#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The U.S. Census Bureau plans to request an extension of the current Office of Management and Budget (OMB) clearance of the Questionnaire for Building Permit Official (SOC–QBPO). The Census Bureau uses the Computer-Assisted Personal Interviewing (CAPI) electronic questionnaire SOC–QBPO to collect information from state and local building permit officials on: (1) The types of permits they issue, (2) the length of time a permit is valid, (3) how they store permits, and (4) the geographic coverage of the permit system. We need this information to carry out the sampling for the Survey of Housing Starts, Sales, and Completions (OMB number 0607–0110), also known as Survey of Construction (SOC). The SOC provides widely used measures of construction activity, including the economic indicators Housing Starts, Housing Completions, and New Housing Sales.

The current clearance of SOC–QBPO is scheduled to expire on May 31, 2014. We will continue to use the current CAPI questionnaire without any revisions and are requesting approval of continual use of the existing questionnaire in the field. There are no revisions to the current questionnaire. The overall length of the interview and the sample size also will not change.

##### II. Method of Collection

The Census Bureau uses its field representatives to obtain information on the operating procedures of a permit office using the SOC–QBPO. The field

representative visits the permit office, conducts the interview, and completes this electronic form.

### Foreign-Trade Zones Board

[B–97–2013]

#### Foreign-Trade Zone (FTZ) 3—San Francisco, CA; Notification of Proposed Production Activity, Phillips 66 Company, (Oil Refining/Blending), Rodeo, California

The San Francisco Port Commission, grantee of FTZ 3, submitted a notification of proposed production activity to the FTZ Board on behalf of Phillips 66 Company (Phillips 66), located in Rodeo, California. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 12, 2013.

A separate application for subzone status at the Phillips 66 facility was submitted and is being processed under Section 400.31 of the FTZ Board's regulations (B–89–2013, 78 FR 64196, 10/28/2013). The facility is used for refining crude and intermediate oils into fuels, gases, petrochemicals, and by-products. Phillips 66 also blends purchased petroleum products, such as gasoline, alkylates, biodiesel, renewable diesel, and additives, with products produced at the refinery. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products listed in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Phillips 66 has requested approval subject to the standard refinery restrictions and has indicated that it would either be admitting any foreign biodiesel in privileged-foreign (PF) status or filing a customs entry on foreign biodiesel prior to admission into the proposed FTZ. Production under FTZ procedures could exempt Phillips 66 from customs duty payments on foreign status inputs used in export production. On its domestic sales, Phillips 66 would be able to choose the duty rates during customs entry procedures that apply to: Motor gasoline; gasoline components for blending; alkylate; light distillates and light distillate blend stock (testing 25 degrees API or over); diesel; diesel blend stock (testing 25 degrees API or over); diesel containing biodiesel; Jet A fuel; benzene; toluene; xylenes; naphthalene; high aromatic mixtures; carbon black oil; methane/natural gas; refinery gases: Ethane, propane, and butanes, and mixtures of such gases; liquefied refinery gas: Propane, iso-butane, and mixed butane; ethylene;

propylene; butylene; butadiene; buta-1,3-diene; ethane; mixtures such as propane-propylene mix; ethane-propane mix; hydrogen; sulfur; sulfuric acid; non-calcined coke, including green; calcined coke; asphalt; combined heavy uncrackate (light distillate from hydrocracker); combined U250 feed (ultra-low sulfur diesel); naphtha; pressure distillate (distillate oil with average gravity of 54.8); gas oil feed (FCC heavy gas oil; hydrocracker feed); recovered oil (heavy intermediates testing under 25 degrees API); recovered oil (light slop oil testing 25 degrees API or over); recovered gasoline slop; gas oil (testing under 25 degrees API); gas oil (testing 25 degrees API or over); U246 fluid catalytic cracker feed (low sulfur gas oil testing over 25 degrees API); U267 residual oil (heavy gas oil testing less than 20 degrees API); fuel oil (testing under 25 degrees API); and, prefractionator bottoms (testing approx. 10 degrees API; fuel oil) (duty rates range between duty-free and 52.5 cents per barrel or 3.7%) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: Crude oil (testing under, at, or above 25 degrees API); hydrocracker feed; decant oil (fuel oil; slurry oil; testing under 25 degrees API); alkylates; combined heavy uncrackate (light distillate from hydrocracker); combined U250 Feed (ULSD unit feed); naphtha, pressure distillate (distillate oil with average gravity of 54.8); biodiesel (B100); biodiesel other than B100; and renewable diesel (R100) (duty rates: 5.25 cents per barrel, 10.5 cents per barrel, 4.6% or 6.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is December 31, 2013.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the FTZ Board's Web site, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

##### **I. Abstract**

The Departments of Commerce and Homeland Security (DHS) are required to determine whether nonprofit institutions established for scientific or educational purposes are entitled to duty-free entry for scientific instruments the institutions import under the Florence Agreement. Form ITA-338P enables:

(1) DHS to determine whether the statutory eligibility requirements for the institution and the instrument are fulfilled, and (2) Commerce to make a comparison and finding as to the scientific equivalency of comparable instruments being manufactured in the United States. Without the collection of the information, DHS and Commerce would not have the necessary information to carry out the

responsibilities of determining eligibility for duty-free entry assigned by law.

##### **II. Method of Collection**

A copy of Form ITA-338P is provided on and downloadable from a Web site at <http://enforcement.trade.gov/sips/sipsform/ita-338p.pdf> or the potential applicant may request a copy from the Department. The applicant completes the form and then forwards it via mail to DHS.

Upon acceptance by DHS as a valid application, the application is transmitted to Commerce for further processing.
