SUPPLEMENTARY INFORMATION:

Proposed Project

Medical Expenditure Panel Survey—Insurance Component

Employer-sponsored health insurance is the source of coverage for 85 million current and former workers, plus many of their family members, and is a cornerstone of the U.S. health care system. The Medical Expenditure Panel Survey—Insurance Component (MEPS-IC) measures the extent, cost, and coverage of employer-sponsored health insurance on an annual basis. Statistics are produced at the National, State, and sub-State (metropolitan area) level for private industry. Statistics are also produced for State and Local governments. The MEPS-IC was last approved by OMB on November 21st, 2013 and will expire on November 30th, 2016. The OMB control number for the MEPS-IC is 0935-0110. All of the supporting documents for the current MEPS-IC can be downloaded from OMB’s Web site at http://www.reginfo.gov/public/do/PRAViewDocument?ref_nbr=201310-0935-001.

In order to ensure that the MEPS-IC is able to capture important changes in the employer-sponsored health insurance market due to the implementation of the Patient Protection and Affordable Care Act (PPACA), a group was formed within AHRQ to research and propose revisions to the 2014 survey questionnaires based on the law’s provisions. Many of these updates are related to the implementation of the Small Business Health Options Program (SHOP) exchanges/marketplaces that are available to small employers for purchasing health insurance beginning in 2014.

The group’s proposals were sent to a variety of federal and private stakeholders to obtain their suggestions and comments. These stakeholders included the U.S. Department of Health and Human Services’ Assistant Secretary for Planning and Evaluation (ASPE), the Center for Medicare & Medicaid Services’ (CMS) Center for Consumer Information and Insurance Oversight, the CMS Office of the Actuary, the National Center for Health Statistics, the President’s Council of Economic Advisors, the Office of Management and Budget, the Bureau of Labor Statistics, the Employee Benefits Security Administration, the Bureau of the Census, and health insurance researchers at various universities and other not-for-profit organizations. These reviewers’ comments were invaluable, and are reflected in the questions proposed herein.

In addition to the new questions recommended for 2014, several questions in the 2013 survey are proposed for deletion as part of the 2014 improvements. These deletions are necessary to minimize the burden on survey respondents and are limited to those questions with less analytic value, with poor response rates, or those that are no longer relevant due to changes made under PPACA.

Unlike for previous years’ additions to the MEPS-IC questionnaires, the Bureau of the Census—which conducts and processes the survey on AHRQ’s behalf—was not able to pretest the proposed 2014 questions. Many of the new questions relate to PPACA requirements or options (such as the SHOP marketplaces) which did not exist prior to the deadline for preparation of the 2014 questionnaires. So employers would not yet have made changes to their health insurance coverage that could be researched to help in the development of the new questions.

For all establishment-level MEPS-IC forms, AHRQ proposes to make the following changes. As noted below, some new questions only will be asked of private-sector establishments with certain firm sizes (defined by number of employees) or comparably-sized government units:

≤50 firm size only:

- How many employees reported in Question 2a above worked less than 30 hours per week? _____ employees
Check box: No employees worked less than 30 hours
