DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Intent To Grant a Partially Exclusive License; Aviation Devices and Electronic Components, L.L.C.

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy hereby gives notice of its intent to grant to Aviation Devices and Electronic Components, L.L.C. located at 1810 Mony Street, Ft. Worth, Texas 76102, a revocable, nonassignable, partially exclusive license throughout the United States (U.S.) in the fields of Adhesives, Sealants, Gaskets, Pastes and Tapes the Government-Owned inventions described in U.S. Patent No. 8,262,938: issued January 21, 2011, Navy Case No. PAX53 entitled “Active Aluminum Rich Coatings”//U.S. Patent No. 8,277,688: issued October 2, 2012, Navy Case No. PAX81 entitled “Aluminum Alloy Coated Pigments and Corrosion-Resistant Coatings”//U.S. Patent Application No: 13/564,341 filed August 1, 2012, Navy Case No. PAX115 entitled “Oxide Coated Metal Pigments and Film-Forming Compositions”//U.S. Patent Application No.: 13/628,323 filed September 27, 2012, Navy Case No. PAX121 entitled “Coated Aluminum Alloy Pigments and Corrosion-Resistant Coatings”.

DATES: Anyone wishing to object to the grant of this license must file written objections along with supporting evidence, if any, not later than December 26, 2013.

ADDRESSES: Written objections are to be filed with the Naval Air Warfare Center Aircraft Division, Technology Transfer Office, Attention Michelle Miedzinski, Code 5.0H, 22473 Millstone Road, Building 505, Room 117, Patuxent River, Maryland 20670.

FOR FURTHER INFORMATION CONTACT: Dan Swanson, 406–994–7736, *dss@montana.edu*, TechLink, 2310 University Way, Building 2–2, Bozeman, MT 59715. TechLink is an authorized Department of Defense Partnership Intermediary.

Authority: 35 U.S.C. 207, 37 CFR Part 404.

Dated: December 4, 2013.

N.A. Hagerty-Ford,

Commander, Office of the Judge Advocate General, U.S. Navy, Federal Register Liaison Officer.

BILLING CODE 3810-FF-P

DEPARTMENT OF ENERGY

[FE Docket No. 13-116-LNG]

Eos LNG LLC; Application for Long-Term Authorization To Export Liquefied Natural Gas Produced From Domestic Natural Gas Resources to Non-Free Trade Agreement Countries for a 25-Year Period

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application) filed on August 23, 2013, by Eos LNG LLC (Eos), requesting long-term, multi-contract authorization to export LNG produced from domestic sources in a volume equivalent to approximately 584 billion cubic feet per year (Bcf/yr) of natural gas, or 1.6 Bcf per day (Bcf/d). Eos seeks authorization to export the LNG for a 25-year term from the proposed Eos LNG Terminal (Project), to be located at the Port of Brownsville in Brownsville, Texas. Eos requests authorization to export LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas (non-FTA countries) with which trade is not prohibited by U.S. law or policy. Eos requests that this authorization commence on the earlier of the date of first export or 8 years from the date the authorization is granted. Eos requests this authorization both on its behalf and as agent for other parties who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA), 15 U.S.C. 717b.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., eastern time, February 10, 2014.

ADDRESSES: Electronic Filing by email: fergas@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Background

Eos is a Delaware limited liability company with its principal place of business in Boston, Massachusetts. Eos states that it qualifies as an African American minority-owned business. Eos's principal executives are Kent Strong, Eza Gadson, and Andrew Kunian. Eos states that it has recruited an LNG team to manage logistics and commercial operations of the venture.

Eos proposes to develop, own, and operate a natural gas liquefaction facility and LNG export terminal at the Port of Brownsville in Brownsville, Texas. The Application includes a copy of a signed option agreement between Eos and the Brownsville Navigation District for the lease by Eos of a 15 acre tract of land. Eos states that the site will be based on a floating liquefaction unit on a barge (FLNG) and an existing LNG tanker (utilized solely for storage) that are anchored to a dock at the Port of Brownsville. Eos states that LNG tankers owned by third parties will be loaded via ship to ship transfer from Eos's LNG storage tanker, then will set sail to buyers in Europe and Asia. Eos states that the FLNG is an autonomous floating structure that does not rely on any shore-based utilities to function. Eos states that the FLNG will be constructed in a shipyard and towed to its designated site, where it will be integrated with the gas source. Eos states that mooring and connection infrastructure requirements associated with the FLNG are minimal.

Current Application

Eos requests that DOE/FE grant a long term (in excess of two years), multi-contract authorization to export LNG from export terminals to be constructed in Brownsville, Texas to any non-FTA country which has developed or in the future develops the capacity to import LNG, and with which trade is not prohibited by U.S. law or policy. Eos requests this authorization for a volume of LNG equivalent to approximately 1.6 Bcf/d of natural gas (584 Bcf/yr) for a 25-year term, up to 14.6 trillion cubic feet, beginning on the date of the first export or 8 years from the date of issuance of the authorization requested by this Application, whichever is sooner.

Eos states that rather than enter into Liquefaction Tolling Agreements (LTAs), its business model will be to buy natural gas at the domestic price of the Henry Hub futures contract and sell it internationally at the prevailing market rate. However, if the profitability of this model declines, Eos states that it will maintain the option to convert to an LTA model, under which individual customers who hold title to the domestic natural gas will have the right to deliver that gas to Eos's terminal and receive LNG in return.

Eos requests long term, multi-contract authorization to engage in exports of LNG on its own behalf or as agent for others. Eos contemplates that the title holder at the point of export may be Eos or one of Eos's customers, or another party that has purchased LNG from an LTA customer pursuant to a long term contract. Eos requests authorization to register each LNG title holder for whom Eos seeks to export as agent, and proposes that this registration include a written statement by the title holder acknowledging and agreeing to comply with all applicable requirements included by DOE/FE in Eos's export authorization, and to include those requirements in any subsequent purchase or sale agreement entered into by that title holder. In addition to its registration of any LNG title holder for whom Eos seeks to export as agent, Eos states that it will file under seal with DOE/FE any relevant long term commercial agreements between Eos and such LNG title holder, including LTAs, once they have been executed. Eos states that DOE/FE has previously found that this commitment conforms to the requirements of 10 CFR 590.202(b), which calls upon applicants to supply transaction information "to the extent practicable."

Eos states that the natural gas supply underlying the proposed exports will
