SUPPLEMENTARY INFORMATION:

Title: Certified State Mediation Program.

OMB Control Number: 0560-0165.

Expiration Date of Approval: August 31, 2014.

Type of Request: Extension with revision.

Abstract: FSA administers the Certified State Mediation Program according to Subtitles A and B of Title V of the Agricultural Credit Act of 1987 (7 U.S.C. 5106). The number of state-certified mediation programs has remained stable for several years, and the current submission eliminates collections that are no longer applicable. In particular, requests to add a new state-certified mediation program have not been received in several years and are therefore removed from the time calculation.

To effectively administer the Program, FSA requires an application for recertification, which includes submission of a letter from the State, and completion of a letter from the grantee, SF-424, SF-424A, SF-424B, and SF-425. In addition, approved grantees provide a mid-year report as well as an annual report that includes information on mediation services provided during the preceding Federal fiscal year, assessment of the performance and effectiveness of the State's Program, and any other matters related to the Program as the State elects to include. In addition, program participants complete SF-270 to request

either advance funding or reimbursement of expenses already paid. The information requested is necessary for FSA to determine participants' eligibility and administer the Program efficiently and effectively. Lastly, the times included in previous requests were excessive; they have been adjusted accordingly to reflect current use.

The formula used to calculate the total burden hours is estimated average time per response (includes travel times) hours/minutes times total annual responses. The estimated annual burden per respondent is different from the estimated average time per response because one or more forms are filed more than once a year.

Estimated Annual Burden: The public reporting burden for this information collection is estimated to average 10 hours per unduplicated respondent.

Respondents: State agencies, Universities, and Non-Profit Organizations.

Estimated Number of Respondents: 37.

Estimated Number of Responses per Respondent: 6.

Estimated Total Annual Responses: 222.

Estimated Average Time per Response: 1.66.

Estimated Total Annual Burden Hours: 370.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA's estimate of burden, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice, including name and addresses, when provided, will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed on April 25, 2014.

Juan M. Garcia,

Administrator, Farm Service Agency.

SUPPLEMENTARY INFORMATION: USDA

16565—Black Hills National Forest Advisory Board is a non-scientific program advisory Board established by the Secretary of Agriculture in 2003 to provide advice and counsel to the U.S. Forest Service, Black Hills National Forest, in the wake of increasingly severe and intense wild fires and mountain pine beetle epidemics.

The purpose of the Board is to provide advice and recommendations on a broad range of forest issues such as forest plan revisions or amendments, travel management, forest monitoring

and evaluation, and site-specific projects having forest-wide implications. The Board also serves to meet the needs of the Recreation Enhancement Act of 2005 as a recreation resource advisory board (RRAC) for the Black Hills of South Dakota. The Board provides timely advice and recommendations to the Secretary through the forest supervisor regarding programmatic forest issues and project-level issues that have forest-wide implications for the Black Hills National Forest.

The Board meets approximately ten times a year, with one month being a field trip, held in August and focusing on both current issues and the educational value of seeing management strategies and outcomes on the ground. This Board has been established as a truly credible entity and a trusted voice on forest management issues and is doing often astonishing work in helping to develop informed consent for forest management.

For years, the demands made on the Black Hills National Forest have resulted in conflicts among interest groups resulting in both forest-wide and site-specific programs being delayed due to appeals and litigation. The Board provides a forum to resolve these issues to allow for the Black Hills National Forest to move forward in its management activities. The Board is believed to be one of the few groups with broad enough scope to address all of the issues and include all of the jurisdictional boundaries.

Significant Contributions

The Board's most significant accomplishments include:

1. A 2004 report on the Black Hills Fuels Reduction Plan, a priority following the major fires including the 86,000 acre Jasper Fire in 2000;
2. A 2004 initial Off-Highway Vehicle Travel Management Subcommittee report;
3. A report on their findings regarding the thesis, direction, and assumptions of Phase II of our Forest Plan produced in 2005;
4. The Invasive Species Subcommittee Report in 2005 covering recommendations to better stop invasive species from infiltrating the Forest;
5. A final Travel Management Subcommittee Report in 2006 in which the Board made 11 recommendations regarding characteristics of a designated motor vehicle trail system, the basis for our initial work to prepare our Motor Vehicle Use Map in 2010–2011;
6. The Board's annual work to attract funding through grants based on the Collaborative Landscape Forest

Restoration Program (CFLRP), a program of the Secretary of Agriculture *CFLR Program* to encourage the collaborative, science-based ecosystem restoration of priority forest landscapes;

7. A letter to the Secretary and the Chief of the Forest Service to work, restore and maintain open space for wildlife habitat and recreation needs like snowmobile trails; and

8. The annual reports to the Secretary detailing the Board's activities, issues, and accomplishments.

The Board is deemed to be among the most effective public involvement strategies in the Forest Service and continues to lead by example for Federal, State, and local government agencies working to coordinate and cooperate in the Black Hills of South Dakota and Wyoming.
