DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree; Pursuant to the Resource Conservation and Recovery Act and the Clean Water Act

On October 28, 2013, the Department of Justice lodged a proposed Consent Decree (“Decree”) in the United States District Court for the Eastern District of Kentucky in the lawsuit entitled *United States of America v. Calgon Carbon Corporation*, Civil Action No. 0:13–cv–00158.

This Decree represents a settlement of claims against the Defendant Calgon Carbon Corporation (“Defendant” or “Calgon”) for violations of Kentucky Revised Statutes (KRS) Title XVIII Chapter 224, Subchapter 46–Hazardous

Waste et seq. (Section 3005 of the Resource Conservation and Recovery Act (“RCRA”), 42 U.S.C. 9625), and the Kentucky Hazardous Waste Management Regulations, as authorized, at Title 401 of Kentucky Administrative Regulations (KAR) Chapters 31 through 38 (40 CFR parts 260 through 270), which account for numerous RCRA hazardous waste permit conditions, RCRA interim status conditions, and other RCRA hazardous waste management requirements at Calgon’s Big Sandy facility located near Catlettsburg, Kentucky, and at Calgon’s Solid Waste Landfill. In addition, the Complaint contains allegations of violations by Calgon of the Clean Water Act (CWA), Sections 301 and 402 of the CWA, 42 U.S.C. SS 1341 and 1311, by not complying with its National Pollutant Discharge Elimination System (NPDES) permit.

Under the proposed Consent Decree, the Defendant will pay a penalty of \$1.6 million, to be allocated as \$1,374,000 as civil penalty for RCRA violations, and \$226,000 for the CWA violations. The Decree provides for stipulated penalties in the event the Defendant fails to comply with the Decree’s requirements.

The proposed Consent Decree provides for injunctive relief sought by the United States that EPA believes is necessary to address Calgon’s violations and bring the facility into compliance with the law. The injunctive relief that Calgon must perform is set forth in Section V. (Compliance Requirements) of the Consent Decree. Calgon has already submitted a Lagoon Solids Stockpile Sampling Quality Assurance Project Plan (QAPP) and Lagoon Solids Stockpile Sampling Work Plan to address sampling and testing of the Phase II Lagoon Solids Stockpile. EPA has already approved this Work Plan and QAPP, which are attached as an appendix to the Consent Decree. Calgon is required to begin to implement its Work Plan within thirty days of the Effective Date of the Consent Decree, which is the date the Decree is entered by the Court.

Within ninety days from the Effective Date of the Decree, Calgon is required to submit a site specific QAPP and Work Plan to address the sampling and testing of groundwater at Calgon’s Residual Solid Waste Landfill. Upon acceptance of the Plan by the Environmental Protection Agency (EPA), Calgon is required to begin to implement the Work within fifteen days.

Calgon must further conduct Corrective Action in accordance with its State-issued RCRA permit and any other applicable Commonwealth rules and regulations for solid waste management

units (SWMUs) and areas of contamination (AOCs). The specific Corrective Action conditions are delegated to the Commonwealth, and will be determined after the assessment work is done pursuant to the Consent Decree.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Calgon Carbon Corporation*, Civil Action No. 0:13-cv-00158, D. J. Ref. No. 90-7-1-09536. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority to conduct the American Time Use Survey (ATUS), the first Federally administered continuous national survey on time use in the U.S. The ATUS measures, for example, time spent with children, working, sleeping, or doing leisure activities. In the U.S., several existing Federal surveys collect income and wage data for individuals and families, and analysts often use such measures of material prosperity as proxies for quality of life. Time-use data substantially augment these quality-of-life measures. The data also can be used in conjunction with wage data to evaluate the contribution of non-market work to national economies. This

enables comparisons of production between nations that have different mixes of market and non-market activities. While there are no proposed material changes to the ATUS, this ICR is considered to be a revision because of how an agency must account for burden changes under the PRA. Specifically, this ICR includes discretionary burden decreases to offset corresponding discretionary burden increases that will be reflected under other Control Numbers. More specifically, the DOL will now seek OMB approval to conduct 5-minute ATUS modules separately from the full ATUS ICR.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0175. The current approval for this collection is scheduled to expire on December 31, 2013; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 19, 2013 (78 FR 43227).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0175. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
