

English Proficient Persons document (HHS Office for Civil Rights, 2003) to assess whether or to what extent language access services must be provided in order to comply with the Title VI requirement to take reasonable steps to provide meaningful access to their programs for persons with limited English proficiency.

Principal Standard and Three Enhanced Themes

Principal Standard

Standard 1 has been made the Principal Standard with the understanding that it frames the essential goal of all of the Standards, and if the other 14 Standards are adopted, implemented, and maintained, then the Principal Standard will be achieved.

1. Provide effective, equitable, understandable, respectful, and quality care and services that are responsive to diverse cultural health beliefs and practices, preferred languages, health literacy, and other communication needs.

Theme 1: Governance, Leadership, and Workforce

Changing the name of Theme 1 from *Culturally Competent Care to Governance, Leadership, and Workforce* provides greater clarity on the specific locus of action for each of these Standards and emphasizes the importance of the implementation of CLAS as a systemic responsibility, requiring the investment, support, and training of all individuals within an organization.

The Standards in this theme include:

2. Advance and sustain governance and leadership that promotes CLAS and health equity
3. Recruit, promote, and support a diverse governance, leadership, and workforce
4. Educate and train governance, leadership, and workforce in CLAS

Theme 2: Communication and Language Assistance

Changing the name of Theme 2 from *Language Access Services to Communication and Language Assistance* broadens the understanding and application of appropriate services to include all communication needs and services, including sign language, braille, oral interpretation, and written translation.

The Standards in this theme include:

5. Offer communication and language assistance
6. Inform individuals of the availability of language assistance

7. Ensure the competence of individuals providing language assistance

8. Provide easy-to-understand materials and signage

Theme 3: Engagement, Continuous Improvement, and Accountability

Changing the name of Theme 3 from *Organizational Supports to Engagement, Continuous Improvement, and Accountability* underscores the importance of establishing individual responsibility in ensuring that CLAS is supported, while retaining the understanding that effective delivery of CLAS demands actions across an organization. This revision focuses on the supports necessary for adoption, implementation, and maintenance of culturally and linguistically appropriate policies and services regardless of one's role within an organization or practice. All individuals are accountable for upholding the values and intent of the National CLAS Standards.

The Standards in this theme include:

9. Infuse CLAS goals, policies, and management accountability throughout the organization's planning and operations
10. Conduct organizational assessments
11. Collect and maintain demographic data
12. Conduct assessments of community health assets and needs
13. Partner with the community
14. Create conflict and grievance resolution processes
15. Communicate the organization's progress in implementing and sustaining CLAS.

The past decade has shown that the National CLAS Standards are a dynamic framework. Therefore, as best and promising practices in the field of cultural and linguistic competence develop, there will be future enhancements of the National CLAS Standards. The HHS OMH also maintains a Web version of *The Blueprint* to provide a more comprehensive and up-to-date resource, with supporting material online at www.thinkculturalhealth.hhs.gov.
