*Title of Collection:* Charter School Authorizer Annual Update.

*OMB Control Number:* 1855-0023.

*Type of Review:* An extension of an existing information collection.

*Respondents/Affected Public:* State, Local, or Tribal Governments.

*Total Estimated Number of Annual Responses:* 900.

*Total Estimated Number of Annual Burden Hours:* 2,025.

*Abstract:* The U.S. Department of Education (ED) has as one of its important policy goals expanding the number of high-quality public school choice options. Specifically, according to Part B section 5201 of the Elementary and Secondary Education Act, two of the established purposes of the Charter School Program office are: Evaluating the effects of charter schools, including the effects on students, student academic achievement, staff and parents, and expanding the number of high-quality charter schools available to students across the nation.

Charter school authorization is at the very crux of any efforts to expand and ensure high-quality public school choice options through public charter schools because charter school authorizers are the public entities primarily responsible for: Initial charter authorizations, on-going monitoring and oversight, and charter renewal and closure decisions.

Currently, there is no other comprehensive national database of the roughly 900 charter school authorizers complete with the schools under their authority; some of these data elements are available from public documents, but they are not made available to the public consistently across all authorizers. There is also no other comprehensive, fully-populated tool for tracking the activities of and evaluating the quality of authorizers nationwide based on their authorizing decisions in light of schools performance. This data collection will be administered to the all charter school authorizers.

*Title of Collection:* 2015 National Household Education Survey (NHES 2015) Full Scale Data Collection.

*OMB Control Number:* 1850-0768.

*Type of Review:* A revision of an existing information collection.

*Respondents/Affected Public:* Individuals or households.

*Total Estimated Number of Annual Responses:* 248,420.

*Total Estimated Number of Annual Burden Hours:* 40,299.

*Abstract:* The National Household Education Surveys Program (NHES) is conducted by the National Center for Education Statistics (NCES). NHES is NCES's principal mechanism for addressing education topics appropriate for households rather than establishments. Such topics cover a wide range of issues, including early childhood care and education, children's readiness for school, parent perceptions of school safety and discipline, before- and after-school activities of school-age children, participation in adult education and training, parent involvement in education, school choice, homeschooling, and civic involvement. The NHES consists of a series of rotating surveys using a two-stage design in which a household screener collects household membership and key characteristics for sampling and then appropriate topical survey(s) are mailed to sample members. Data from the NHES are used to provide national cross-sectional estimates on populations of special interest to education researchers and policymakers. For surveys about children, the population of interest is defined by age or grade in school, or both, depending on the particular survey topic and research questions. For surveys of adults, the population of interest is those aged 16 to 65 who are not enrolled in grade 12 or below, excluding those on active duty military service and those who are
