The information in the system is contributed voluntarily by the user and cannot be accessed by government without explicit consent of the user, except as provided in this notice. Information is not shared between government agencies, except when the user gives explicit consent to share his or her information, except as provided in this notice.

Dated: June 28, 2013.

**James Atwater,**

*Acting Director, Office of Information Management, General Services Administration.*

**GSA/OCSIT-1**

**SYSTEM NAME:**

MyUSA.

### SYSTEM LOCATION:

### CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Anyone is able to create an account.

### CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include, but are not limited to: (1) Biographical data such as name, address, email, phone number, birth date, and basic demographic information such as whether or not the individual is married, a veteran, a small business owner, a parent or a student; (2) information stored by third-party applications that have been authorized by the user to access their account using one or more of MyUSA's programmatic interfaces, such as notifications, tasks, or events; (3) a history of third-party applications interactions with a user's account so the user can monitor how their account is being accessed by third-parties. Use of the system, and contribution of personal information, is completely voluntary.

### AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Users interacting with third-party applications, such as those developed by government agencies, may be asked to authorize the third-party application to access their system resources, such as their personal profile information. If a user authorizes use of his or her information, the third-party application will be given programmatic access to the user's account resources. All interactions with a user's account, such as reading personal profile information, are logged and are auditable by the user. h. To appropriate agencies, entities, and persons when (1) the Agency suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; (2) The Agency has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by GSA or another agency or entity) that rely upon the compromised information; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with GSA's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.
