

necessary, the AM station may determine operating power by the indirect method (see § 73.51) and request special temporary authority pursuant to § 73.1635 to operate with parameters at variance. For AM stations licensed via field strength measurements (see § 73.151(a)), a partial proof of performance (as defined by § 73.154) shall be conducted both before and after construction to establish that the AM array will not be and has not been adversely affected. For AM stations licensed via a moment method proof (see § 73.151(c)), the proof procedures set forth in § 73.151(c) shall be repeated. The results of either the partial proof of performance or the moment method proof shall be filed with the Commission on Form 302-AM before or simultaneously with any license application associated with the installation.

47 CFR 1.30004(a) requires proponents of proposed tower construction or modification to an existing tower near an AM station that are subject to the notification requirement in §§ 1.30002–1.30003 to provide notice of the proposed tower construction or modification to the AM station at least 30 days prior to commencement of the planned tower construction or modification. Notification to an AM station and any responses may be oral or written. If such notification and/or response is oral, the party providing such notification or response must supply written documentation of the communication and written documentation of the date of communication upon request of the other party to the communication or the Commission. Notification must include the relevant technical details of the proposed tower construction or modification, and, at a minimum, also include the following: proponent's name and address; coordinates of the tower to be constructed or modified; physical description of the planned structure; and results of the analysis showing the predicted effect on the AM pattern, if performed.

47 CFR 1.30004(b) requires that a response to a notification indicating a potential disturbance of the AM radiation pattern must specify the technical details and must be provided to the proponent within 30 days.

47 CFR 1.30004(d) states that if an expedited notification period (less than 30 days) is requested by the proponent, the notification shall be identified as "expedited," and the requested response date shall be clearly indicated.

47 CFR 1.30004(e) states that in the event of an emergency situation, if the proponent erects a temporary new tower

or makes a temporary significant modification to an existing tower without prior notice, the proponent must provide written notice to potentially affected AM stations within five days of the construction or modification of the tower and cooperate with such AM stations to remedy any pattern distortions that arise as a consequence of such construction.

47 CFR 73.875(c) requires an LPFM applicant to submit an exhibit demonstrating compliance with § 1.30003 or § 1.30002, as applicable, with any modification of license application filed solely pursuant to paragraphs (c)(1) and (c)(2) of this section, where the installation is on or near an AM tower, as defined in § 1.30002.

47 CFR 73.1675(c)(1) states that where an FM, TV, or Class A TV licensee or permittee proposes to mount an auxiliary facility on an AM tower, it must also demonstrate compliance with § 1.30003 in the license application.

47 CFR 73.1690(c) requires FM, TV, or Class A TV station applicants to submit an exhibit demonstrating compliance with § 1.30003 or § 1.30002, as applicable, with a modification of license application, except for applications solely filed pursuant to paragraphs (c)(6) or (c)(9) of this section, where the installation is located on or near an AM tower, as defined in § 1.30002.

FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Proposed Collection; Comment Request; Extension

AGENCY: Federal Trade Commission (“FTC” or “Commission”).

ACTION: Notice.

SUMMARY: The FTC intends to ask the Office of Management and Budget (“OMB”) to extend through February 28, 2017, the current Paperwork Reduction Act (“PRA”) clearance for the FTC’s enforcement of the information collection requirements in its regulation “Used Motor Vehicle Trade Regulation Rule” (“Used Car Rule” or “Rule”), which applies to used vehicle dealers. That clearance expires on February 28, 2014.

DATES: Comments must be filed by November 25, 2013.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Write “Used Car Rule, PRA Comment, P137606” on your comment and file your comment online at <https://ftcpublish.commentworks.com/ftc/usedcarrulepra> by following the instructions on the web-based form. If you prefer to file your comment on paper, mail or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Room H-113 (Annex J), 600 Pennsylvania Avenue NW., Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: John C. Hallerud, Attorney, Midwest Region, Federal Trade Commission, 55 West Monroe, Suite 1825, Chicago, IL 60603, 312-960-5634.

SUPPLEMENTARY INFORMATION: The Used Car Rule promotes informed purchasing decisions by requiring used car dealers to disclose information about warranty coverage, if any, and purchasing advice on used cars that they offer for sale. The Rule requires that used car dealers display a form called a “Buyers Guide” on each used car offered for sale that, among other things, discloses information about warranty coverage.

Burden statement:

Under the PRA, 44 U.S.C. 3501-3521, Federal agencies must get OMB

approval for each collection of information they conduct or sponsor. “Collection of information” includes agency requests or requirements to submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). The Rule has no recordkeeping or reporting requirements; as detailed further under the Request for Comment, the FTC seeks clearance for the Rule’s disclosure requirements and the estimated PRA burden for them.

Estimated total annual hours burden: 2,296,227 hours.

As explained in more detail below, this estimate is based on the number of used car dealers (55,432¹), the number of used cars sold by dealers annually (approximately 28,958,000²), and the time needed to fulfill the information collection tasks required by the Rule.³

The Rule requires that used car dealers display a one-page, double-sided Buyers Guide on each used car that they offer for sale. The component tasks associated with the Rule’s required display of Buyers Guides include: (1) Ordering and stocking Buyers Guides; (2) entering data on Buyers Guides; (3) displaying the Buyers Guides on vehicles; (4) revising Buyers Guides as necessary; and (5) complying with the Rule’s requirements for sales conducted in Spanish.

1. Ordering and Stocking Buyers Guides: Dealers should need no more than an average of two hours per year to obtain Buyers Guides, which are readily available from many commercial printers or can be produced by an office word-processing or desk-top publishing

¹ 37,892 independent dealers in 2012. *NIADA Used Car Industry Report* (2013), at 16. 17,540 franchised new car dealers in 2012. *NADA Data State-of-the Industry Report 2013*, at 5.

² The number of used car sales conducted by dealers in 2012 is calculated by multiplying the percentage of used car sales conducted by dealers (71.5%) by the 40.5 million used cars sold in 2012. *NIADA Used Car Industry Report* (2013), 16-17. In 2012, franchised new car dealers conducted 36.9%, and independent used car dealers conducted 34.6%, of used car sales. *Id.* Private parties sold the remaining used cars. *Id.*

³ Some dealers opt to contract with outside contractors to perform the various tasks associated with complying with the Rule. Staff assumes that outside contractors would require about the same amount of time and incur similar cost as dealers to perform these tasks. Accordingly, the hour and cost burden totals shown, while referring to “dealers,” incorporate the time and cost borne by outside companies in performing the tasks associated with the Rule. The time estimates repeat those that the FTC published, without receiving public comment, when the FTC last pursued renewed clearance for the Rule. See 75 FR 62538 (Oct. 12, 2010); 76 FR 144 (Jan. 3, 2011). Absent prospective specific industry estimates to the contrary, staff will continue to apply these estimates.

system.⁴ Based on an estimated population of 55,432 dealers in 2012, the annual hours burden for producing or obtaining and stocking Buyers Guides is 110,864 hours.

2. Entering Data on Buyers Guides: The amount of time required to enter applicable data on Buyers Guides may vary substantially, depending on whether a dealer has automated the process. For used cars sold “as is,” copying vehicle-specific data from dealer inventories to Buyers Guides and checking the “No Warranty” box may take two to three minutes per vehicle if done by hand, and only seconds for those dealers who have automated the process or use pre-printed forms. Staff estimates that dealers will require an average of two minutes per Buyers Guide to complete this task. Similarly, for used cars sold under warranty, the time required to check the “Warranty” box and to add warranty information, such as the additional information required in the Percentage of Labor/Parts and the Systems Covered/Duration sections of the Buyers Guide, will depend on whether the dealer uses a manual or automated process or Buyers Guides that are pre-printed with the dealer’s standard warranty terms. Staff estimates that these tasks will take an average of one additional minute, *i.e.*, cumulatively, an average total time of three minutes for each used car sold under warranty.

Staff estimates that dealers sell approximately fifty percent of used cars “as is” and the other half under warranty. Therefore, staff estimates that the overall time required to enter data on Buyers Guides consists of 482,633 hours for used cars sold without a warranty (28,958,000 vehicles × 50% × 2 minutes per vehicle) and 723,950 hours for used cars sold under warranty (28,958,000 vehicles × 50% × 3 minutes per vehicle) for a cumulative estimated total of 1,206,583 hours.

3. Displaying Buyers Guides on Vehicles: Although the time required to display the Buyers Guides on each used car may vary substantially, FTC staff estimates that dealers will spend an average of 1.75 minutes per vehicle to match the correct Buyers Guide to the vehicle and to display it on the vehicle. The estimated burden associated with this task is approximately 844,608 hours for the 28,958,000 vehicles sold in 2012 (28,958,000 vehicles × 1.75 minutes per vehicle).

4. Revising Buyers Guides as Necessary: If negotiations between the
