Federal Energy Regulatory Commission

[Docket No. OR13–26–000]

Notice of Complaint; Chevron Products Company v. Enterprise TE Products Pipeline Company, LLC

Take notice that on July 3, 2013, pursuant to sections 13(1), 15(1) and 16(1) of the Interstate Commerce Act (ICA), 49 USC app. 8, 13(1), 15(1), and 16(1), Rule 206 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), 18 CFR 385.206, and Rules 343.1(a) and 343.2(c) of the Commission's Procedural Rules Applicable to Oil Pipeline Proceedings, 18 CFR 343.1(a) and 343.2(c), Chevron Products Company (Complainant) filed a formal complaint against Enterprise TE Products Pipeline Company, LLC (Respondent) challenging the lawfulness of the Respondent's FERC Tariff No. 55.28.0. Specifically, the Complainant alleges that Tariff 55.28.0, in providing that Respondent will no longer accept nominations for the transportation of distillates, violates the Settlement Agreement signed by the Respondent in

Docket No. IS12–203–000 and approved by the Commission on May 31, 2013.¹

The Complainant certifies that copies of the complaint were served on the persons listed as the Issuer and Compiler of the Respondent's Tariff No. 55.28.0.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). Federal Energy Regulatory Commission

[Docket No. CP13–477–000]

Columbia Gas Transmission, LLC; Notice of Intent to Prepare an Environmental Assessment and Request for Comments on Environmental Issues for the Proposed Smithfield III Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Smithfield III Expansion Project (Project) involving construction and operation of aboveground facilities by Columbia Gas Transmission, LLC (Columbia) in Greene and Washington Counties, Pennsylvania; and Monongalia, Wetzel, Gilmer, Roane, and Kanawha Counties, West Virginia. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on August 7, 2013.

Comments on the Project may be submitted in written form or electronically, as described in the Public Participation section of this notice. This notice is being sent to the Commission's current environmental mailing for this Project. State and local government representatives are asked to notify their constituents of this proposed Project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

Columbia provided landowners with a fact sheet prepared by the FERC

entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?". This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).

Summary of the Proposed Project

Columbia states that the Project would increase its transportation capacity by 444 MDth per day.

The Project would consist of the following facilities:

- New compressor station (Redd Farm Compressor Station) on Columbia's existing Line 1570 in Washington County, PA.
- Modifications at the Hero-Jollytown Valve Setting which would involve a new regulation setting;
- Modifications to the Smithfield Compressor Station consisting of upgrades to the existing reciprocating engine/compressor building ventilation systems, existing gas coolers, and installation of new gas coolers;
- Modifications to the Glenville Compressor Station by installing two gas-fired turbines, each rated at 7,800 horsepower (HP), and other auxiliary equipment; and
- Modifications at the Pigeon Valve Setting by removing and replacing the crossover piping and valve to enable gas to flow south.

The general location of the Project facilities is shown in Appendix 1.¹

Land Requirements for Construction

Construction of the proposed facilities would disturb about 17.6 acres of land including the temporary workspace areas for all aboveground facility sites. With the exception of the construction of the Redd Farm compressor Station, Columbia would utilize areas within the fenced boundaries of the existing facilities for materials staging and construction activities, or previously cleared land immediately adjacent to these facilities.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action
