SUPPLEMENTARY INFORMATION:

I. Accessing Information and Submitting Comments

A. Accessing Information

The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that

a document is referenced. The proposed CoC and the preliminary Safety Evaluation Report are available in ADAMS under Package Accession No. ML120130550. The ADAMS Accession No. for the Transnuclear, Inc. Standardized NUHOMS® Cask System Amendment No. 11 dated April 10, 2007, is ML071240088.

• *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2012–0020 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Procedural Background

This rule is limited to the changes contained in Amendment No. 11 to CoC No. 1004 and does not include other aspects of the Transnuclear, Inc. Standardized NUHOMS® Cask System design. Because the NRC considers this action noncontroversial and routine, the NRC is publishing this proposed rule concurrently with a direct final rule in the Rules and Regulations section of this issue of the **Federal Register**. Adequate protection of public health and safety continues to be ensured. The direct final rule will become effective on January 7, 2014. However, if the NRC receives significant adverse comments on this proposed rule by November 25, 2013, then the NRC will publish a document that withdraws the direct final rule. If the direct final rule is withdrawn, the

NRC will address the comments received in response to these proposed revisions in a subsequent final rule. Absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action in the event the direct final rule is withdrawn.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule’s underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC staff to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC staff.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC staff to make a change (other than editorial) to the rule, CoC, or TSs.

For additional procedural information and the regulatory analysis and the availability of the environmental assessment and finding of no significant impact, see the direct final rule published in the Rules and Regulations section of this issue of the **Federal Register**.

III. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, “Plain Language in Government Writing,” published June 10, 1998 (63 FR 31883). The NRC requests comment on the proposed rule with respect to the clarity and effectiveness of the language used.

[Docket Number EERE–2013–BT–TP–0004]

RIN 1904–AC94

**Energy Conservation Program for
Consumer Products: Test Procedures
for Direct Heating Equipment and Pool
Heaters**

AGENCY: Office of Energy Efficiency and
Renewable Energy, Department of
Energy.

ACTION: Notice of proposed rulemaking
and public meeting.

SUMMARY: The U.S. Department of
Energy (DOE) proposes to revise its test
procedures for direct heating equipment
and pool heaters established under the
Energy Policy and Conservation Act.
This rulemaking will fulfill DOE's
statutory obligation to review its test
procedures for covered products at least
once every seven years. For direct
heating equipment, the proposed
amendments would add provisions for
testing vented home heating equipment
that utilizes condensing technology, and
to incorporate by reference six industry
test standards to replace the outdated
test standards which are referred to in
the existing DOE test procedure. These
industry standards reflect the current

practice in test set-up and test
conditions for testing direct heating
equipment. For pool heaters, the
proposed amendments would
incorporate by reference ANSI/Air-
conditioning, Heating, and Refrigeration
Institute (AHRI) Standard 1160–2009,
“Performance Rating of Heat Pump Pool
Heaters,” and ANSI/American Society
of Heating, Refrigerating, and Air-
conditioning Engineers (ASHRAE)
Standard 146–2011, “Method of Testing
and Rating Pool Heaters,” to establish a
test method for electric pool heaters
(including heat pump pool heaters). The
proposed amendments would also
clarify the test procedure's applicability
to oil-fired pool heaters. DOE is also
announcing a public meeting to discuss
and receive comments on issues
presented in this test procedure
rulemaking.

DATES: *Comments:* DOE will accept
comments, data, and information
regarding this notice of proposed
rulemaking (NPR) before and after the
public meeting, but no later than
January 7, 2014. See section V, “Public
Participation,” for details.

Meeting: DOE will hold a public
meeting on Wednesday, December 4,
2013, from 9:00 a.m. to 4:00 p.m., in
Washington, DC. The meeting will also
be broadcast as a webinar. See section
V, “Public Participation,” for webinar
registration information, participant
instructions, and information about the
capabilities available to webinar
participants.

ADDRESSES: The public meeting will be
held at the U.S. Department of Energy,
Forrestal Building, Room 8E–089, 1000
Independence Avenue SW.,
Washington, DC 20585. To attend,
please notify Ms. Brenda Edwards at
(202) 586–2945. For more information,
