Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 5 a.m. and 5 p.m., Pacific Time, Monday through Friday. More information on the planning process can also be found on the Tonto National Forest Web site at [www.fs.usda.gov/goto/TontoForestPlanRevision](http://www.fs.usda.gov/goto/TontoForestPlanRevision).

**SUPPLEMENTARY INFORMATION:** The National Forest Management Act (NFMA) of 1976 requires that every National Forest System (NFS) unit develop a land management plan. On April 9, 2012, the Forest Service finalized its land management planning rule (2012 Planning Rule), which provides broad programmatic direction to National Forests and National Grasslands for developing and implementing their land management plans. Forest plans describe the strategic direction for management of forest resources for ten to fifteen years, and are adaptive and amendable as conditions change over time.

Under the 2012 Planning Rule, the assessment of ecological, social, and economic trends and conditions is the first stage of the planning process. The second stage is a development and decision process guided, in part, by the National Environment Policy Act (NEPA) and includes the preparation of a draft environmental impact statement and revised Forest Plan for public review and comment, and the preparation of the final environmental impact statement and revised Forest Plan. The third stage of the process is monitoring and feedback, which is ongoing over the life of the revised forest plans.

With this notice, the agency invites other governments, non-governmental parties, and the public to contribute to the development of the assessment report. The assessment will rapidly evaluate the sustainability of existing ecological, economic, and social conditions and trends within the context of the broader landscape. It will help inform the planning process through the use of Best Available Scientific Information, while also taking into account other forms of knowledge, such as local information, national perspectives, and native knowledge. Lastly, the assessment will help identify the need to change the existing 1985 plan. Collaboration as part of the assessment phase supports the development of relationships of key stakeholders throughout the plan revision process, and is an essential step

to understanding current conditions, available data, and feedback needed to support a strategic, efficient planning process.

As public meetings, other opportunities for public engagement, and public review and comment opportunities are identified to assist with the development of the forest plan revision, public announcements will be made, notifications will be posted on the Forest's Web site at [www.fs.usda.gov/goto/TontoForestPlanRevision](http://www.fs.usda.gov/goto/TontoForestPlanRevision) and information will be sent out to the Forest's mailing list. If anyone is interested in being on the Forest's mailing list to receive these notifications, please contact Ken Born, Forest Planner, at the mailing address identified above, by sending an email to [tontoplan@fs.fed.us](mailto:tontoplan@fs.fed.us).
