Specifically, Northwest states that the project will only result in an operational change to comply with current Environmental Protection Agency emissions standards. There will be no change in current daily design capacity, daily maximum capacity, and/or maximum operating pressures of existing facilities as a result of this proposal. Northwest states that the mobile unit will maintain its primary function of replacing out-of-service permanent compression elsewhere on the system when needed, and the

project requires no additional capital cost expenditures.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Any person may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention. Any person filing to intervene or the Commission's staff may, pursuant to section 157.205 of the Commission's Regulations under the Natural Gas Act (NGA) (18 CFR 157.205) file a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (www.ferc.gov) under the "e-Filing" link.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), Contractor Conflicts of Interest; EPA ICR No. 1550.10, OMB Control No. 2030-0023 to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a "proposed extension of the ICR, which is currently approved through August 31, 2014. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before May 2, 2014.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OARM-2014-0058, online using www.regulations.gov (our preferred method), by email to Humphries.daniel@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460. Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA contractors will be required to disclose business relationships and corporate affiliations to determine whether EPA's interests are jeopardized by such relationships. Because EPA has the dual responsibility of cleanup and enforcement and because its contractors are often involved in both activities, it is imperative that contractors are free from conflicts of interest so as not to prejudice response and enforcement actions. Contractors will be required to

maintain a database of business relationships and report information to EPA on either an annual basis or when each work order is issued.

ICR numbers: EPA ICR No. 1550.10, OMB Control No. 2030-0023.

Respondents/affected entities: Entities potentially affected by this action are businesses or organizations performing contracts for the EPA.

Respondent's obligation to respond: Mandatory to continue performance on the respective contract, in accordance with respective contract clause terms.

Estimated number of respondents: 135 (total).

Frequency: 1,138 hours per response

Total estimated burden: 153,626 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: Estimated total annual costs are \$10,978,201.08. This includes an estimated contractor burden cost of \$9,858,202.20 and an estimated agency burden cost of \$1,119,998.88. These amounts were calculated using the hours above and the labor rates from the 2009 Bureau of Labor National Mean Statistics and the General Schedule.

Changes in Estimates: The Agency does not anticipate a change in the hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. Further, for the current ICR renewal, EPA estimates no incurred capital/start-up costs as it is not necessary for respondents to acquire any capital goods to provide the requested information.

Dated: February 25, 2014.

Director, Office of Acquisition Management.
