Title: Metropolitan and Statewide and Nonmetropolitan Transportation Planning (*OMB Number: 2132-0529*)

Background: The FTA and Federal Highway Administration (FHWA) jointly carry out the federal mandate to improve urban and rural transportation. 49 U.S.C. 5303 and 5304 and 23 U.S.C. 134 and 135 authorize the use of federal funds to assist Metropolitan Planning Organizations (MPOs), States, and local public bodies in developing transportation plans and programs to serve the transportation needs of urbanized areas over 50,000 in population and other areas of States outside of urbanized areas. The information collection activities involved in developing the Unified Planning Work Program (UPWP), the Metropolitan Transportation Plan, the Long-Range Statewide Transportation Plan, the Transportation Improvement Program (TIP), and the Statewide Transportation Improvement Program (STIP) are necessary to identify and evaluate the transportation issues and needs in each urbanized area and throughout every State. These products of the transportation planning process are essential elements in the reasonable planning and programming of federally funded transportation investments.

In addition to serving as a management tool for MPOs, the UPWP is used by both FTA and FHWA to monitor the transportation planning activities of MPOs. It also is needed to establish national out year budgets and regional program plans, develop policy on using funds, monitor State and local compliance with technical emphasis areas, respond to Congressional inquiries, prepare Congressional testimony, and ensure efficiency in the use and expenditure of Federal funds by determining that planning proposals are both reasonable and cost-effective. 49 U.S.C. 5303 and 23 U.S.C.134 (j) require the development of TIPs for urbanized areas; STIPs are mandated by 49 U.S.C. 5304 and 23 U.S.C. 135(g) for an entire State. After approval by the Governor and MPO, metropolitan TIPs in attainment areas are to be incorporated directly into the STIP. For nonattainment areas, FTA/FHWA must make a conformity finding on the TIPs before including them in the STIP. The complete STIP is then jointly reviewed and approved or disapproved by FTA and FHWA. These conformity findings and approval actions constitute the determination that States are complying with the requirements of 23 U.S.C. 134 and 135 and 49 U.S.C. 5303 and 5304 as a condition of eligibility for federal-aid funding. Without these documents, approvals and findings, FTA and FHWA

cannot provide capital and/or operating assistance.

The FTA and FHWA updated their method for estimating the annual burden hours of the transportation planning programs on respondents. The FTA and FHWA surveyed a sample of MPO annual work programs to identify annual planning compliance burdens associated with the preparation of TIPS, STIPs and plans. The FTA and FHWA are using the information from this sample as the basis to estimate the annual compliance burden for both this request for revision of the currently approved information collection, as well as for a forthcoming Notice of Proposed Rulemaking that FTA and FHWA will issue to implement changes to the metropolitan and statewide and nonmetropolitan transportation planning programs as a result of the Moving Ahead for Progress in the 21st Century Act, Public Law 112-141 (2012).

Respondents: State Departments of Transportation and MPOs.

Estimated Annual Burden on Respondents: 8017 hours for each of the 472 respondents.

Estimated Total Annual Burden: 3,783,814 hours.

Frequency: Annual.

Matthew M. Crouch,

Associate Administrator for Administration.
