

individuals who have been seizure-free and off AEDs for a period of time have a lower likelihood of seizure recurrence than individuals who have been apparently seizure-free and on stable AED dosing. The Coast Guard agrees. The policy allows for those individuals with seizure disorders who require treatment with AEDs to be considered for waivers, similar to those who do not require treatment with AEDs.

(3) On the question of risk of seizure recurrence as a function of time since the last seizure among individuals on AEDs who are apparently seizure-free, AES and the Epilepsy Foundation advised that the risk of recurrent seizures decreases with time seizure-free, on or off AED medications. The other commenter opined that the risk of seizure recurrence in this setting was uncertain and dependent upon too many variables. The Coast Guard agrees with both answers. Because the risk of seizure recurrence decreases with time seizure-free, the policy requires a minimum seizure-free time interval before an affected individual can be considered for a waiver. Additionally, in acknowledgement of the many variables that might affect likelihood of seizure recurrence in a particular individual, the policy allows for an individualized assessment and considers the risk evaluation of the treating neurologist.

(4) On the question of the likelihood of seizure recurrence as a function of time in individuals who are seizure-free following removal of a benign brain tumor, none of the commenters gave a specific answer. AES and the Epilepsy Foundation advised, however, that such a situation was already accounted for in the policy. The other commenter asserted that the answer was too variable to generalize. The Coast Guard agrees. The policy specifies a minimum seizure-free time interval for such individuals, but also allows for an individualized assessment.

(5)–(6) Questions five and six asked about the need and appropriateness of applying operational limitations and/or restrictions for mariners with seizure disorders. Both AES and the Epilepsy Foundation pointed out that the seizure-free time requirements outlined in the policy are conservative enough that if exceeded, there should be no need to differentiate between roles. However, they did recommend that less restrictive criteria be applied to individuals who do not operate dangerous machinery, work over 10 feet above ground, pilot a vessel, or stand watch alone. For these individuals, they recommended consideration for specific jobs if they have been seizure free for one year and

on stable medications for one year. The other commenter advised that use of operational restrictions and limitations may be reasonable depending on the individual's job function and circumstances. The Coast Guard agrees and will consider applying operational limitations and/or restrictions on a case-by-case basis, when appropriate.

(7) Question seven asked if there are individuals with seizure disorders due to a structural brain lesion that are at low-risk for seizure recurrence. Both AES and the Epilepsy Foundation noted that individuals with structural brain lesions are at higher risk, as reflected in the longer restriction times outlined in the policy. The other commenter noted that the answer would depend on the definition of structural brain lesion. The Coast Guard agrees. The policy outlines a minimum seizure-free time interval for such cases, while allowing for an individualized assessment and consideration of exceptional circumstances.

III. Authority

This notice is issued under the authority of 5 U.S.C. 552(a), 46 U.S.C. 7101 *et seq.*, 46 CFR 10.215, and Department of Homeland Security Delegation No. 0710.1.

Dated: August 28, 2013.

J.C. Burton,

Captain, U.S. Coast Guard, Director of Inspections & Compliance.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2013–0002]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final notice.

SUMMARY: New or modified Base (1% annual-chance) Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, and/or the regulatory floodway (hereinafter referred to as flood hazard determinations) as shown on the indicated Letter of Map Revision (LOMR) for each of the communities listed in the table below are finalized. Each LOMR revises the Flood Insurance Rate Maps (FIRMs), and in some cases the Flood Insurance Study (FIS) reports, currently in effect for the listed

communities. The flood hazard determinations modified by each LOMR will be used to calculate flood insurance premium rates for new buildings and their contents.

DATES: The effective date for each LOMR is indicated in the table below.

ADDRESSES: Each LOMR is available for inspection at both the respective Community Map Repository address listed in the table below and online through the FEMA Map Service Center at www.msc.fema.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646–4064, or (email) Luis.Rodriguez3@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final flood hazard determinations as shown in the LOMRs for each community listed in the table below. Notice of these modified flood hazard determinations has been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Associate Administrator for Mitigation has resolved any appeals resulting from this notification.

The modified flood hazard determinations are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The new or modified flood hazard determinations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to remain qualified for participation in the National Flood Insurance Program (NFIP).

These new or modified flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or

pursuant to policies established by other Federal, State, or regional entities.

These new or modified flood hazard determinations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance

premium rates for new buildings, and for the contents in those buildings. The changes in flood hazard determinations are in accordance with 44 CFR 65.4.

Interested lessees and owners of real property are encouraged to review the final flood hazard information available

at the address cited below for each community or online through the FEMA Map Service Center at www.msc.fema.gov.

[Docket ID FEMA-2013-0002; Internal Agency Docket No. FEMA-B-1342]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth,

Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified
