the Chesapeake Bay. As an input to the TMDL benefits study, EPA's National Center for Environmental Economics (NCEE) is seeking approval to conduct a stated preference survey to collect data on households' use of Chesapeake Bay and its watershed, willingness to pay for a variety of water quality improvements likely to follow from pollution reduction programs, and demographic information. If approved, the survey would be administered by mail in two

phases to a sample of 9,140 residents living in the Chesapeake Bay states, Chesapeake Bay watershed, and other eastern states within 100 miles of the Atlantic Ocean.

Benefits from meeting the TMDL for the Chesapeake Bay will accrue to those who live near the Bay or visit for recreation, those who live near or visit lakes and rivers in the watershed, and those who live further away and/or may never visit the Bay but have a general concern for the environment quality of the Bay. While benefits from the first two categories can be measured using hedonic property value, recreational demand, and other revealed preference approaches, only stated preference methods can capture nonuse benefits. This study will provide policy makers with additional information on the public's preferences for improvements to the Chesapeake Bay and lakes in the watershed. NCEE will use the survey responses to estimate willingness to pay for changes related to reductions in nitrogen, phosphorous, and sediment loadings to the Bay and lakes in the Chesapeake Bay watershed. The analysis relies on state of the art theoretical and statistical tools for non-market welfare analysis. The results of this study will inform the public and policy makers about the benefits of improvements to the Chesapeake Bay and lakes in the watershed. A non-response survey will also be administered to inform the interpretation and validation of survey responses. Participation in the survey will be voluntary and the identity of the respondents will be kept confidential to the extent provided by law.

Public Water System Supervision Program Approval for the State of Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of tentative approval.

SUMMARY: Notice is hereby given that the State of Illinois is revising its approved public water system supervision program for the Ground Water Rule, the Arsenic Rule and the

new Public Water System Definition. EPA has determined that these revisions are no less stringent than the corresponding federal regulation. Therefore, EPA intends to approve these revisions to the State of Illinois's public water system supervision program, thereby giving Illinois EPA primary enforcement responsibility for these regulations. Illinois EPA's revised Ground Water Rule became effective on July 27, 2007 and the revised Arsenic Rule was adopted on February 21, 2002. The new Public Water System Definition was adopted by the State on December 1, 1999.

Any interested person may request a public hearing. A request for a public hearing must be submitted by July 29, 2013, to the Regional Administrator at the EPA Region 5 address shown below. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. However, if a substantial request for a public hearing is made by July 29, 2013, EPA Region 5 will hold a public hearing, and a notice of such hearing will be given in the **Federal Register** and a newspaper of general circulation. If EPA Region 5 does not receive a timely and appropriate request for a hearing and the Regional Administrator does not elect to hold a hearing on her own motion, this determination shall become final and effective on July 29, 2013. Any request for a public hearing shall include the following information: the name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: All documents relating to this determination are available for inspection at the following offices: Illinois Environmental Protection Agency, 1021 North Grand Avenue, Springfield, Illinois 62794-9276, and/or the U.S. Environmental Protection Agency, Region 5, Ground Water and Drinking Water Branch (WG-15), 77 West Jackson Boulevard, Chicago, Illinois 60604, between the hours of 9 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Michele Palmer, EPA Region 5, Ground Water and Drinking Water Branch, at the address given above, by telephone,

at (312) 353-3646, or at palmer.michele@epa.gov.

Authority: (Section 1413 of the Safe Drinking Water Act, as amended, 42 U.S.C. 300g-2 and 40 CFR part 142 of the National Primary Drinking Water Regulations).

Dated: June 13, 2013.

Susan Hedman,

Regional Administrator, Region 5.
