We invite interested Federal, State, and local officials to review and comment on the draft maps for Delaware, South Carolina (including one unit that crosses the State boundary into North Carolina), Texas, and one unit in Florida. The Service is specifically notifying the following stakeholders concerning the availability of the draft maps and opportunity to provide comments on the proposed boundary modifications: The Chair and Ranking Member of the House of Representatives Committee on Natural Resources; the Chair and Ranking Member of the Senate Committee on Environment and Public Works; the members of the Senate and House of Representatives for the affected areas; the Governors of the affected areas, and other appropriate Federal, State, and local officials.

Federal, State, and local officials may submit written comments and accompanying data to the individual and location identified in the **ADDRESSES** section above. We will also accept digital Geographic Information System (GIS) data files that are accompanied by written comments. Comments regarding specific units should reference the appropriate CBRS unit number and unit name. Please note that boundary modifications through this process can only be made to reflect changes that have occurred in the size or location of any CBRS unit as a result of natural forces, voluntary additions to the CBRS, or additions of excess Federal property to the CBRS; other requests for changes to the CBRS will not be considered at this time. We must receive comments on or before the date listed in the **DATES** section of this document.

#### Availability of Draft Maps and Related Information

The draft maps and digital boundary data can be accessed and downloaded from the Service's Internet site: <http://www.fws.gov/CBRA>. The digital boundary data are available in shapefile format for reference purposes only. The digital boundaries are best viewed using the base imagery to which the boundaries were drawn; this information is printed in the title block of the draft maps. The Service is not responsible for any misuse or misinterpretation of the digital boundary data.

Interested parties may also contact the Service individual identified in the **FOR FURTHER INFORMATION CONTACT** section above to make arrangements to view the draft maps at the Service's Headquarters office. Interested parties who are unable to access the draft maps via the Internet

or at the Service's Headquarters office may contact the Service individual identified in the **FOR FURTHER INFORMATION CONTACT** section above, and reasonable accommodations will be made to ensure the stakeholder's ability to view the draft maps.
