The draft assessment was prepared by the National Center for Environmental Assessment (NCEA) within the EPA Office of Research and Development (ORD). EPA is releasing this draft assessment and peer review charge questions for the purpose of public comment. This draft assessment is not final as described in EPA's information quality guidelines, and it does not represent and should not be construed to represent Agency policy or views. DATES: The public comment period begins, August 21, 2013, and ends October 21, 2013. Technical comments should be in writing and must be received by EPA by October 21, 2013.

Discussion of the draft toxicological review of benzo[a]pyrene will be included on the agenda of the bi-monthly IRIS public meeting to be held on October 23–24, 2013, at EPA offices in Arlington, Virginia. Information on this meeting, including meeting location, time, and registration and participation procedures are available at the IRIS Web site (<http://www.epa.gov/iris/publicmeeting/>).

Discussion of the draft toxicological review of benzo[a]pyrene will be included on the agenda of the bi-monthly IRIS public meeting to be held on October 23–24, 2013, at EPA offices in Arlington, Virginia. Detailed information regarding meeting location, time, and registration and participation procedures will be available at the IRIS Web site (<http://www.epa.gov/iris/publicmeeting/>).

SUPPLEMENTARY INFORMATION:

I. Information About IRIS

EPA's IRIS Program is a human health assessment program that evaluates quantitative and qualitative risk information on effects that may result from exposure to chemical substances found in the environment. Through the IRIS Program, EPA provides the highest quality science-based human health assessments to support the Agency's regulatory activities and decisions to protect public health. The IRIS database contains information for more than 500 chemical substances that can be used to support the first two steps (hazard identification and dose-response evaluation) of the human health risk assessment process. When supported by available data, IRIS provides health effects information and toxicity values for health effects (including cancer and effects other than cancer). Government and others combine IRIS toxicity values with exposure information to characterize public health risks of chemical substances; this information is then used to support risk management decisions designed to protect public health.

II. Bi-Monthly Public Meeting

In addition to the 60-day public comment period announced in this notice, the draft assessment will be discussed at the first bi-monthly IRIS public meeting scheduled for October 23–24, 2013. Information on this meeting, including meeting location, time, and registration and participation procedures, will be available at the IRIS Web site (<http://www.epa.gov/iris/publicmeeting/>). The purpose of the IRIS public meeting is to allow all interested parties to present scientific and technical comments on the draft IRIS health assessment and charge questions to EPA and other interested parties attending the meeting. The public comments provided in response to this notice, and at the IRIS public meeting, will be considered by the Agency prior to submitting the draft assessment to the SAB for peer review.

III. Peer Review

After consideration of public comments by EPA, the draft assessment will be sent to the EPA's Science Advisory Board (SAB) Chemical Assessment Advisory Committee (CAAC) for peer review. The EPA SAB is a body established under the Federal Advisory Committee Act with a broad mandate to advise the Agency on scientific matters. The public comment period and bi-monthly public meeting announced in this notice are separate processes from the SAB/CAAC peer review. The SAB will schedule one or more public peer review meetings, which will be announced in a separate **Federal Register** Notice at a later date.
