However, this gives a new group of licensee stations (PLMRs) an option regarding the method of transmission of required call sign information; it modifies the existing burden, and slightly increase the in-house cost burden—specifically the cost associated with providing the Commission sufficient information to decode the transmission—unless they choose the digital transmission option. Finally, the other part of this revision is adding one additional rule section which is 90.187 to this existing information collection.

Atlantic Highly Migratory Species; 2014 Atlantic Shark Commercial Fishing Seasons

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; fishing season notification.

SUMMARY: This final rule establishes opening dates and adjusts quotas for the 2014 fishing season for the Atlantic commercial shark fisheries. The quota adjustments are based on over- and/or underharvests experienced during 2013 and previous fishing seasons. In addition, NMFS establishes season opening dates based on adaptive management measures to provide, to the extent practicable, fishing opportunities for commercial shark fishermen in all regions and areas. These actions could affect fishing opportunities for commercial shark fishermen in the northwestern Atlantic Ocean, including the Gulf of Mexico and Caribbean Sea.

DATES: This rule is effective on January 1, 2014. The 2014 Atlantic commercial shark fishing season opening dates and quotas are provided in Table 1 under **SUPPLEMENTARY INFORMATION**.

ADDRESSES: Highly Migratory Species Management Division, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Guý DuBeck or Karyl Brewster-Geisz at 301–427–8503.

SUPPLEMENTARY INFORMATION:

Background

The Atlantic commercial shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) and its amendments are implemented by regulations at 50 CFR part 635. For the Atlantic commercial shark fisheries, the 2006 Consolidated HMS FMP and its amendments established, among other things, commercial quotas for species and management groups, accounting measures for under- and overharvests for the shark fisheries, and adaptive management measures such as

flexible opening dates for the fishing season and inseason adjustments to shark trip limits, which provide management flexibility in furtherance of equitable fishing opportunities, to the extent practicable, for commercial shark fishermen in all regions and areas.

On August 23, 2013 (78 FR 52487), NMFS published a rule proposing the 2014 opening dates for the Atlantic commercial shark fisheries and quotas based on shark landings information as of July 16, 2013. The proposed rule also considered using adaptive management measures such as flexible opening dates for the fishing seasons (§ 635.27(b)(3)) and inseason adjustments to shark trip limits (§ 635.24(a)(8)) to provide flexibility in furtherance of equitable fishing opportunities, to the extent practicable, for commercial shark fishermen in all regions and areas. The August 2013 proposed rule contains details regarding the proposal and how the quotas were calculated that are not repeated here. The comment period on the proposed rule ended on September 23, 2013.

During the comment period, NMFS received more than 500 written and oral comments on the proposed rule. Those comments, along with the Agency's responses, are summarized below. As further detailed in the Response to Comments section, after considering all the comments, NMFS is opening the fishing seasons for all shark management groups except the aggregated LCS and hammerhead shark management groups in the Atlantic region on January 1, 2014, as proposed in the August 23, 2013, proposed rule. The aggregated LCS and hammerhead shark management groups in the Atlantic region will open on June 1, 2014, which is a change from the proposed rule. Also, some of the quotas have changed since the proposed rule based on updated landings information as of October 18, 2013.

This final rule serves as notification of the 2014 opening dates of the Atlantic commercial shark fisheries and 2014 quotas, based on shark landings updates as of October 18, 2013, pursuant to § 635.27(b)(1)(i) through (b)(1)(x). This action does not change the annual base commercial quotas established under Amendments 2, 3, and 5a to the 2006 Consolidated HMS FMP for any shark management group. Any such changes would be performed through a separate action. Rather, this action adjusts the annual base commercial quotas based on over- and/or underharvests that occurred in 2013 and previous fishing seasons, consistent with existing regulations.
