

conformity; (2) be independent of small electric motor manufacturers, importers, distributors, private labelers or vendors; (3) be qualified to operate a certification system in a highly competent manner; and (4) be expert in the test procedures and methodologies in IEEE Standard 112–2004 Test Methods A and B, IEEE Standard 114–2010, CSA Standard C390–10, and CSA C747 or similar procedures and methodologies for determining the energy efficiency of small electric motors, and have satisfactory criteria and procedures for selecting and sampling small electric motors for energy efficiency testing. 10 CFR 431.447(b).

Each petition requesting classification as a nationally recognized certification program must contain a narrative statement as to why the organization meets the above criteria, be accompanied by documentation that supports the narrative statement, and be signed by an authorized representative. 10 CFR 431.447(c).

II. Discussion

Pursuant to sections 431.447 and 431.448, on February 20, 2013, UL submitted to the Department a Petition for “Classification in Accordance with 10 CFR 431.447 and 431.448” (“Petition” or “UL Petition”). The Petition was accompanied by a cover letter from UL to the Department, containing five separate sections that included narrative statements for each—(1) Overview, (2) Standards and Procedures, (3) Independent Status, (4) Qualification of UL LCC and UL Verification Services, Inc. to Operate a Certification System, and (5) Expertise in Small Motor Test Procedures. In accordance with the requirements of § 431.448(b), DOE published UL’s petition in the **Federal Register** on May 16, 2013 and requested public comments. 78 FR 28812.

In response to that notice, the National Electrical Manufacturers Association (NEMA), a trade association representing manufacturers of electrical products including small electric motors, submitted comments to DOE in a letter dated June 17, 2013 (Comment response to the published Notice of Petition, No. 5). In these comments, NEMA cited several concerns regarding UL’s petition, listing them in the order in which DOE requested comments in the notice. UL then submitted a letter to DOE dated June 26, 2013 responding to NEMA’s comments (Comment responding to NEMA’s comments on UL petition, No. 6).

As required by 10 CFR 431.448(d), DOE published on September 17, 2013 an interim notice of determination

regarding UL’s petition. 78 FR 57137. In that notice, DOE provided a description of the comments submitted by NEMA and the responses to those comments from UL. In reviewing the comments and responses, DOE found no cause to deny UL’s petition and concluded that UL could be classified as a nationally recognized certification program for small electric motors on an interim basis pending a 30-day period of public comment.

Having received no comments on the interim determination, the Department hereby announces its final determination pursuant to 10 CFR 431.448(e) that UL is classified as a nationally recognized certification program for small electric motors.

Issued in Washington, DC, on November 25, 2013.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Phosphate Rock Plants (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “NSPS for Phosphate Rock Plants (40 CFR Part 60, Subpart NN) (Renewal)” (EPA ICR No. 1078.10, OMB Control No. 2060–0111), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through March 31, 2014. Public comments were previously requested via the **Federal Register** (78 FR 33409) on June 4, 2013, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before January 2, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2013–0314, to: (1) EPA online using www.regulations.gov (our preferred method), by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart NN. Owners or operators of the affected facilities must submit a onetime-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Owners or operators of phosphate rock plants.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart NN).

Estimated number of respondents: 14 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 1,724 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$301,256 (per year), which includes \$132,582 annualized capital and/or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most recently approved ICR is due to an increase in the number of new or modified sources and an increase in labor costs. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions, are specified at 40 CFR part 60, subpart Da. Owners or operators of the affected facilities must submit a onetime-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is

inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of electric utility steam generating units.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart Da).

Estimated number of respondents: 710 (total).

Frequency of response: Initially, quarterly, and semiannually.

Total estimated burden: 168,258 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$29,143,496 (per year), includes \$12,685,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 7,419 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. There is also an increase in capital/startup and O&M costs as compared to the previous ICR. All changes from the most recently approved ICR are due to an increase in the number of existing sources subject to the standard, and are not due to any program changes. The number of existing sources has been increased to account for industry growth that has occurred since the most recent ICR was approved.

There is also an increase in respondent and Agency burden costs from the most-recently approved ICR due to the use of updated labor rates. This ICR references labor rates from the Bureau of Labor Statistics to calculate respondent burden costs, and references labor rates from OPM to calculate Agency burden costs.
