SUPPLEMENTARY INFORMATION:

I. Abstract

Public Law 107-110, the No Child Left Behind (NCLB) Act of January 8, 2001, requires all schools including Bureau-funded boarding/residential schools to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging academic achievement standards and assessments. The NCLB Act, and implementing regulations at 25 CFR part 36, requires the Bureau to implement national standards for home-living situations in all Bureau-funded residential schools. The Bureau must collect information from all Bureau-funded residential schools in order to assess each school's progress in meeting the national standards. The Bureau is seeking renewal of the approval for this information collection to ensure that minimum academic standards for the education of Indian children and criteria for dormitory situations in Bureau-operated schools and Tribally-controlled contact and grant schools are met.

History and Description of the Remains

From April 27, 1938, to November 10, 1939, human remains representing, at minimum, 90 individuals were removed from the Cox site (1JA176), in Jackson County, AL. The Cox site was excavated as part of TVA's Guntersville reservoir project by the Alabama Museum of Natural History (AMNH) at the University of Alabama, using labor and funds provided by the Works Progress Administration. Excavation of the land commenced after TVA had acquired this land on July 19, 1937 for the Guntersville project. The excavation site was composed of a conical mound believed to have originally been a truncated pyramid, with multiple stratigraphic zones and also a village site containing most of the burial units. This site was occupied during the Woodland period (300 B.C.–A.D.1000) and the Crow Creek phase of the Mississippian culture (ca. A.D. 1400–1600). Details regarding this site may be found in *An Archaeological Survey of Guntersville Basin on the Tennessee River in Northern Alabama* by William S. Webb and Charles G. Wilder. The human remains and associated funerary objects excavated from the Cox site have always been in the physical custody of the AMNH at the University of Alabama. The human remains include
