

multiple option legs, be: (1) Part of a qualified contingent trade under Regulation NMS; (2) for at least 1,000 standard option contracts; ³² (3) executed at a price at or between the NBBO; and (4) cancelled if there is a public customer order at the same price resting on the electronic book. Thus, the Commission believes that the proposal continues to strike an appropriate balance for the options market in that it is narrowly drawn and in that it establishes a limited exception to the general principle of exposure and retains the general principle of customer priority in the options markets.³³

For the foregoing reasons, the Commission finds that the proposed rule change is consistent with Section 6(b)(5)³⁴ and 6(b)(8)³⁵ of the Act. Further, the Commission finds that the proposed rule change is consistent with Section 11A(a)(1)(C) of the Act.³⁶

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,³⁷ that the proposed rule change (SR-CBOE-2013-041), as modified by Amendment Nos. 1 and 2, is approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³⁸

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-69952; File No. SR-NYSEMKT-2013-61]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending NYSE MKT Rules 504 and 509—Equities With Requirements Applicable to Nasdaq Stock Market Securities Traded on the Exchange Pursuant to A Grant of Unlisted Trading Privileges

July 9, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,²

notice is hereby given that, on June 26, 2013, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend NYSE MKT Rules 504 and 509—Equities with respect to DMM quoting requirements applicable to Nasdaq Stock Market (“Nasdaq”) securities traded on the Exchange pursuant to a grant of unlisted trading privileges. The text of the proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend NYSE MKT Rules 504 and 509—Equities with respect to DMM quoting requirements applicable to Nasdaq securities traded on the Exchange pursuant to a grant of unlisted trading privileges. NYSE MKT Rules 500–525—Equities, as a pilot program, govern the trading of any Nasdaq-listed security on the Exchange pursuant to unlisted trading privileges (“UTP Pilot Program”).³ The UTP Pilot Program

³ The UTP Pilot Program is currently scheduled to expire on the earlier of Commission approval to make such pilot permanent or January 31, 2014. See Securities Exchange Act Release No. 69814 (June 20, 2013) (SR-NYSEMKT-2013-53) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending NYSE MKT Rule 500—

includes any security listed on Nasdaq that (i) is designated as an “eligible security” under the Joint Self-Regulatory Organization Plan Governing the Collection, Consolidation and Dissemination of Quotation and Transaction Information for Nasdaq-Listed Securities Traded on Exchanges on an Unlisted Trading Privilege Basis, as amended (“UTP Plan”),⁴ and (ii) has been admitted to dealings on the Exchange pursuant to a grant of unlisted trading privileges in accordance with Section 12(f) of the Act⁵ (collectively, “Nasdaq Securities”).⁶

Designated Market Maker units (“DMM units”)⁷ registered in one or more Nasdaq Securities must comply with all “DMM rules,” as defined in NYSE MKT Rule 98—Equities,⁸ and the

Equities to Extend the Operation of the Pilot Program that Allows Nasdaq Stock Market (“Nasdaq”) Securities to be Traded on the Exchange Pursuant to a Grant of Unlisted Trading Privileges). ⁶ “Nasdaq Securities” is included within the definition of “security” as that term is used in the NYSE MKT Rules—Equities. See NYSE MKT Rule 3—Equities. In accordance with this definition, Nasdaq Securities are admitted to dealings on the Exchange on an “issued,” “when issued,” or “when distributed” basis. See NYSE MKT Rule 501—Equities.

⁷ See NYSE MKT Rule 103—Equities—Registration and Capital Requirements of DMMs and DMM Units. “DMM unit” means any member organization, aggregation unit within a member organization, or division or department within an integrated proprietary aggregation unit of a member organization that (i) has been approved by NYSE Regulation pursuant to section (c) of this Rule 103, (ii) is eligible for allocations under NYSE MKT Rule 103B—Equities as a DMM unit in a security listed or traded on the Exchange, and (iii) has met all registration and qualification requirements for DMM units assigned to such unit. See NYSE MKT Rule 98(b)(2)—Equities.

⁸ “DMM rules” means any rules that govern DMM conduct or trading. See NYSE MKT Rule 98(b)(5)—Equities.

obligations and benefits of DMMs in Nasdaq Securities closely track those applicable to DMMs in Exchange-listed equities, subject to certain modifications enumerated in NYSE MKT Rule 509—Equities. As is the case with DMMs in Exchange-listed equities, a DMM unit in Nasdaq Securities has an affirmative obligation to engage in a course of dealings for its own account to assist in the maintenance of a fair and orderly market insofar as reasonably practicable, including maintaining price continuity with reasonable depth and quoting and trading with reference to Exchange-provided Depth Guidelines.⁹ In addition, a DMM in Nasdaq Securities is required to facilitate trading when a “gap” quote procedure is being used and when a manual block trade is being executed.¹⁰

The obligations of DMM units registered to trade Nasdaq Securities are, however, slightly different from those that apply to DMMs in Exchange-listed securities. First, the rules that apply to trading in Nasdaq Securities on the Exchange do not provide for opening and closing auctions in Nasdaq Securities, so DMMs in Nasdaq Securities are not responsible for facilitating openings and closings, as DMMs in listed equities are. Second, NYSE MKT Rule 509(a)(1)—Equities states that in lieu of NYSE MKT Rule 104(a)(1)(A)—Equities, with respect to maintaining a continuous two-sided quote with reasonable size, a DMM unit registered in Nasdaq Securities must maintain a quote at the National Best Bid or Offer (“inside”) in each assigned Nasdaq Security an average of at least 10% of the time during the regular business hours of the Exchange for each calendar month for Nasdaq Securities with a consolidated average daily volume (“CADV”) of less than one million shares per calendar month and an average of at least 5% of the time during the regular business hours of the Exchange for each calendar month for Nasdaq Securities with a CADV equal to or greater than one million shares per calendar month. As such, a DMM in a Nasdaq Security is required to meet these quoting requirements on a stock-by-stock basis.

The Exchange proposes to amend NYSE MKT Rule 509(a)(1)—Equities to require that DMM units maintain a bid or offer at the NBBO for a certain percentage of the trading day on a portfolio basis. The percentage required would depend on whether the stock is a “More Active Security” or “Less

Active Security” security, as defined in Rule 103B(II)(B) and (C)—Equities. As proposed, a DMM unit would be required to maintain a bid or offer at the NBBO for at least 15% of the trading day for Nasdaq Securities in which the DMM unit is registered with a CADV of less than one million shares (i.e., Less Active Securities), and at least 10% of the trading day for Nasdaq Securities in which the DMM unit is registered with a CADV equal to or greater than one million shares (i.e., More Active Securities).

The requirements of proposed NYSE MKT Rule 509(a)(1)(A) are modeled on the DMM unit quoting requirements in New York Stock Exchange LLC (“NYSE”) Rule 104(a)(1)(A), which requires that DMM units maintain a bid or offer at the NBBO for a certain percentage of the trading day on a portfolio basis. Specifically, NYSE Rule 104(a)(1)(A) requires that DMM units maintain a bid or offer at the NBBO for at least 15% of the trading day for NYSE-listed securities in which the DMM unit is registered with a CADV of less than one million shares, and at least 10% for securities for NYSE-listed securities in which the DMM unit is registered with a CADV equal to or greater than one million shares.

The Exchange notes that the NYSE requirement for NYSE-listed securities is greater than the DMM unit quoting requirement for Exchange-listed securities. NYSE MKT Rule 104(a)(1)(A)—Equities requires that DMM units maintain a bid or offer at the NBBO for a certain percentage of the trading day for all Exchange-listed securities in which the DMM unit is registered, specifically, at least 10% of the trading day for the Exchange-listed securities in which the DMM unit is registered with a CADV of less than one million shares, and at least 5% for securities in which the DMM unit is registered with a CADV equal to or greater than one million shares.

Accordingly, under the proposed change, DMM units would be required to meet a quoting requirement for Nasdaq Securities that is greater than the quoting requirement for Exchange-listed securities.

The Exchange believes the proposed change is appropriate in light of the low volume of trading of Nasdaq Securities occurring on the Exchange. The Exchange believes that basing the quoting requirements on quoting in the portfolio of securities in which the DMM unit is registered rather than on a security-by security basis will encourage quoting activity in a broader number of Nasdaq Securities, including less active securities. Because, in part,

of the difficulty DMM units have in meeting the current stock-by-stock quoting obligation, DMM units have declined to participate in the UTP Pilot Program, and trading in Nasdaq Securities on NYSE MKT is minimal, with only 135 of the approximately 2,600 Nasdaq Securities trading at the Exchange as of May 21, 2013. Specifically, meeting the security-by-security quoting requirement on a daily basis has been sufficiently difficult to discourage DMM units from participating in the UTP program. The Exchange believes that the portfolio approach will give DMM units more flexibility in meeting the quoting requirements, thus encouraging DMM participation in the UTP Pilot Program. The Exchange notes that while there may be more or less quoting in individual securities in the portfolio in any particular trading session, as with the portfolio quoting requirement for NYSE and the Exchange, the Exchange believes that over time, quoting across all of the assigned Nasdaq Securities will even out as the requirement to meet the portfolio requirement would discourage an imbalance in quoting any one security. The Exchange therefore seeks to adopt an obligation that is both meaningful and attainable to encourage increased participation by DMM units in the UTP Pilot Program, which would result in more liquidity providing and quoting in a higher number of Nasdaq Securities trading on the Exchange.

The Exchange also notes that the proposed quoting requirement is higher than the quoting requirement applicable to Exchange-listed securities, and therefore the obligation associated with the quoting requirement for DMMs in Nasdaq Securities would still be greater than the similar obligation for Exchange-listed securities. The Exchange believes that this is appropriate given the Commission’s prior finding that the obligations and benefits for DMMs that trade Nasdaq Securities differ from the obligations and benefits for DMMs that trade Exchange-listed securities.¹¹ The Exchange believes that the proposed change strikes the appropriate balance between setting a meaningful obligation to the market that is tailored to the volume levels of Nasdaq Securities that trade in the UTP Pilot Program while at the same time recognizing that the obligations for DMM units must be meaningful as compared to the benefits they receive.

⁹ See NYSE MKT Rule 104(a), (f)(ii) and (f)(iii)—Equities.

¹⁰ See NYSE MKT Rule 104(a)(5)—Equities.

¹¹ See Securities Exchange Act Release Nos. 62479 (July 9, 2010), 75 FR 41264 (July 15, 2010) (SR-NYSEAmex-2010-31).

Finally, the Exchange notes that using a similar structure for the obligations for listed securities and for Nasdaq Securities would, for the same DMM unit eliminate in large part the additional responsibility and burden for DMM units to design, implement and maintain different technology approaches and programming for their trading and internal compliance applications relating to Nasdaq Securities only.

The Exchange also proposes to delete from NYSE MKT Rule 504(b)(1)(A)—Equities, Nasdaq Security Assignment, the text setting out the DMM quoting requirements of NYSE MKT Rule 509—Equities and to replace the repetition of the text with a cross-reference to NYSE MKT Rule 509—Equities.

The Exchange proposes to implement the rule changes effective [sic] August 1, 2013.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange. In particular, the Exchange believes that its proposal is consistent with: (i) Section 6(b) of the Act,¹² in general, and furthers the objectives of Section 6(b)(5) of the Act,¹³ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest; (ii) Section 11A(a)(1) of the Act,¹⁴ in that it seeks to ensure the economically efficient execution of securities transactions and fair competition among brokers and dealers and among exchange markets; and (iii) Section 12(f) of the Act,¹⁵ which governs the trading of securities pursuant to UTP consistent with the maintenance of fair and orderly markets, the protection of investors and the public interest, and the impact of extending the existing markets for such securities.

Specifically, the Exchange believes that the proposed change would remove impediments to and perfect the mechanism of a free and open market and national market system because it would remove an obligation that is virtually impossible for DMM units to

meet and replace it with a quoting obligation better tailored to the scope of the UTP Pilot Program and how Nasdaq Securities trade at the Exchange. The Exchange believes that the proposed change would promote fair competition among broker dealers by encouraging more DMM units to quote Nasdaq Securities, thereby increasing the available liquidity in such securities, which would benefit investors and the public.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition that are not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed change is pro-competitive because it would remove an overly burdensome obligation that places Exchange DMM units at a disadvantage vis-à-vis market makers on other markets because the Exchange DMM units are unable to meet the quoting obligations, and therefore do not trade Nasdaq Securities at the Exchange. The Exchange further believes that the proposed change will foster competition because it will increase the number of DMM units that would be willing to be registered in Nasdaq Securities, thereby increasing the potential pool of liquidity in Nasdaq Securities in the market.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and, by its terms, does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁶ and Rule 19b-4(f)(6) thereunder.¹⁷

¹⁶ 15 U.S.C. 78s(b)(3)(A).

¹⁷ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁸ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEMKT-2013-61 on the subject line.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–69947; File No. SR–MIAX–2013–31]

Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Adopt a Priority Customer Rebate Program

July 9, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on June 27, 2013, Miami International Securities Exchange LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to adopt a Priority Customer Rebate Program.

The text of the proposed rule change is available on the Exchange’s Web site at http://www.miaxoptions.com/filter/wotitle/rule_filing, at MIAX’s principal office, and at the Commission’s Public Reference Room.

¹⁹ 17 CFR 200.30–3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to implement a Priority Customer Rebate Program (the “Program”) for the period beginning July 1, 2013 and ending September 30, 2013.³ The new Priority Customer Rebate Program is based on the substantially similar fees of another competing options exchange.⁴ Under the Program, the Exchange shall credit each Member the per contract amount set forth in the table below resulting from each Priority Customer⁵ order transmitted by that Member which is executed on the Exchange in all multiply-listed option classes (excluding mini-options and executions related to contracts that are routed to one or more exchanges in connection with the Options Order Protection and Locked/Crossed Market Plan referenced in Rule 1400), provided the Member meets certain volume thresholds in a month as described below. The volume thresholds are calculated based on the customer average daily volume over the course of the month. Volume will be recorded for and credits will be delivered to the Member Firm that submits the order to the Exchange.

³ The Exchange notes that at the end of the period, the Program will expire unless the Exchange files another 19b–4 Rule Filing to amend its fees.

⁴ See Chicago Board Options Exchange, Incorporated (“CBOE”) Fees Schedule, p. 4. See also Securities Exchange Act Release Nos. 66054 (December 23, 2011), 76 FR 82332 (December 30, 2011) (SR–CBOE–2011–120); 68887 (February 8, 2013), 78 FR 10647 (February 14, 2013) (SR–CBOE–2013–017).

⁵ The term “Priority Customer” means a person or entity that (i) is not a broker or dealer in securities, and (ii) does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial accounts(s). See MIAX Rule 100.

Percentage thresholds of national customer volume in multiply-listed options classes listed on MIAX (Monthly)	Per contract credit
0.00%–0.25%	\$0.00
Above 0.25%–0.50%	0.10
Above 0.50%–1.00%	0.11
Above 1.00%–2.00%	0.12
Above 2.00%	0.14

The Exchange will aggregate the contracts resulting from Priority Customer orders transmitted and executed electronically on the Exchange from affiliated Members for purposes of the thresholds above, provided there is at least 75% common ownership between the firms as reflected on each firm’s Form BD, Schedule A. In the event of a MIAX System outage or other interruption of electronic trading on MIAX, the Exchange will adjust the national customer volume in multiply-listed options for the duration of the outage. A Member may request to receive its credit under the Priority Customer Rebate Program as a separate direct payment.

In addition, the rebate payments will be calculated from the first executed contract at the applicable threshold per contract credit with the rebate payments made at the highest achieved volume tier for each contract traded in that month. For example, if Member Firm XYZ, Inc. (“XYZ”) has enough Priority Customer contracts to achieve 2.5% of the national customer volume in multiply-listed option contracts during the month of July, XYZ will receive a credit of \$0.14 for each Priority Customer contract executed in the month of July.

The purpose of the Program is to encourage Members to direct greater Priority Customer trade volume to the Exchange. Increased Priority Customer volume will provide for greater liquidity, which benefits all market participants. The practice of incentivizing increased retail customer order flow in order to attract professional liquidity providers (Market-Makers) is, and has been, commonly practiced in the options markets. As such, marketing fee programs,⁶ and customer posting incentive programs,⁷ are based on attracting public customer order flow. The Program similarly intends to attract Priority Customer order flow, which will increase liquidity, thereby providing greater trading opportunities and tighter spreads for other market
