Abstract: The Safer Detergent Stewardship Initiative (SDSI) is a voluntary program, administered by EPA to offer resources, and recognition to businesses involved in the transition to safer surfactants. Surfactants are a major ingredient in cleaning products such as detergents, cleaners, airplane deicers and fire-fighting foams. Safer surfactants are those that break down quickly to non-polluting compounds. Under SDSI, businesses that have fully transitioned to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Champion status. At this level, the participant is invited to the SDSI Awards ceremony, listed on the EPA SDSI Web site as a Champion, and may use a special logo in their literature to help explain their participation in the program. Businesses that commit to a full and timely transition to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Partner status. This category provides recognition of significant accomplishments towards the use of safer surfactants. Partners will be listed on the EPA SDSI Web site and may be granted recognition as a Champion in the future if appropriate. This information collection addresses reporting activities that support the administration of the SDSI program.

Responses to this collection of information are voluntary. Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 10 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are establishments or organizations engaged in formulating, producing,

purchasing, or distributing surfactants or products containing surfactants.

Estimated total number of potential respondents: 14.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 140 hours.

Estimated total annual costs: \$8,232. This includes an estimated burden cost of \$8,232 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is no change in the number of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document, pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Amendment of the Federal Docket Management System (EPA/GOV-2)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974 (5 USC 552a), the Environmental Protection Agency (EPA) is giving notice that it is amending the Federal Docket Management System (FDMS) system of

records to add information collected in a Freedom of Information Act (FOIA) system. The FOIA system, "FOIAonline", is a software application on the FDMS system infrastructure. The FOIAonline system is used by participating agencies to electronically receive, process, track and store requests from the public for federal records; post responsive records to a Web site; collect data for annual reporting requirements to the Department of Justice, and manage internal FOIA administration activities. In addition to the current FDMS functionalities, the FOIA system allows the public to submit and track FOIA requests and appeals; access requests and responsive records online, and obtain the status of requests filed with participating agencies.

DATES: Persons wishing to comment on this system of records notice must do so by November 12, 2013.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OEI-2012-0483 by one of the following methods:

Instructions: Direct your comments to Docket ID No. EPA-HQ-OEI-2012-0483. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information for which disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov. If you send an email comment directly to EPA without going through www.regulations.gov your email address will be automatically captured and

included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment, and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. General Information

EPA is amending the Federal Docket Management System (FDMS) (System number: EPA-GOV-2) to add records collected in a Freedom of Information Act (FOIA) system. The system of record notice for FDMS was published in the **Federal Register** on March 24, 2005. The FDMS regulatory system contains **Federal Register** notices, materials supporting regulatory actions such as scientific and economic analyses, and public comments. The repository also contains dockets that are non-rulemaking. The system is used by 39 federal agencies that conduct rulemaking activities. Each agency is responsible for managing its own docket and rulemaking documents. An agency may share documents with other

agencies or persons in addition to making them available to the public on the regulations.gov Web site. Each agency has sole responsibility for documents submitted in support of its rulemakings. These documents will be processed by the responsible agencies.

Some agencies require individuals to provide personally identifiable information when submitting a comment (e.g., name and contact information) that the agency can use if it experiences a problem receiving the comment or requires additional information to process the comment. A comment that meets all requirements of the recipient agency will be posted on the regulations.gov Web site for public viewing. All the contents of posted comments will be searchable. Each agency manages, accesses, and controls the information in the regulatory system that is submitted to it and maintains the sole ability to disclose the information it receives.

The FOIA system, FOIAonline, is used by participating agencies to administratively control and process requests for records in compliance with FOIA and to automate agency FOIA administration activities. FOIAonline provides a secure, login access Web site for agencies to receive and store requests; assign and process requests; post responses online; produce agencies' annual reports to the Department of Justice and manage FOIA requests electronically. The system allows the public to submit and track requests; search and download requests and responsive records; correspond with processing staff and file appeals as registered users. Each participating agency manages, accesses, and controls requests submitted to it through FOIAonline, including responding to requests for information in the possession of the agency and making information available in the system's repository of released records.

The name of a FOIA requester will be publicly available and searchable by the public based on an Agency's policies. With the exception of a requester's name, any other personally identifiable information provided by a requester during the process of completing the online request form or creating an online account (e.g., home addresses, email address and contact information) will not be posted to the Web site, nor will it be searchable by the public. Personally identifiable information determined to be publicly releasable and contained in documents released to the public under FOIA (e.g., the names and official contact information of government employees or the names of agency correspondents) will be publicly

available and searchable by the public if posted by a participating agency based on their internal policies.
