SUPPLEMENTARY INFORMATION: Midway Gold US, Inc. (Midway) proposes to construct and operate an open-pit gold mining operation in the northern part of the Pancake Mountain Range, approximately 50 miles west of Ely in White Pine County, Nevada. The proposed location is 10 miles south of U.S. Route 50 near Newark Valley. The proposed operations and associated disturbance would be on approximately 3,204 acres of public land managed by the BLM. The proposed power line runs along Highway 50 and south along a proposed access road to the mine site. An updated inventory of lands with wilderness characteristics was completed and no lands with wilderness characteristics were identified in the project area. The estimated project life of the mine is 25 years, which includes 13 years of mining and additional time for associated construction, closure, and post-closure monitoring periods. During operations, the total number of employees would be approximately 150. Midway is currently conducting exploration activities in this area which were analyzed in two environmental assessments (EA): the *Castleworth Ventures, Inc. Pan Exploration Project EA* (May 2004) and the *Midway Gold Pan Project Exploration Amendment EA* (July 2011).

The Final EIS describes and analyzes the proposed project site-specific impacts (including cumulative) on all affected resources. Four alternatives are analyzed: The Proposed Action, the Waste Rock Disposal Site Design Alternative, the Southwest Power Line Alternative, and the No Action Alternative. The Southwest Power Line Alternative was developed to avoid potential impacts to Greater Sage-Grouse from the Proposed Action power line. It is farther away from two active Greater Sage-Grouse leks and impacts less Preliminary Priority Habitat. The Waste Rock Disposal Site Design Alternative would result in a decrease of 79 acres of disturbance compared to the Proposed Action. It would also involve a conventional waste rock disposal design and move waste rock away from more important Greater Sage-Grouse

habitat in order to minimize impacts to this important species. Ten other alternatives are considered but eliminated from further analysis. Mitigation measures were considered under each alternative to minimize environmental impacts and to assure the proposed action does not result in unnecessary or undue degradation of public lands.

On April 16, 2012, a Notice of Intent was published in the **Federal Register** inviting scoping comments on the Proposed Action. A legal notice was prepared by the BLM and published in the *Elko Daily Free Press*, *Ely Daily Times*, and the *Reno Gazette-Journal* informing the public of the BLM's intention to prepare the Pan Mine EIS. Public scoping meetings were held in May 2012 in Ely, Eureka, and Reno, Nevada. A total of 26 comments were received. The comments are incorporated in a Scoping Summary Report and were considered in the preparation of this Final EIS.

Concerns raised during scoping include: Potential impacts to archaeological resources, including the Carbonari sites and the loss of use of the 1913 alternative route of the Lincoln Highway; impacts to population and habitat of Greater Sage-Grouse; impacts to wild horses and their habitat; impacts to air quality through point (equipment) and non-point (waste rock disposal areas) pollution sources; changes to the quantity and quality of surface water and groundwater; potential occurrence of acid drainage from waste rock disposal areas into surface and groundwater; impacts to the fragile desert landscape, vegetation communities, and vegetative food resources for wildlife; short- and long-term impacts on wildlife population dynamics and habitats; impacts to general health of the rangeland resources; release of pollutants and hazardous materials to the environment during operations and following closure; increase in light pollution in the areas and direct visual impacts from mine facilities; positive and negative socioeconomic impacts to the communities of Ely and Eureka, and to White Pine County; and cumulative impacts to wildlife, wild horses, cultural, air, water, and vegetation resources. The two action alternatives were developed to avoid, minimize, and mitigate potential impacts to Greater Sage-Grouse. Mitigation measures have been included to show how impacts on all resources could be minimized.

The BLM prepared the Draft EIS in conjunction with its three cooperating agencies: The Nevada Department of Wildlife, the Eureka County

Commissioners, and the White Pine County Commissioners. A Notice of Availability was published in the **Federal Register** on March 22, 2013 (78 FR 17713), and the public was invited to provide written comments on the Draft EIS during the 45-day comment period. Public meetings were conducted during the review period for the Draft EIS.

Comments on the Draft EIS received from the cooperating agencies, the public, and the internal BLM review were considered and incorporated, as appropriate, into the Final EIS. The comments included concerns to affects to the Lincoln Highway, Greater Sage-Grouse and its habitat, migratory birds, pygmy rabbits, air quality, night sky viewing, socioeconomics, and water quantity. There were also comments received in general support for the mine. These public comments resulted in the addition of clarifying text, but did not significantly change the analysis. The agency preferred alternative is a combination of the Southwest Power Line Alternative and the Waste Rock Disposal Site Design Alternative.

Following a 30-day Final EIS availability and review period, a Record of Decision (ROD) will be issued. The decision reached in the ROD is subject to appeal to the Interior Board of Land Appeals. The 30-day appeal period begins with the issuance of the ROD.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-447 and 731-TA-1116 (Review)]

Circular Welded Carbon-Quality Steel Pipe From China

Determination

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission (Commission) determines, pursuant to section 751(c) of the Tariff

Act of 1930 (19 U.S.C. 1675(c)), that revocation of the antidumping and countervailing duty orders on circular welded carbon-quality steel pipe from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.²

Background

The Commission instituted these reviews on June 3, 2013 (78 FR 33108) and determined on September 6, 2013 that it would conduct expedited reviews (78 FR 59371, September 26, 2013).³

The Commission completed and filed its determination in these reviews on November 18, 2013. The views of the Commission are contained in USITC Publication 4435 (November 2013), entitled *Circular Welded Carbon-Quality Steel Pipe from China: Investigation Nos. 701-TA-447 and 731-TA-1116 (Review)*.

By order of the Commission.

Issued: November 19, 2013.

Lisa R. Barton,

Acting Secretary to the Commission.

DEPARTMENT OF JUSTICE

[OMB Number 1103-NEW]

Agency Information Collection Activities; Proposed New Collection; Comments Requested: Drug Endangered Children Tracking System User Survey

ACTION: 60-day notice.

The Department of Justice (DOJ) Office of Community Oriented Policing Services (COPS) will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The revision of a previously approved information collection is published to obtain comments from the public and affected agencies.

The purpose of this notice is to allow for 60 days for public comment until January 21, 2014. This process is conducted in accordance with 5 CFR 1320.10.

² Commissioner F. Scott Kieff did not participate in these reviews.

³ Due to the lapse in appropriations and ensuing cessation of Commission operations, all import injury investigations conducted under authority of Title VII of the Tariff Act of 1930 have been tolled by 16 days pursuant to 19 U.S.C. 1675(c)(5)(C)(ii).

If you have comments, especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Danielle Ouellette, Department of Justice Office of Community Oriented Policing Services, 145 N Street NE., Washington, DC 20530.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
