The FAA invites public comment on the request to release property at the Charleston International Airport under the provisions of AIR 21.

The FAA is reviewing a request by the Charleston County Aviation Authority to release 266.954 acres of airport property at the Charleston International Airport. The Charleston County Aviation Authority plans to sell the subject property for the purpose of aircraft manufacturing and related support functions.

All three Parcels of land were originally acquired from Georgia Pacific under ADAP Grant 6-45-0012-01 in September, 1976 for future airport development.

1. Parcel A is 141.1 acres, the largest of the three parcels. It is located northwest of the intersection of International Boulevard and Michaux Parkway. The Airport Surveillance Radar (ASR-9) is located on this parcel. The Charleston County Aviation Authority granted an easement to the FAA for this facility that runs with the land into perpetuity or until abandoned by the FAA.

2. Parcel B is 103.0 acres located south of International Boulevard, east of Michaux Parkway and west of Interstate 526 (Mark Clark Expressway).

3. Parcel C is 22.8 acres fronting International Boulevard and encompasses three office buildings and other various site improvements. This property is commonly referred to as the South Carolina Research Authority (SCRA) Tract or Trident area.

Fair market value will be obtained from the sale of the subject airport property. The use of the revenue generated from the sale of the property will be in accordance with FAA's *Policy and Procedures Concerning the Use of Airport Revenue*, published in the **Federal Register** on February 16, 1999 (64 FR 7696). The Aviation Authority's airport account will be properly compensated, thereby serving the interests of civil aviation. In addition, the proposed use of this property is compatible with airport operations.

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Buy America Waiver Notification**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate for the use of 0.5 in. x 0.008 in. steel fibers with ultimate tensile strength of 290 ksi. in Ultra High Performance Concrete (UHPC) at the joints and closure pours between deck pours of a Federal-aid project; US-6 over D&RGW Railroad in Utah.

DATES: The effective date of the waiver is October 25, 2013.

FOR FURTHER INFORMATION CONTACT: For questions about this notice, please contact Mr. Gerald Yakowenko, FHWA Office of Program Administration, (202) 366-1562, or via email at gerald.yakowenko@dot.gov. SUPPLEMENTARY INFORMATION:**Electronic Access**

An electronic copy of this document may be downloaded from the **Federal Register's** home page at: <http://www.archives.gov> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy

America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate to use UHPC 0.5 in. x 0.008 in. steel fibers with ultimate tensile strength 290 ksi. on Federal-aid project US-6 over D&RGW Railroad in Utah.

In accordance with Division A, section 122 of the "Consolidated and Further Continuing Appropriations Act, 2012" (Pub. L. 112-284), the FHWA published a notice of intent to issue a waiver on its Web site for UHPC steel fibers for a project in Utah (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=90>) on July 23rd. The FHWA received no comments in response to the publication. During the 15-day comment period, the FHWA conducted additional nationwide review to locate potential domestic manufacturers of UHPC 0.5 in. x 0.008 in. steel fibers with ultimate tensile strength of 290 ksi. Based on all the information available to the agency, the FHWA concludes that there are no domestic manufacturers of the UHPC steel fibers.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub. L. 110-244, 122 Stat. 1572), the FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate for the use of non-domestic UHPC 0.5 in. x 0.008 in. steel fibers with ultimate tensile strength of 290 ksi. by the State of Utah. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to the FHWA's Web site via the link provided to the Utah waiver page noted above.
